Jacques Lacan And The Question Of Psycho Analytic Training

Jacqueline Rose

Jacques Lacan And The Question Of Psycho Analytic Training:

Jacques Lacan and the Question of Psychoanalytic Training Moustafa Safouan, 2000 What makes someone a psychoanalyst In the recent controversies about psychoanalysis no attention has been paid to the issue of how psychoanalysts are trained Moustapha Safouan one of France's foremost psychoanalytic thinkers argues that only a radical reappraisal of the training process unquestioned since the 1920s until the vigorous but finally unsuccessful challenge of Jacques Lacan will give back to psychoanalysis its true inspirational status Translated with an introduction by critic and feminist Jacqueline Rose

Jacques Lacan and the Question of Psychoanalytic Training Moustafa Safouan, 2000 What makes someone a psychoanalyst In the recent controversies about psychoanalysis no attention has been paid to the issue of how psychoanalysts are trained Moustapha Safouan one of France's foremost psychoanalytic thinkers argues that only a radical reappraisal of the training process unquestioned since the 1920s until the vigorous but finally unsuccessful challenge of Jacques Lacan will give back to psychoanalysis its true inspirational status Translated with an introduction by critic and feminist Jacqueline Rose

Freud's Papers on Technique, 1953-1954 Jacques Lacan, 1988 This volume is the transcript of the first year of Lacan's world famous seminar Taking as its theme the technique of psychoanalysis within the framework of Lacan's return to Freud it includes elaboration of Lacan's notions of the symbolic the imaginary and the real the importance of speech and language in psychoanalysis and the interpretation to be put on the mirror stage *The Trainings of the Psychoanalyst* Annie Tardits, 2018-04-24 If psychoanalysis for Freud was an impossible profession what consequences would this have for psychoanalytic training and if one's own personal analysis lay at the heart of psychoanalytic training how could what one had learnt from this be transmitted let alone taught In this groundbreaking book Annie Tardits explores the many attempts that analysts have made to think through the problems of psychoanalytic training Moving from Freud and his first students through to Lacan and his invention of the pass Tardits charts the changing conceptions of psychoanalytic training With clarity and elegance she shows how different ideas of what psychoanalysis is will have effects on how training is understood If psychoanalysis involves each person's unique unravelling of the unconscious and of sexuality what kind of training would be appropriate or even possible **The Seminar of Jacques Lacan** Jacques Lacan, 1988 **Psychoanalysis Under Nazi**

Occupation Laura Sokolowsky, 2021-09-30 Laura Sokolowsky's survey of psychoanalysis under Weimar and Nazism explores how the paradigm of a psychoanalysis for all became untenable as the Nazis rose to power Mainly discussing the evolution of the Berlin Institute during the period between Freud's creation of free psychoanalytic centres after the founding of the Weimar Republic and the Nazi seizure of power in 1933 the book explores the ideal of making psychoanalysis available to the population of a shattered country after World War I and charts how the Institute later came under Nazi control following the segregation and dismissal of Jewish colleagues in the late 1930s The book shows how Freudian standards resisted the medicalisation of psychoanalysis for purposes of adaptation and normalisation but also follows Freud's distinction between

sacrifice where you know what you have given up and concession an abandonment of position through compromise to demonstrate how German psychoanalysts put themselves at the service of the fascist master in the hope of obtaining official recognition and material rewards Discussing the relations of psychoanalysis with politics and ethics as well as the origin of the Lacanian movement as a response to the institutionalisation of psychoanalysis during the Nazi occupation this book is fascinating reading for scholars and practitioners of psychoanalysis working today

Lacanian Psychoanalysis Ian Parker, 2010-07-16 Lacanian Psychoanalysis looks at the current debates surrounding Lacanian practice and explores its place within historical social and political contexts It draws on Lacan's approach to shed light on issues relevant to current therapeutic practice

Theology, Psychoanalysis and Trauma Marcus Pound, Conor Cunningham, Peter Candler, 2007-09-01 The subtitle of Pound's book could have been Lacan with Kierkegaard It stages an extraordinary dialogue between the two thinkers demonstrating the Kierkegaardian resonances of the key Lacanian concepts From now on we know that the Freudian notion of trauma its sexual references notwithstanding belongs to the domain of the divine The book is a true event after reading it neither Kierkegaard nor Lacan will remain the same in our theoretical imaginary You can ignore this book if you want to remain a happy idiot Slavoj Žižek Marcus Pound's first book is the most important sustained reflection on the relation of Theology and Psychoanalysis to date His approach is admirably focussed since it compares the ideas of the theological founder of complex motivational psychology Søren Kierkegaard with those of the most sophisticated secular psychoanalytical theorist Jacques Lacan In doing so Pound offers in a short compass both a psychological deepening of theological orthodoxy and a theological critique of psychoanalysis as such Future engagement with this area must begin with this lucid subtle and brilliant treatise John Milbank The vitality of Christian theology today its creativity its imaginative and scholarly engagement are nowhere more evident than in this book Pound's presentation of an interface between psychology and doctrine is as bold as it is original Kierkegaard meets Lacan trauma is related to liturgy and therapy to sacramentalism all under the aegis of Aquinas This is contemporary theology at its best exploring new terrains and forging distinctive relations between onetime strangers Graham Ward

Michel De Certeau Ben Highmore, 2006-06-19 Michel de Certeau is becoming increasingly recognised as a cultural theorist whose methodologies could rival those of Foucault In this engaging book Ben Highmore provides a stimulating account of Michel de Certeau's work and its relation to the field of cultural studies The book explores those aspects of de Certeau's work that both challenge and re-imagine cultural studies highlighting the potential this work has for supplying a critical epistemology and a practical ethics for the study of culture within the arts and humanities more generally Michel de Certeau *Analysing Culture* provides an ideal introduction to the work of this extraordinary and important thinker

Psychoanalysis, Politics, Oppression and Resistance Chris Vanderwees, Kristen Hennessy, 2022-06-09 This innovative text addresses the lack of literature regarding intersectional approaches to psychoanalysis underscoring the importance of thinking through race class and gender within psychoanalytic

theory and practice The book tackles the widespread perception of psychoanalysis today as a discipline detached from the progressive ideals of social responsibility institutional psychotherapy and community mental health Bringing together a range of international contributions the collection explores issues of class politics oppression and resistance within the field of psychoanalysis in cultural theoretical and clinical contexts It shows how in contrast to this misperception psychoanalysis has been attentive to these ideals from its origins as well as demonstrating how it continues to be relevant today through wide ranging conceptual discussions of the anti globalization Black Lives Matter and MeToo movements Written in an accessible style *Psychoanalysis Politics Oppression and Resistance* will be essential reading for practicing psychoanalysts as well as academics and students in a range of humanities and social sciences fields *Impious Fidelity* Suzanne

Stewart-Steinberg,2012-02-17 In *Impious Fidelity* Suzanne Stewart Steinberg investigates the legacy of Anna Freud at the intersection between psychoanalysis as a mode of thinking and theorizing and its existence as a political entity Stewart Steinberg argues that because Anna Freud inherited and guided her father s psychoanalytic project as an institution analysis of her thought is critical to our understanding of the relationship between the psychoanalytic and the political This is particularly the case given that many psychoanalysts and historians of psychiatry charge that Anna Freud s emphasis on defending the supremacy of the ego against unconscious drives betrayed her father s work Are the unconscious and the psychoanalytic project itself at odds with the stable ego deemed necessary to a democratic politics Hannah Arendt famously and influentially argued that they are But Stewart Steinberg maintains that Anna Freud s critics particularly disciples of Melanie Klein have simplified her thought and misconstrued her legacy Stewart Steinberg looks at Anna Freud s work with wartime orphans seeing that they developed subjectivity not by vertical through the father but by lateral social ties This led Anna Freud to revise her father s emphasis on Oedipal sexuality and to posit a revision of psychoanalysis that renders it compatible with democratic theory and practice Stewart Steinberg gives us an Anna Freud who betrays the father even as she protects his legacy and continues his work in a new key *Psychoanalytic Practice and State Regulation* Ian

Parker,Simona Revelli,2018-06-04 This book arises out of an important international conference held in 2006 to discuss how regulation by the state has affected psychoanalysis as a clinical discipline in many different parts of the world It explores the threat in psychoanalytic practice and draws together arguments against it **Television** Jacques Lacan,1990 An essential

work for anyone wishing to understand the institutionalization of Freudian thought and the challenge Lacan represents as he answers the most frequently asked questions about his theory and practice Photographs *Ecrits a Selection* Jacques Lacan,2004 A major new translation of one of the most influential psychoanalytic works of modern times Brilliant and innovative Jacques Lacan s work has had a tremendous influence on contemporary discourse Lacan lies at the epicenter of contemporary discourses about otherness subjectivity sexual difference the drives the law and enjoyment Yet his seemingly impenetrable writing style has kept many a reader from venturing beyond page one This new translation of selected writings

from his most famous work offers welcome access to nine of his most significant contributions to psychoanalytic theory and technique Ranging from The Mirror Stage to The Subversion of the Subject and the Dialectic of Desire in the Freudian Unconscious and including The Function and Field of Speech and Language in Psychoanalysis and other papers on various aspects of psychoanalytic theory and practice this selection spans some thirty years of Lacan's inimitable intellectual career

Jacques Lacan and the Other Side of Psychoanalysis Justin Clemens, Russell Grigg, 2006-05-23 Articles by noted Lacanian psychoanalysts and scholars discussing issues that emerge in Lacan's Seminar XVII newly translated that import fields of psychoanalysis philosophy political theory cultural studies and literary studies

Evolving Lacanian Perspectives for Clinical Psychoanalysis Raul Moncayo, 2018-03-26 This book presents an evolving Lacanian reading of the psychoanalytic theory of narcissism of the phases within Oedipus transference and within different types of analytic treatments Sexual difference between psychical masculinity and femininity is formulated as a negative dialectic both sexes are not without having and not having the phallus across levels of logical organization and the three registers of experience Many clinical examples and vignettes are offered to illustrate Lacanian theory the permutations within sexuation as well as the various principles of Lacanian clinical practice The Lacanian multiform criterion for the practice of psychoanalysis is presented as an alternative to the post Freudian notions of a standard frame or a holding environment The criterion extends the use of psychoanalysis to a larger group of clinical socio economic and multicultural populations Finally the book explores the criteria used for the authorization of the analyst and how supervision differs from analysis and from the teacher student and lover beloved relationships

Power Games Richard Raubolt, 2021-04-20 www.richardraubolt.com An intense account of the misuse of power in psychotherapeutic training that offers solutions to this urgent issue Over the course of his own training in psychotherapy and psychoanalysis Richard Raubolt came to see that advanced training is more often than not plagued by authoritarian practices some subtle and many pronounced It is the contention of Raubolt and his contributors that these practices instill fear and foster blind obedience to the favored proclivities of the leaders of the training institute In turn this subservience which seeps into the therapeutic relationship prevents both the training candidates and their prospective patients from developing creative authentic and meaningful experiences This is a book written from the perspective of scholars and experienced clinicians who are acutely aware both on a personal and theoretical level of the disruptive role of power games in psychoanalytic institutes The collection features a highly nuanced and comprehensively developed psychoanalytic understanding of the use and misuse of power authority status and control operating in many traditional and nontraditional training experiences Finally new supervisory and training models based on empathy respect for subjective experiences and democratic principles are proposed as an alternative to the abusive practices so powerfully described in this book

On Not Being Able to Sleep Jacqueline Rose, 2021-02-09 In these powerful essays Jacqueline Rose delves into the questions that keep us awake at night into issues of privacy and writing exposure and shame Do women writers Christina

Rossetti Anne Sexton Sylvia Plath have a special talent for self revelation Or are they simply more vulnerable to the invasions of biography What ethical questions are raised by Ted Hughes s role in Plath s writing life What do Adrienne Rich and Natalie Angier reveal about the destiny of feminism In its affinity with modernist writing what can psychoanalysis tell us about the limits of knowledge both about the most intimate components of experience and the most hallucinatory reaches of the mind Have psychoanalytic writers today and the very institution of psychoanalysis remained faithful to the most potent and disturbing aspects of Freud s vision Finally Rose addresses some of the most dramatic public performances of our times the cult of celebrity with its contrasting obsessions with Princess Diana and the child murderer Mary Bell and South Africa s Truth and Reconciliation Commission which in a stirring last essay allows Rose to explore the ethical and political responsibilities of thought and speech in times of historical crisis Moving deftly with style force and clarity between our public political and private unconscious worlds On Not Being Able to Sleep forges a unique set of links between feminism psychoanalysis literature and politics The result is a book well worth staying up late to read one that exposes the uncomfortable borderland between our desire to speak out and be silent between the stage of the world and of the mind

Photography and the Optical Unconscious Shawn Michelle Smith, Sharon Sliwinski, 2017-05-04 Photography is one of the principal filters through which we engage the world The contributors to this volume focus on Walter Benjamin s concept of the optical unconscious to investigate how photography has shaped history modernity perception lived experience politics race and human agency In essays that range from examinations of Benjamin s and Sigmund Freud s writings to the work of Kara Walker and Roland Barthes s famous Winter Garden photograph the contributors explore what photography can teach us about the nature of the unconscious They attend to side perceptions develop latent images discover things hidden in plain sight focus on the disavowed and perceive the slow Of particular note are the ways race and colonialism have informed photography from its beginning The volume also contains photographic portfolios by Zoe Leonard Kelly Wood and Kristan Horton whose work speaks to the optical unconscious while demonstrating how photographs communicate on their own terms The essays and portfolios in Photography and the Optical Unconscious create a collective and sustained assessment of Benjamin s influential concept opening up new avenues for thinking about photography and the human psyche Contributors Mary Bergstein Jonathan Fardy Kristan Horton Terri Kapsalis Sarah Kofman Elisabeth Lebovici Zoe Leonard Gabrielle Moser Mignon Nixon Thy Phu Mark Reinhardt Shawn Michelle Smith Sharon Sliwinski Laura Wexler Kelly Wood Andr s Mario Zervig n

Handbook of Critical Psychology Ian Parker, 2015-04-17 Choice Recommended Read Critical psychology has developed over time from different standpoints and in different cultural contexts embracing a variety of perspectives This cutting edge and comprehensive handbook values and reflects this diversity of approaches to critical psychology today providing a definitive state of the art account of the field and an opening to the lines of argument that will take it forward in the years to come The individual chapters by leading and emerging scholars plot the development of a critical perspective on

different elements of the host discipline of psychology The book begins by systematically addressing each separate specialist area of psychology before going on to consider how aspects of critical psychology transcend the divisions that mark the discipline The final part of the volume explores the variety of cultural and political standpoints that have made critical psychology such a vibrant contested terrain of debate The Handbook of Critical Psychology represents a key resource for researchers and practitioners across all relevant disciplines It will be of particular interest to students and researchers in psychology psychosocial studies sociology social anthropology and cultural studies and to discourse analysts of different traditions including those in critical linguistics and political theory
