The Moral Metaphor System

Ning Yu,2022-06-27 This book investigates moral metaphors in English and Chinese applying conceptual metaphor theory to a comparative study of the linguistic manifestation of the moral metaphor system rooted in the domains of bodily and physical experience Ning Yu sheds light on the metaphorical nature of moral cognition and how it is systematically manifested in language and explores the potential commonalities that define moral cognition in general as well as the differences that characterize distinct cultures The work investigates moral cognition at the cultural level as reflected in language based on linguistic evidence from both English and Chinese and to a limited extent multimodal evidence from the corresponding cultures The moral metaphor system is taken to consist of three major subsystems referred to as physical visual and spatial These subsystems are clusters of conceptual metaphors whose source concepts are from domains of embodied experiences in the physical world and which are formulated in contrastive categories with bipolar values for the target concepts of moral and immoral The study is characterized by two keywords system and systematicity The former refers to the fact that metaphors conceptual and linguistic are connected within networks and the latter to the need for those metaphors to be studied in such networks

Machine Translation Yorick Wilks, 2008-10-30 Machine Translation MT is both an engineering technology and a measure of all things to do with languages and computers whenever a new theory of language or linguistics is offered an important criteria for its success is whether or not it will improve machine translation This book presents a history of machine translation MT from the point of view of a major writer and innovator in the subject It describes and contrasts a range of approaches to the challenges and problems of this remarkable technology by means of a combination of historic papers along with commentaries to update their significance both at the time of their writing and now This volume chronicles the evolution of conflicting approaches to MT towards a somewhat skeptical consensus on future progress Also included is a discussion of the most recent developments in the field and prospects for the future which have been much changed by the arrival of the World Wide Web

Translation and Bilingual Dictionaries Chan Sin-wai, 2013-02-06 Is the bilingual dictionary really the translator's best friend Or is it the case that all translators hate all dictionaries The truth probably lies half way It is difficult to verify anyway as the literature on the subject is limited not helped by the fact that Lexicography and Translation have stood apart for decades despite their commonality of purpose Here is a volume based on the proceedings of a successful conference at Hong Kong that may at last provide some answers
