Excellence In Public Relations And Communication Management:

Excellence in Public Relations and Communication Management James E. Grunig, 2013-10-18 This book is the initial volume coming out of the excellence project a comprehensive research effort commissioned by the IABC International Association of Business Communicators Research Foundation The purpose of this project was to answer two fundamental questions about public relations What are the characteristics of an excellent communication department How does excellent public relations make an organization more effective and how much is that contribution worth economically The research team began its work with a thorough review of the literature in public relations and related disciplines relevant to these questions What started as a literature review however has ended in a general theory of public relations one that integrates most of the wide range of ideas about and practices of communication management in organizations The Future of Excellence in Public Relations and Communication Management Elizabeth L. Toth, 2009-03-04 The Future of Excellence in Public Relations and Communication Management brings together an outstanding group of public relations scholars and practitioners to consider the indelible theory building in public relations of James E Grunig and Larissa A Grunig who with David M Dozier produced the 1992 IABC Excellence Study a benchmark body of work examining best practices in the public relations field In this assembled collection editor Elizabeth L Toth and the contributors show how and in what ways the theories of the Excellence Study have developed and changed They present research that advances excellence theories adds new dimensions and directions to the excellence theories and shows how the excellence study has moved on to a global stage Toth and her colleagues challenge future researchers to continue the theory building that will lead to understand how strategic public relations management contributes to organizations and society Public relations and communication management scholars in addition to practitioners and graduate students studying these areas will benefit immensely from the work included here Manager's Guide to Excellence in Public Relations and Communication Management David M. Dozier, Larissa A. Grunig, James E. Grunig, 1995 This book reports findings of a three nation study of public relations and communication management sponsored by the International Association of Business Communicators IABC Research Foundation The Excellence Study provides communication managers and public relations practitioners with information critical to their own professional growth and supplies organizations with tools that help them communicate more effectively and build beneficial relations with key publics Communication excellence is a powerful idea of sweeping scope that applies to all organizations large or small that need to communicate effectively with publics on whom the organization's survival and growth depend The essential elements of excellent communication are the same for corporations not for profit organizations government agencies and professional trade associations And they are applicable on a global basis The study identifies three spheres of communication excellence These spheres consider the overall function and role of communication in organizations and define the organization of this book They are the core or inner sphere of communication excellence the knowledge base

of the communication department the shared expectations of top communicators and senior managers about the function and role of communication and the organization's culture the larger context that either nurtures or impedes communication excellence This text also examines communication excellence as demonstrated in specific programs developed for specific publics

Government Public Relations Mordecai Lee, 2007-12-17. In the same manner as budgeting, HR, strategic planning, and performance assessment, public relations must be included in the process.

One could make a reasonable argument that public relations is an ancient practice going back millennia although it has been popularly perceived as a 20th century phenomenon. Scholarship in public relations however is more recent in origin with a history of less than four decades. During these formative years the body of knowledge has expanded significantly which is laudable. However there is potential for growth and improvement in many areas of the public relations literature. Over the decades among other things public relations scholarship has largely remained parochial to specific regions such as the United States, the United Kingdom, Latin America, German speaking Europe etc as evidenced in the bibliographic references of many essays in this volume itself where authors predominantly cite work from their own regions. This is often necessitated by linguistic differences with only English serving as the universal language that helps permeate knowledge through most regions. Pedagogical and methodological factors also have played a role in the regionalization of the body of knowledge. However we believe that knowledge flourishes most when it is shared across different kinds of barriers. Globalization has made it essential for us to recognize this reality more than ever. This volume tries to bridge the gap and presents theories and concepts from researchers around the world.

Public Relations Jacquie L'Etang, Magda Pieczka, 2006-02-24. This new text for students and practitioners in public relations has been built on the acclaimed *Critical Perspectives in Public Relations* also edited by Jacquie L'Etang and Magda Pieczka which is no longer in print. Many of the liveliest minds on the public relations scene have contributed fresh ideas and diverse perspectives from their location. *Corporate Social Responsibility, Sustainability and Public Relations* Donnalyn Pompper, 2015-11-19. While public relations offers numerous assets for organization stakeholder relationship building and for ethical corporate social responsibility and sustainability communication it also faces challenges linked to negative perceptions of the profession which can lead to accusations of greenwashing. This innovative book critically explores the growing complex and sometimes contradictory connections among public relations, corporate social responsibility and sustainability. This book advocates a postmodern insider activist role for public relations which can transform organizations into moral places committed to people, planet and profit. By amplifying voices of nearly 100 for-profit and nonprofit professionals and using hermeneutic phenomenological theme analyses of CSR Sustainability reports and websites this book invokes public relations postmodern and critical theories to empower public relations professionals to transform organizations into ethical, authentic and transparent actors in the public sphere. It is essential reading for scholars, educators and enquiring professionals working in public relations, corporate communication, sustainability and corporate social responsibility.
