Local Government Records An Introduction To Their Management Preservation And Use:

Local Government Records Houston Gwynne Jones, American Association for State and Local History, 1985 *Local Government Records, an Introduction to Their Management, Preservation, and Use* Houston Gwynne Jones, American Association for State and Local History, 1980 *Annotation*, 1993 *Managing Local Government Archives* John H. Slate, Kaye Lanning Minchew, 2016-07-08 Here is a comprehensive authoritative introduction to the elements of day to day operations of local government archives with special emphasis on best practices and practical solutions and strategies for establishing and improving such things as storage environmental control staffing and intellectual control It includes a chapter on general consideration for preservation of electronic archival records Local government records are the records that most directly touch the lives of U S residents deeds and property records marriage licenses school transcripts law suits and more yet these records are often the most neglected records in the country This guide is designed to appeal both to trained archivists as well as to those without formal training but find they are dealing with the administration of an archives program in a municipality county parish township or borough or a quasi governmental entity such as a water district or a regional transportation authority *Managing Local Government Archives* describes and prescribes the essential elements and best practices of a local government archives program It is intended to be both a text for classroom instruction and a self help tool for both professional and paraprofessional archivists It is also intended to be helpful to local governments considering the planning and implementation of a formal archives program Coverage encompasses the various domains of archival enterprise as practiced in a local government setting acquisition appraisal arrangement and description preservation access relationship to the records management profession and other topics *Closing an Era* Richard J. Cox, 2000-09-30 The importance of records in modern society is explored by re examining some of the historical antecedents for critical functions in the modern records professions The motivation for writing this book comes from a conviction of the importance of records and records professionals in organizations and society as well as the need to possess a stronger sense of the events trends people debates and controversies producing the modern records professions Archivists and records managers have tended to discount the importance of their historical antecedents ignoring the fact that many of the current debates and issues before the profession are not new but embedded in the historical evolution of the records professions Re examining some of the historical origins helps records professionals to re examine their mission to manage records for the benefit of organizations and of all of society Such re evaluation also helps to remind records professionals and others that the concerns generated by new electronic recordkeeping technologies are not new at all but built deep within the fabric of traditional records creation and administration **Documenting Localities** Richard J. Cox, 2001 Written as a companion to the author's *Managing Institutional Archives Foundational Principles and Practices* Greenwood Press 1992 this 1996 work is here reprinted in a paperbound edition Cox archival studies U of Pittsburg focuses on the need for a more systematic approach to the acquisition

of archives and manuscripts Coverage includes the importance of the locality to American archival practice the primary methods archivists have used to acquire documentation about localities the practical basis of the archival documentation strategy as a more systematic approach to archival appraisal and a suggested schema for conducting such documentation work Annotation copyrighted by Book News Inc Portland OR **Archives and Library Administration** Lawrence J. McCrank,1986 This informative volume focuses on the effective management of library archives presenting perspectives and firsthand accounts from experienced and successful administrators in the field The contributors examine the differences and similarities in the management of archives and other library information centers providing valuable insights into various management styles decisions and planning techniques *Managing Local Government Records* New York State Archives,1985 Microfilming Local Government Records Ken Smith,Patricia Bruce Ward,Library Association of Australia. New South Wales Branch,1983 **Managing Records as Evidence and Information** Richard J. Cox,2000-12-30 For the past three decades policies regarding a variety of information issues have emanated from federal agencies legislative chambers and corporate boardrooms Despite the focus on information policy it is still a relatively new concept and one only now beginning to be studied The subject area is wider than believed archives and records policies information resources management information technology telecommunications international communications privacy and confidentiality computer regulation and crime intellectual property and information systems and dissemination This is not a compendium of policies to be used but rather an exploration in a more detailed fashion of the fundamental principles supporting the setting of records policies Records policies are critically important for records professionals to develop and use as a means of strategically managing the information and evidence found in the millions of records created daily provided that the policies are based on comprehensible principles This is a series of discourses on the fundamentals of archives and records management needing to be understood before any organization attempts to define and set any policy affecting records and information The chapters concern defining records how information technology plays into policy compiling the fundamental tasks of identifying and maintaining records as critical to records and information policy public outreach and advocacy as a key objective for such policy and the role of educating records professionals in supporting sensible records policies **Annual Report** United States. National Historical Publications and Records Commission,1982 **Archival Theory, Records, and the Public** Trevor Livelton,2003-11-18 Now in paperback Livelton considers the nature of public records from an archival perspective analyzing concepts rather than the daily realities with which public records archivists deal However his carefully reasoned conclusions provide a strong foundation on which principled rather than ad hoc decisions can be made and so will be of interest to teachers students and practitioners of archival science The author presents a general or theoretical view of public records as documents made or received and preserved by the sovereign or its agents in the conduct of governance This analysis is illustrated by a variety of examples including a discussion of freedom of information **Reauthorize the**
