*Exercises in Elementary Algebra* J. Richard Lux, Richard S. Pieters, 1977  
**Elementary Algebra** G. F. Wright, 2015-06-17 Excerpt from *Graduated Series of Exercises in Elementary Algebra With Appendix Containing Papers of Miscellaneous Examples Designed for the Use of Schools* It has been my aim in drawing up the following Exercises in Elementary Algebra to facilitate the change in the Mathematical teaching of our schools which whilst generally admitted to have been long desirable for its own sake seems now imperatively called for by the institution of the Civil Service Examinations and the recent changes at our Universities The necessity of a greater attention to principles is daily becoming more apparent Algebra is confessedly inferior to Euclid as a mental discipline but I do not therefore think it reasonable that we should look to the latter only to train the mind and make the former a mere exercise for the memory The value of the information acquired certainly does not warrant the mechanical teaching which has been and still is too generally prevalent About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *A Graduated Series of Exercises in Elementary Algebra* G.F.
