Fast Electrical and Optical Measurements D.J. Thompson, Lawrence H. Luessen, 2013-11-11 An Advanced Study Institute on Fast Electrical and Optical Diagnostic Principles and Techniques was held at II Ciocco Castelveccchio Pascoli Italy 10-24 July 1983. This publication is the Proceedings from that Institute. The Institute was attended by ninety-seven participants representing the United States, West Germany, the United Kingdom, Switzerland, Norway, the Netherlands, Italy, and France. The objective of the Institute was to provide a broad but comprehensive presentation of the various measurement and analysis techniques that can be employed to investigate fast physical events nominally in the sub-microsecond regime. This requires both an understanding of the basic principles underlying the diagnostic employed and its limitations and a knowledge of the practical techniques available to obtain reliable and repeatable data. This Institute was thus structured to begin tutorially followed by more practical techniques demonstrations and discussions. The Institute was divided into the following major sections: 1 Overview of Applications and Needs, 2 Voltage and Current Measurements, 3 Data Acquisition, 4 Grounding and Shielding, 5 Fast Photography, 6 Refractive Index Measurements, 7 X-ray Diagnostics, 8 Spectroscopy, and 9 Active Optical Techniques. This Proceeding has been divided into two separate volumes. Volume 1 Current and Voltage Measurements includes Sections 1 through 4 above. Volume 2 Optical Measurements includes Sections 5 through 9. **Fast Electrical and Optical Measurements**, 1986

approach has been attempted The book starts with some fundamental issues namely fluid dynamics and optics and then deals with the design diagnostics propagation and applications of various gas laser systems covering the wavelength spectrum from XUV to infrared Then follow recent developments of general interest to the laser community and the book concludes with an eye to the future i e with a section on short wavelength chemical lasers
