Enhancing Learning Theory Through Self Assessment David Boud, 1995

Enhancing Learning through Formative Assessment and Feedback Alastair Irons, Sam Elkington, 2021-08-25 Assessment is a critical aspect of higher education because it has a range of powerful impacts on what staff and students do and how universities operate Underpinned by relevant theory and practical advice this fully updated new edition takes into account the changing expectation of students in the context of an increasingly complex and shifting higher education environment to promote the role of formative assessment and formative feedback and its impact on shaping the student learning experience Presented through the lens of contemporary perspectives empirical evidence and case studies across a broad range of subject disciplines this new edition aims to encourage teaching and support staff to focus on the promotion of student learning through designing and embedding high impact formative assessment processes and activities Key content covers the theoretical and philosophical aspects of formative assessment and formative feedback the learning environment in which students undertake their learning activities helping teachers develop appropriate formative assessment and provide effective formative feedback the impact of formative assessment and formative feedback activities have on learning teaching and assessment design as well as on the academic workload of tutors the contemporary issues and challenges currently driving research into formative assessment the use of technology in formative assessment and how different tools and technologies allow for the provision of effective and efficient formative feedback the benefits of understanding how students respond to formative assessment and formative feedback as an opportunity to review the effectiveness of the teaching and learning methods and techniques the integral role of formative assessment and formative feedback plays in postgraduate research settings and how innovations in formative assessment and feedback inform key developments in large scale assessment change Aimed at both experienced and early career practitioners in higher education this text is ideal reading for educators who wish to see a movement away from a higher education system driven by summative assessment to one where a more holistic approach to education positions learning standards rather than measurement and grades as central to effective

assessment and crucially to return to a focus on student learners Enhancing Teaching and Learning through Assessment
Steve Frankland, 2007-10-17 Assessment is the daily life of a teacher designing plans setting questions giving feedback and grading are all activities that teachers undertake on a regular basis Yet the close examination of such activities can be hindered by constraints caused by the context in which different teaching and learning activities occur and an unawareness of the effect that assessment has on the students themselves This book provides a practical guide on the effective use of assessment It includes the use of assessment tools and pedagogical design that help students deepen their learning Major issues on assessment and some excellent examples are presented as a useful resource to university teachers in enhancing teaching and students learning It will also be found useful by teachers when implementing various assessment methods School administrators and teaching development professionals will find the book useful when making decisions related to learning and teaching issues in their institutions **Improving Learning Through Assessment Rubrics: Student**

Awareness of What and How They Learn Gonsalves, Chahna, Pearson, Jayne, 2023-08-14 Assessment by rubrics has emerged as a tool with great potential to guide successful student learning from a competency based approach Rubrics as instruments that make it possible to share the criteria for carrying out learning and assessment tasks with students are excellent roadmaps for student learning largely because they allow students to know what they are expected to do and what they are expected to achieve by carrying out the learning tasks Improving Learning Through Assessment Rubrics Student Awareness of What and How They Learn contributes to the improvement of what is being evaluated by identifying the strengths as well as the weaknesses of the didactic use of rubrics in the assessment of university learning The book also provides a set of theoretical issues methodological elements and practical resources for the assessment of university learning using rubrics Covering topics such as active learning self assessment and teacher identity this reference work is ideal for administrators policymakers researchers scholars academicians practitioners educators and students **Fostering**
