Local Governance and Minority Empowerment in the CIS Valerii Aleksandrovich Tishkov, Elena Ivanovna Filippova, 2002

Local Government in Central and Eastern Europe Andrew Coulson, Adrian Campbell, 2007-08-02 This book examines the democratic changes that took place in civil society in Central and Eastern Europe after the break up of the Soviet Union

Heads of the Local State John Garrard, 2017-11-28 In recent decades there has been increasing historical interest in various aspects of local urban politics resulting in a much better understanding of the recruitment and socio economic characteristics of municipal leadership and the exercise of power at a local level However much less is known about the highly important offices and office holders standing at the ceremonial political and executive head of towns and cities Through a comparative analysis of mayoralty since 1800 this volume explores the characteristics of the office in relation to such issues as the constitutional position of mayors their ceremonial and executive roles their representational status in relation to local regional and central authority and their public visibility which at various times has been used to highlight or blur issues of race gender politics or religion within a community Drawing on examples from contrasting national contexts in Eastern and Western Europe and North America and with contributions from both historians and political scientists this book will be welcomed as an important step in providing a much fuller international picture of the development and nature of urban governance

Local Politics and Democratization in Russia Cameron Ross, 2008-10-27 This comprehensive study of local politics in Russia shows that the key reforms of local government and the struggle to forge viable grassroots democracies have been inextricably linked to the wider struggle for power between the regions and the Kremlin and to the specific nature of Russia's highly politicized and negotiated form of asymmetrical federalism During the Yeltsin era all attempts to create a universal and uniform system of local self government in the federation were a failure Under the protection of their constitutions and charters and the extra constitutional rights and powers granted to them in special bilateral treaties regional leaders particularly in Russia's 21 ethnic republics were able to instigate highly authoritarian regimes and to thwart the implementation key local government reforms Thus by the end of the Yeltsin era the number of municipalities their type status and powers varied tremendously from region to region Putin's local government reforms also need to be viewed as an integral component of his wider centralizing political agenda and his assault on the principles and practices of federalism With the instigation of his dictatorship of law and power vertical Putin has thwarted the development of grassroots democracy and overseen the creation of local electoral authoritarian regimes Putin's new system of local self government marks a victory for the proponents of the statist concept of local self government over those who championed the societal concept codified in Article 12 of the Russian Constitution Overall this book is an important resource for anyone seeking to understand politics in Putin's Russia

Governance in Ethnically Mixed Cities Sherrill Stroschein, 2013-10-18 This collection of original essays breaks new ground by examining the dynamics of ethnic politics at the local level rather

than following in the footsteps of many previous studies which focus on the macropolitical level of states and nations Governance in Ethnically Mixed Cities is based on extensive fieldwork and local observation providing perspectives from a range of academic disciplines including Political Science Geography and Anthropology It covers a variety of geographic areas from the Middle East Kirkuk Haifa and Tel Aviv Jaffa to Europe Mostar Bolzano Toulouse and Florence Central Asia Osh in Kyrgyzstan and the United States Durham North Carolina In spite of the variety of disciplinary approaches and geographic diversity of the case studies the contributing authors uncover a number of common elements of local ethno-political dynamics in mixed cities the power of informal institutions the effect of numerical balances between groups on local politics and the significance of local competition for material and symbolic resources Each of these areas provides a promising avenue for future research

Central and Eastern Europe After Transition Wojciech Sadurski, 2016-04-08 How have national identities changed developed and reacted in the wake of transition from communism to democracy in Central and Eastern Europe Central and Eastern Europe After Transition defines and examines new autonomous differences adopted at the state and the supranational level in the post transitional phase of the post Communist area and considers their impact on constitutions democracy and legal culture With representative contributions from older and newer EU members the book provides a broad set of cultural points for reference Its comparative and interdisciplinary approach includes a useful selection of bibliographical resources specifically devoted to the Central Eastern European countries transitions

Social Equity in the Public Administration Classroom Michaela E. Abbott, Bruce D. McDonald III, William Hatcher, 2023-05-22 This compelling book explores the dimensions of social equity by asking the leading equity scholars to reflect on the responsibility for social equity and how equity can be achieved Social equity is concerned with fairness in the development and administration of public policies Despite its importance there has always been an uneasiness in how equity is discussed and obtained While we acknowledge that social equity is important we have struggled in our efforts to achieve it The inequities in our society and the lack of a concerted effort to address the problems have only become prominent due to the COVID 19 Pandemic and the Black Lives Matter Movement Each of the chapters in this volume pays particular attention to how social equity can be effectively incorporated into the classroom This book is a rare opportunity to shape the conversation about social equity and provide a venue for dialogue around the questions of what why and how we teach about equity This book is an insightful resource for researchers and scholars of Politics and Public Administration The chapters in this book were originally published in the Journal of Public Affairs Education

Ethnic Belonging, Gender, and Cultural Practices Ulrike, 2014-04-15 How are youth cultural identities rooted in gender ethnicity and place What resources do young people from ethnic minorities use in creating their cultural identities Drawing upon interdisciplinary research Ulrike Ziemer's case study demonstrates the different ways in which young people from ethnic minorities respond to the social political and cultural transformations of post Soviet Russia and provides a detailed analysis of how local vs global relations are

experienced outside the West Relying on extensive ethnographic fieldwork Ziemer explores the complex processes of identity formation and cultural experiences among young Armenians in Krasnodar krai and young Adyghs in the Republic of Adyghea Both ethnic groups Armenians and Adyghs have a minority status in Russia yet Adyghs are indigenous to the region while Armenians constitute a diaspora people This book is the first specific examination of Armenian and Adygh youth identities in the context of everyday life experiences in post Soviet Russia

Political Participation of Minorities

Marc Weller, Katherine Nobbs, 2010 This Commentary provides the reader with a review of international standards and practice relating to the political participation of minorities Political participation has been increasingly recognized as a foundational issue in the debate about minority rights It is argued that minorities are more likely to feel co ownership in the state if they have the opportunity to participate freely and effectively in all aspects of its governance and that sustained and meaningful engagement will guard against the sense of alienation and exclusion among minorities that often emerges in ethnically divided societies Taking as its starting point the two most important standard setting documents in the field the Lund Recommendations on the Effective Participation of National Minorities in Public Life developed by the Organization for Security and Cooperation in Europe and the Council of Europe s Thematic Commentary on the Issue of Political Participation of Minorities the Commentary locates the international legal entitlement to political participation within the wider context of the right to democratic governance It also considers effective participation in relation to the right to full and effective equality as well as the legal entrenchment of these provisions and implementation mechanisms Individual chapters then consider each of the principal mechanisms aimed at enhancing political participation ranging from procedures covering minority representation in political institutions to consultative mechanisms and autonomy solutions The Commentary draws on a team of experts all of whom are recognized authorities in this specialized area of minority issues

Tajikistan Kirill Nourzhanov, Christian Bleuer, 2013-10-08 This book is a historical study of the Tajiks in Central Asia from the ancient times to the post Soviet period For millennia these descendants of the original Aryan settlers were part of many different empires set up by Greek Arab Turkic and Russian invaders as well as their own most notably during the Middle Ages The emergence of the modern state of Tajikistan began after 1917 under Soviet rule and culminated in the promulgation of independence from the moribund USSR in 1991 In the subsequent civil war that raged between 1992 and 1997 Tajikistan came close to becoming a failed state The legacy of that internal conflict remains critical to understanding politics in Tajikistan a generation later Exploring the patterns of ethnic identity and the exigencies of state formation the book argues that despite a strong sense of belonging underpinned by shared history mythology and cultural traits the Tajiks have not succeeded in forming a consolidated nation The politics of the Russian colonial administration the national territorial delimitation under Stalin and the Soviet strategy of socio economic modernisation contributed to the preservation and reification of sub ethnic cleavages and regional identities The book demonstrates the impact of region based elite clans on Tajikistan s political

trajectory in the twilight years of the Soviet era and identifies objective and subjective factors that led to the civil war It concludes with a survey of the process of national reconciliation after 1997 and the formal and informal political actors including Islamist groups who compete for influence in Tajik society Tajikistan A Political and Social History is the best source of information on this important country in the English language Drs Nourzhanov and Bleuer present a comprehensive yet detailed account of the past and prospects of this emerging nation and have filled one of the major gaps in Central Asian scholarship This book must be read by those who wish to grasp the vagaries of Central Asia s evolving political and cultural landscapes Reuel Hanks Professor of Geography Oklahoma State University and Editor of the Journal of Central Asian Studies If Tajikistan is known outside its region it is often for the civil war that gravely damaged it This volume authoritatively provides the longer perspective to the unsettling events of the 1990s and skilfully explains them in terms of history social structure and sub state identities In addition to highlighting a wealth of local factors it is insightful on the ways in which antagonists can be transformed into broader ethnic and regional blocs Kirill Nourzhanov and Christian Bleuer are erudite guides to an understudied part of Central Asia while astutely instructing us about larger patterns of state society relations and their impact on the logic of conflict James Piscatori Professor of International Relations Durham University

Food Security and Political Stability in Tajikistan Raj Kumar Sharma, 2018-10-01 There are links between food security and political stability as was evident during the world food crisis of 2007-08 Food riots were witnessed in a number of countries contributing to political instability There are a number of dimensions to the problem of food insecurity in Tajikistan This book is an attempt to fill the academic void on Tajikistan especially pertaining to its food security This work traces the history of agriculture and food production in Tajikistan from mid 19th century when it came under Russian rule From its inception Tajikistan has been facing the geographic handicap as it is a mountainous country and only 7 percent of the total land is arable which limits its food production This book is a detailed study of how Soviet economic geography introduced intensive cotton cultivation in Tajikistan at the expense of food crops Soviet economic planners felt that a region with hot climate and large water resources should not attempt to grow grains but cotton In the contemporary context this book focuses on how the state and international actors have responded to the food insecurity in Tajikistan Most importantly the book also analyses the relationship between food security and political stability in Tajikistan Villages on Stage Jennifer R. Cash, 2011 Villages on Stage examines the contribution of folklore and ethnography to the construction of national identity in post Soviet Moldova through the development of a new genre of folkloric performance By highlighting the contribution of villages to the creation of national culture and identity the standards of authenticity for amateur folkloric ensembles generate an alternative discourse to the State s official but contentious promotion of multiethnic policies At once inclusive and exclusive of the country s multiple ethnic groups the goals practices and ideologies embodied in folkloric performance portray both the local dilemmas of post socialist nation building and the shared challenge for folklore and ethnography to

participate in public debates about cultural diversity Series Halle Studies in the Anthropology of Eurasia Vol 26 **National Minorities in Putin's Russia** Federica Prina, 2015-10-05 Using a human rights approach the book analyses the dynamics in the application of minority policies for the preservation of cultural and linguistic diversity in Russia Despite Russia's legacy of ethno cultural and linguistic pluralism the book argues that the Putin leadership's overwhelming statism and promotion of Russian patriotism are inexorably leading to a reduction of Russia's diversity Using scores of interviews with representatives of national minorities civil society public officials and academics the book highlights the reasons why Russian law and policies as well as international standards on minority rights are ill equipped to withstand the centralising drive toward ever greater uniformity While minority policies are fragmented and feeble in contemporary Russia they are also centrally conceived which is exacerbated by a growing democratic deficit under Putin Crucially in today's Russia informal practices and networks are frequently utilised rather than formal channels in the sphere of diversity management Informal practices the book argues can at times favour minorities yet they more frequently disadvantage them and create the conditions for the co-optation of leaders of minority groups A dilution of diversity the book suggests is not only resulting in the loss of Russia's rich cultural heritage but is also impairing the peaceful coexistence of the individuals and groups that make up Russian society New Russian Nationalism Pal Kolsto, 2016-03-24 Traces Russia's transforming nationalism from imperialism through ethnocentrism and migration phobia to territorial expansion This title was made Open Access by libraries from around the world through Knowledge Unlatched **Language Change in Central Asia** Elise S. Ahn, Juldyz Smagulova, 2016-01-15 Twenty years after the dissolution of the Soviet Union Kazakhstan Uzbekistan Kyrgyzstan Tajikistan and Turkmenistan are still undergoing numerous transitions This book examines various language issues in relation to current discussions about national identity education and changing notions of socio cultural capital in Central Asia **New Russian Nationalism** Kolsto Pal Kolsto, 2016-03-24 Russian nationalism previously dominated by imperial tendencies pride in a large strong and multi ethnic state able to project its influence abroad is increasingly focused on ethnic issues In 2014 Russia's annexation of Crimea and the subsequent violent conflict in Eastern Ukraine utterly transformed the nationalist discourse in Russia This book provides an up to date survey of Russian nationalism as a political social and intellectual phenomenon by leading Western and Russian experts in the field of nationalism studies It includes case studies on migrantophobia the relationship between nationalism and religion nationalism in the media nationalism and national identity in economic policy nationalism in the strategy of the Putin regime as well as a survey based study of nationalism in public opinion **Culture, Ethnicity and Migration After Communism** Anton Popov, 2016-06-10 This book addresses the issue of emerging transnationalism in the conditions of post socialism through focusing on migrants identity as a social construction resulting from their experience of the transnational circuit of culture as well as from post Soviet shifts in political and economic conditions in their home regions Anton Popov draws upon ethnographic research conducted among

Greek transnational migrants living on the Black Sea coast and in the North Caucasus regions of Russia who have become involved in extensive cross border migration between the former Soviet Union the Russian Federation Kazakhstan and Georgia and Greece as well as Cyprus It is estimated that more than 150 000 former Soviet citizens of Greek origin have resettled in Greece since the late 1980s Yet many of those who emigrate do not cut their connections with the home communities in Russia but instead establish their own transnational circuit of travel between Greece and Russia This study demonstrates how migrants employ their ethnicity as symbolic capital available for investment in transnational migration Simultaneously they rework their practices of family networking property relations and political participation in a way which strengthens their attachment to the local territory The findings presented in the book imply that the social identities economic strategies political practices and cultural representation of the Russia s Pontic Greeks are all deeply embedded in the shifting social and cultural landscape of post Soviet Russia and extensively influenced by the global movement of ideas goods and people

Trans-National Issues, Local Concerns and Meanings of Post-Socialism Moya Flynn, Rebecca Kay, Jonathan Oldfield, 2008-06-19 This volume examines societal change in the countries of Central and Eastern Europe CEE and Russia in a purposeful movement away from the generalized debated associated with transition theory and a simultaneous engagement with the complexities of everyday life throughout the region at the local level In addition to addressing the problematic nature of a discursive east west divide Trans National Issues Local Concerns and Meanings of Post Socialism brings together a range of academics and practitioners working on specific locally situated concerns including drug use HIV AIDS health identity and welfare as well as issues related to minority ethnic groups While drawing attention to the salience of a common socialist past these empirically rich chapters highlight the importance of moving beyond simplistic east west analytical framework in order to acknowledge the multifaceted societal realities evident with the former socialist countries of CEE and Russia

Gender, Geography, and Punishment Judith Pallot, Laura Piacentini, Dominique Moran, 2012-10-04 This book is the first of its kind that brings together human geography and the sociology of punishment to explore the relationship between distance and the punishment in contemporary Russia Using established penological and geographical theories the book presents in depth empirical research to show how the experiences of women prisoners are shaped by the distances that the Russian penal service sends prisoners to serve their sentences Its most eye catching feature is its use of interviews conducted by the authors and their research team with adult and juvenile women prisoners ex prisoners and prison officers in penal facilities in different regions of the Russian Federation between 2006 and 2010 It includes discussion of the impact of Russia s distinctive penal geography on prisoners family relationships how women prisoners sense of place and gender identities are shaped and re shaped on their journey from pre trial facility to correction colony to release and the social hierarchies relationships and practices that characterise Russia s penal institutions for women The authors are both experienced researchers in Russia The book brings together their complementary disciplinary

expertise in the development of the concept of coerced mobilization to explore Russia's punishment culture. The book argues that Russia's inherited geography of penalty combined with traditional ideas about women's role that shape the penal service's management of women prisoners add to their pains of imprisonment. Crucially, the authors show how these factors are constraining the Russian penal service's ability to implement successive reforms aimed at humanizing Russia's notoriously tough prisons. Russian imprisonment as it relates to women is, they believe, an area of significant concern for lawmakers in that country as well as to human rights campaigners, geographers interested in space and power, and scholars studying the post-Soviet system. **Sovetskaiia etnografiiia**, 2003
