Dam Busters James Holland, 2013-11-04 The story of the British made bombs Upkeep and Highball successfully dropped on Nazi dams has never been told in such depth before Daily Mail UK The night of May 16 1943 Nineteen specially adapted Lancaster bombers take off from an RAF airfield in Lincolnshire England each with a huge nine thousand pound cylindrical bomb strapped underneath it Their mission to destroy three hydroelectric dams that power the Third Reich s war machine It was a suicide mission from the outset First the men had to fly extremely low at night and in tight formation over miles of enemy occupied territory Then they had to drop with pinpoint precision a complicated spinning cylindrical bomb that had never before been used operationally More than that the entire operation had to be put together in less than ten weeks in order to hit the dams when water levels were still high enough for the bombs to be effective The visionary aviation engineer Barnes Wallis hadn t even drawn up plans for his concept when the bouncing bomb was green lighted What followed was an incredible race against time that despite numerous setbacks became one of the most successful and significant bombing raids of all time Holland has delved into the new trove of declassified documents to shed light on this weapons program the politics of its development and the eventual mission The Wall Street Journal An impeccably researched work in the style of a fast paced techno thriller Publishers Weekly Extremely detailed but never dull Holland offers a definitive nuts and bolts history Kirkus Reviews A well written study of engineering and invention operating under great pressure For all World War II history buffs Library Journal starred review

Group Captain John 'Joe' Collier DSO, DFC and Bar Simon Gooch, 2015-01-30 John Collier s war began on day one flying Hampdens in 83 Squadron with his friend Guy Gibson in a hunt for the battleship Admiral Scheer By the summer of 1940 he was bombing the Dortmund Ems Canal at low level then Bordeaux and the Scharnhorst at Brest which led to his DFC and Bar Given command of 420 RCAF Squadron at 25 Collier was hand picked to direct 97 Squadron whose Lancasters made a spectacular debut with the 1942 Augsburg Raid In Gibson s opinion Joe Collier s 97 was the best unit in Bomber Command After 63 missions Collier was awarded the DSO and was selected to join the Directorate of Bomber Operations B Ops 1 at the heart of the air war co ordinating with the USAAF issuing directives to Bomber Command and arguing for precision attacks on vital enemy industries and weaponry In B Ops 1 John Collier was

closely involved in planning the Dambuster Raid with Barnes Wallis drafted the attack on Peenemunde s V weapons research station and managed to delay the buzz bomb and rocket assault on London As target selector for the specialist 617 Squadron he and Leonard Cheshire VC made imaginative use of Wallis s Tallboy earthquake bomb 617 were also linked to Collier s role with SOE s Blackmail Committee that gave French industrialists a stark choice sabotage your own plant or be bombed flat By the time he moved to India in 1945 as Deputy Director of Combined Ops John Collier had been involved in most of the major initiatives of the bomber war His unpublished memoir of B Ops 1 and his logbooks and letters home give direct authority to this the first biography of this remarkable flyer one of the most significant young RAF officers of the war Stress in Post-War Britain, 1945-85 Mark Jackson,2016-12-05 In the years following World War II the health and well being of the nation was of primary concern to the British government The essays in this collection examine the relationship between health and stress in post war Britain through a series of carefully connected case studies **Flying against Fate** S. P. activity which then influenced virtually every Allied operation of the war These quick minded men and women were the ones to find out where the infamous German V weapons were being constructed were the first to see the results of the Dambusters raid and were sworn to utmost secrecy on everything they viewed Women made up half of this work force and were unusually treated as equals with their male counterparts the best person for the job regardless of gender Here the women of Medmenham the Women of Intelligence from Churchill s daughter to girls escaping home for the first time tell the story of their wartime life and work in their own words

Soldier at Bomber Command Charles Carrington,1987-01-01 It was certainly not through the foresight of his senior officers that Charles Carrington a veteran of the First World War was enabled to put his experience in that earlier conflict to good use in the Second as readers of this remarkable book will soon learn However by great good fortune he found himself in a position where his experience of things past could be adapted to the needs of a virtually untried aspect of warfare that of Army Air Force Co operation As an Army Officer in a world of high ranking Airmen it was his task to walk the tightrope between the two Services in an effort to persuade both parties that neither could win the war without the other and that co operation was preferable to self interest The words prima donna crop up frequently in the story and one is not surprised when the author remarks while we were organising signal exercises and such necessary menial chores at which the Services worked together without a hitch our problem was to get the Great Chiefs to stop quarrelling Although he describes his experiences with cheerful modesty it is clear that this unsung armchair soldier played a vital role in the back room battle that had to be resolved before the war proper could be waged with efficiency Apart from his being privy to much information that remained Top Secret for many years after the war Readers will soon see that his views on some of the Top Brass might have had unpleasant repercussions had they been aired too soon But those who have read his earlier works as well as those who come afresh to the work of this fluent and clear sighted writer will surly agree that the wait has been worthwhile

A God in Ruins Kate Atkinson,2015-05-05 This stunning companion to Kate Atkinson s 1 bestseller *Life After Life* one of the best novels I ve read this century Gillian Flynn follows Ursula s brother Teddy as he navigates an unknown future after a perilous war He had been reconciled to death during the war and then suddenly the war was over and there was a next day and a next day Part of him never adjusted to having a future Kate Atkinson s dazzling *Life After Life* explored the possibility of infinite chances and the power of choices following Ursula Todd as she lived through the turbulent events of the last century over and over again *A God in Ruins* tells the dramatic story of the 20th Century through Ursula s beloved younger brother Teddy would be poet heroic pilot husband father and grandfather as he navigates the perils and progress of a rapidly changing world After all that Teddy endures in battle his greatest challenge is living in a future he never expected to have An ingenious and moving exploration of one ordinary man s path through extraordinary times *A God in Ruins* proves once again that Kate Atkinson is one of the finest novelists of our age
