Ethics Goes to the Movies Christopher Falzon, 2018-12-07 Movies hold a mirror up to us portraying the complexities of human reality through their characters and stories And they vividly illustrate moral theories that address questions about how we are to live and what sort of people we ought to be In this book Christopher Falzon uses movies to provide a rich survey of moral positions as they have emerged through history These include the ethics of the ancient world medieval ethics Enlightenment and Kantian ethics existentialist ethics and the ethics of the other Each theory is explained in detail using a number of examples from the book's wide selection of movies The discussion draws on a range of recent and not so recent films from Hollywood blockbusters to art house cinema Key Features In addition to covering thinkers one would expect in an introduction to ethics e.g. Plato Aristotle Kant the book discusses less canonical figures in detail as well e.g. Marcuse Foucault Habermas Similarly the book examines both major ethical theories e.g. Kantianism utilitarianism virtue ethics and theories too often glossed over in introductory texts e.g. Stoicism Epicureanism Habermas's discourse ethics and Nietzschean ethics A wide range of movies are discussed from Hollywood blockbusters and classics like *The Dark Knight* *Casablanca* and *Dirty Harry* to lesser known films like *Force Majeure* and *Under the Skin* At the end of each chapter a focus on two feature films is included with a plot summary and interpretations of several key scenes with a time marker indicating when in the film the scenes occur A Filmography includes all movies discussed in the book and a Glossary covers key philosophical terms and figures both with corresponding page numbers

John Ruskin and the Ethics of Consumption David Melville Craig, 2006 The first book on the Victorian critic and public intellectual John Ruskin by a scholar of religion and ethics this work recovers both Ruskin's engaged critique of economic life and his public practice of moral imagination With its reading of Ruskin as an innovative contributor to a tradition of ethics concerned with character culture and community this book recasts established interpretations of Ruskin's place in nineteenth century literature and aesthetics challenges nostalgic diagnoses of the supposed historical loss of virtue ethics and demonstrates the limitations of any politics that eschews common purpose as vital to individual agency and social welfare Although Ruskin's moralistic efforts did not always allow for democratic individuality equality and contestation his eclecticism Craig argues helps to correct these problems Further Ruskin's interdisciplinary explorations of beauty work nature religion politics and economic value reveal

the ways in which his insights into the practical connections between aesthetics and ethics and culture and character might be applied to today's debates about liberal modernity today. With the triumph of global capitalism and the near silence of any opposing voice, Ruskin's model of an engaged reading of culture and his public practice of moral imagination deserve renewed attention. This book provides students in religion, politics and social theory with a timely reintroduction to this timeless figure.

Jewish Philosophy in the Middle Ages T. M. Rudavsky, 2018-07-11. T. M. Rudavsky presents a new account of the development of Jewish philosophy from the tenth century to Spinoza in the seventeenth century, viewed as part of an ongoing dialogue with medieval Christian and Islamic thought. Her aim is to provide a broad historical survey of major figures and schools within the medieval Jewish tradition, focusing on the tensions between Judaism and rational thought. This is reflected in particular philosophical controversies across a wide range of issues in metaphysics, language, cosmology and philosophical theology. The book illuminates our understanding of medieval thought by offering a much richer view of the Jewish philosophical tradition, informed by the considerable recent research that has been done in this area.
