### **Food Television and Otherness in the Age of Globalization**

Casey Ryan Kelly, 2017-02-09 Food Television and Otherness in the Age of Globalization examines the growing popularity of food and travel television and its implications for how we understand the relationship between food place and identity Attending to programs such as Bizarre Foods Bizarre Foods America The Pioneer Woman Diners Drive Ins and Dives Man vs Food and No Reservations Casey Ryan Kelly critically examines the emerging rhetoric of culinary television attending to how American audiences are invited to understand the cultural and economic significance of global foodways This book shows how food television exoticizes foreign cultures erases global poverty and contributes to myths of American exceptionalism It takes television seriously as a site for the reproduction of cultural and economic mythology where representations of food and consumption become the commonsense of cultural difference and economic success

No Foreign Food Richard Pillsbury, 2018-02-12 Reading

Richard Pillsbury's remarkable *No Foreign Food* like the grand opening of a new restaurant in one's neighborhood is an exciting and pleasurable event. He engagingly chronicles the amazing diversity of America's food ways that are so central to our history and culture but he also tells us why our eating habits are much more than mere gastronomic experiences. Karl Raitz, UNIVERSITY OF KENTUCKY, *No Foreign Food* is the only serious up-to-date treatment of American food habits that I know a subject unaccountably neglected by most students of the American scene. In Pillsbury's skillful hands American food habits become more than just a set of cranky likes and dislikes but instead a mirror to America's larger culture. It is an indispensable book for any serious student of the American scene. Pierce Lewis, PENNSYLVANIA STATE UNIVERSITY, *No Foreign Food* explores the evolution and transformation of the American diet from colonial times to the present. How and why did our bland colonial diet evolve into today's restless melange of exotic foods? Why are Hoppin John, lutefisk, and scrapple once so important, seldom eaten today? How has the restaurant shaped our daily menus? These and hundreds of other questions are addressed in this examination of the changing American diet. *Meta-Scenario Computation for Social-Geographical Sustainability* Jun Yang, Bing Xue, Xiangming Xiao, Jianhong Xia, Xinli Ke, 2023-03-02 **Food and the City in Europe since 1800** Peter Lummel, 2016-04-15 This fascinating volume examines the impact that rapid urbanization has had upon diets and food systems throughout Western Europe over the past two centuries. Bringing together studies from across the continent, it stresses the fundamental links between key changes in European social history and food systems, food cultures, and food politics. Contributors respond to a number of important questions including when and how did local food production cease to be sufficient for the city and when did improved transport conditions and liberal commercial relations replace local by supra-regional food supplies? How far did the food industry contribute to improved living conditions in cities? What influence did urban consumers have? *Food and the City in Europe since 1800* also examines issues of food hygiene and health impacts in cities, looks at various food innovations and how new foods often first gained acceptance in cities and explores how eating fashions have changed over the centuries.
