housing and a lack of needed health and mental services on a daily basis. Due to these issues, there is a need for social workers who have access to relevant and timely scholarly materials in order to meet the needs of those facing these issues. The social psychological and biological factors resulting from these issues determine the level of a person's mental health at any given point in time, and it is necessary for social workers to continue to evolve and develop to the new faces and challenges of the times in order to adequately understand the effects of these issues. In the first and second editions of the Social Workers Desk Reference, the changes that were occurring in social work practice, education, and research were highlighted and focused upon. This third edition continues in the same tradition and continues to respond to the changes occurring in society and how they are impacting the education, research, and practice of social work as a whole. With 159 chapters collaboratively written by luminaries in the profession, this third edition serves as a comprehensive guide to social work practice by providing the most recent conceptual knowledge and empirical evidence to aid in the understanding of the rapidly changing field of social work. Each chapter is short and contains practical information in addition to websites and updated references. Social work practitioners, educators, students, and other allied professionals can utilize the Social Workers Desk Reference to gain interdisciplinary and interprofessional education, practice, and research.

Judging Juveniles Aaron Kupchik, 2006-11-20. 2007 Ruth Shonle Cavan Young Scholar Award presented by the American Society of Criminology. 2007 American Society of Criminology Michael J. Hindelang Award for the Most Outstanding Contribution to Research in Criminology. By comparing how adolescents are prosecuted and punished in juvenile and criminal adult courts, Aaron Kupchik finds that prosecuting adolescents in criminal court does not fit with our cultural understandings of youthfulness. As a result, adolescents who are transferred to criminal courts are still judged as juveniles. Ultimately, Kupchik makes a compelling argument for the suitability of juvenile courts in treating adolescents. Judging Juveniles suggests that justice would be better served if adolescents were handled by the system designed to address their special needs.
