The Psychosocial Imaginaries of Defence Nationalism Liam Gillespie, 2020-10-20 The Psychosocial Imaginaries of Defence Nationalism interrogates the emergence of far right nationalist defence leagues in Australia and the UK Throughout the book Liam Gillespie refers to these groups as defence nationalists that is as nationalists who imagine themselves as defenders of the nation and therefore national subjects par excellence Drawing on original research psychoanalytic and psychosocial theory and particularly the work of Jacques Lacan the author explores the narratives imaginaries and subjectivities that sustain these groups as well as the narratives imaginaries and subjectivities these groups sustain He argues that unlike other nationalist groups defence nationalists are not primarily concerned with realising their avowed political projects Instead they are concerned with constructing and then enjoying themselves as the nation's self ordained defenders This means that which threatens the nation can paradoxically have a fortifying effect upon defence

nationalists legitimising and securing both the way they see themselves and the position they see themselves occupying with in the nation The Psychosocial Imaginaries of Defence Nationalism will be of interest to anyone concerned with critical theorisations of contemporary nationalism as well as with the application of psychoanalytic and psychosocial theory to social cultural and political analysis

A Fortified Far Right? Katalin Petho-Kiss, Rohan Gunaratna, 2024-04-30 Petho Kiss and Gunaratna understand the nature of the threat posed by the far right because of their findings and they propose effective provisions and mechanisms for detecting and countering it The book undertakes a consistent procession and empirical examination of available information to arrive at the recognition that in order to dissolve the complexity of the associated threat we need to scrutinize the functioning of far right threat groups In depth and consistent analysis on their mode of operation and mindset enables us to identify ways to detect and counter their malicious efforts and activities The theoretical framework for the analysis lies upon the concept of wave theory The main question that this book examines is whether far right terrorism constitutes a new wave of global terrorism One question emerges from this statement that requires further elaboration Is far right terrorism a novel wave of terrorism If yes how is it novel and what are the novelties or developments in it This book is for scholars as well as practitioners in the counter terrorism CT and the prevention countering violent extremism PCVE field Through specific case studies students studying CT and or PCVE could gain insight into the operational functionalities of far right threat groups This may help them to get a more accurate understanding of the threat posed by these entities Examining the recruitment funding communication practices and modus operandi of worrisome threat actors equips us to design the most effective countermeasures and identify the hiatuses in applicable legislative regimes *Royal Responsibility in Anglo-Norman Historical Writing* Emily A. Winkler, 2017-10-20 It has long been established that the crisis of 1066 generated a florescence of historical writing in the first half of the twelfth century Emily A Winkler presents a new perspective on previously unqueried matters investigating how historians individual motivations and assumptions produced changes in the kind of history written across the Conquest She argues that responses to the Danish Conquest of 1016 and the Norman Conquest of 1066 changed dramatically within two generations of the latter conquest Repeated conquest could signal repeated failures and sin across the orders of society yet early twelfth century historians in England not only extract English kings and people from a history of failure but also establish English kingship as a worthy office on a European scale *Royal Responsibility in Anglo Norman Historical Writing* illuminates the consistent historical agendas of four historians William of Malmesbury Henry of Huntingdon John of Worcester and Geffrei Gaimar In their narratives of England's eleventh century history these twelfth century historians expanded their approach to historical explanation to include individual responsibility

and accountability within a framework of providential history In this regard they made substantial departures from their sources These historians share a view of royal responsibility independent both of their sources primarily the Anglo Saxon Chronicle and of any political agenda that placed English and Norman allegiances in opposition Although the accounts diverge widely in the interpretation of character all four are concerned more with the effectiveness of England s kings than with the legitimacy of their origins Their new shared view of royal responsibility represents a distinct phenomenon in England s twelfth century historiography The New Authoritarians David Renton,2019-04-20 All across the world right wing politics is shifting with conservatives and supporters of the far right allying From Donald Trump to Marine Le Pen these figureheads agree on issues that would have been considered extreme to previous generations causing many to label them as fascists But is this too simplistic If they are not fascists what are their politics In The New Authoritarians David Renton approaches the problem from a new perspective He identifies an emergent and deeply troubling form of right wing radicalism at once more moderate than classical fascism in its political strategy yet indulgent of the racism of its most extreme components In country after country under the clouds of economic austerity and post 9 11 Islamophobia the right is converging and strengthening To understand why is the first step to stopping them Pride in prejudice Paul Jackson,2022-02-22 Pride in prejudice offers a concise introduction to extreme right cultures in Britain today exploring the origins of this complex movement and the numerous groups and activists that make up Britain s contemporary extreme right Showcasing the latest research Pride in prejudice demonstrates that the movement has a long history in Britain Jackson evaluates successes and failures in policy responses to the extreme right and identifies the on going risks posed by lone actor terrorism In order to tackle the extreme right Jackson argues we must not only make ourselves aware of the changing ways the movement operates but we must understand how the extreme right legitimises its perspectives in mainstream discourses that can implicitly and explicitly support its racist and extremist views **Protest Policing and Human Rights** Michael Smith,2022-12-30 This book examines protest policing and the toolbox of options available to police commanders in response The right to peacefully protest is intrinsic to democracy and embedded in British history and tradition The police are responsible for managing public order and facilitating peaceful protest and this has not been without criticism On occasions the police have found themselves in opposition to protest groups and there have been incidents of disorder as a result In response the development of Police Liaison Teams in the UK has presented the police with a gateway for dialogue between themselves and those involved in protest Drawing on two contrasting case studies the policing of the badger cull in South West England and an English Defence League EDL march in Liverpool this book explores the experiences of police commanders police liaison officers protesters counterdemonstrators members of local businesses and other interested parties It explores how a dialogical approach with all those engaged in or affected by a protest has assisted the police in balancing human rights and reducing conflict for all An accessible and compelling read this book will appeal to students

scholars and practitioners of policing politics criminology sociology human rights and all those interested in how protests are policed

Race, Crime and Resistance Tina G Patel, David Tyrer, 2011-04-11 In a post Macpherson post 9 11 world criminal justice agencies are adapting their responses to criminal behaviour across diverse ethnic groups Race Crime and Resistance draws on contemporary theory and a range of case studies to consider racial inequalities within the criminal justice system and related organisations Exploring the mechanisms of discrimination and exclusion the book goes beyond superficial assumptions to examine the ensuing processes of mobilisation and resistance across disadvantaged groups Empirically grounded and theoretically informed the book critically unpicks the persisting concepts of race and ethnicity in the perceptions and representations of crime Articulate and sensitive the book clarifies complex ideas through the use of chapter summaries case studies further reading and study questions It is essential reading for students and scholars of criminology race and ethnicity and sociology

Memory, Imagination, Justice David Gurnham, 2016-04-22 Through the creative use of literary analysis Memory Imagination Justice provides a critical and highly original discussion of contemporary topics in criminal law and bioethics Author David Gurnham uses popular and classical texts by authors including Shakespeare Dickens Euripides Kafka the Brothers Grimm Huxley and Margaret Atwood to shed fresh light on such controversial legal and ethical issues as passionate homicide life sentences child pornography and genetic enhancement Gurnham s overarching theme is the role of memory and imagination in shaping legal and ethical attitudes Along this line this book examines the ways in which past wrongs are remembered and may be forcefully responded to both by the criminal justice system itself and also by individuals responding to what they regard as gross insults threats or personal violations The volume further discusses the role of imagination as a creative force behind legal reform in terms of the definition of criminal behaviour and the possible future development of the law These ideas provide a useful and highly original perspective on contemporary issues of crime and society as they resonate both in legal and literary discussion
