Ideas Into Politics:

Ideas and Politics in Social Science Research Daniel Beland, Robert Henry Cox, 2010-12-10 Writing about ideas John Maynard Keynes noted that they are more powerful than is commonly understood Indeed the world is ruled by little else One would expect therefore that political science a discipline that focuses specifically on the nature of power would have a healthy respect for the role of ideas However for a variety of reasons not least of which is the influence of rational choice theory which presumes that individuals are self maximizing rational actors this is not the case and the literature on the topic is fairly thin As the stellar cast of contributors to this volume show ideas are in fact powerful shapers of political and social life In *Ideas and Politics in Social Science Research* Daniel B land and Robert Henry Cox have gathered leading scholars from a variety of subdisciplines in political science and sociology to provide a general overview of the theoretical empirical and methodological issues raised by social science research on ideas and politics Throughout they hone in on three central questions What is the theoretical basis for studying ideas in politics What are the best methods What sort of empirical puzzles can be solved by examining ideas and related phenomena such as discourse policy paradigms and framing processes In sum this is a state of the art academic work on both the role of ideas in politics and the analytical utility that derives from studying them

Justice as an Aspect of the Polis Idea in Solon's Political Poems Joseph A. Almeida, 2017-07-31 This book examines the meaning of justice or dike in the political poems of Solon from a new interpretative perspective The first two chapters argue that neither standard historical nor literary treatments have provided an adequate foundation for understanding Solon's dike The main defect lies in an inability to connect Solon's concrete political work with his poetic perceptions The book's central proposal is that the polis idea from new classical archaeology provides an objective standard for an interpretation of Solon's dike which remedies this defect The third chapter sets forth the polis idea which becomes the measure for an examination in the final two chapters of Solon's view of dike The book thus exhibits an interdisciplinary approach to Archaic poetry

Weaver, 2020-05-15 A collection of international case studies that demonstrate the importance of ideas to urban political development Ideas interests and institutions are the holy trinity of the study of politics Of the three ideas are arguably the hardest with which to grapple and despite a generally broad agreement

concerning their fundamental importance the most often neglected Nowhere is this more evident than in the study of urban politics and urban political development The essays in *How Ideas Shape Urban Political Development* argue that ideas have been the real drivers behind urban political development and offer as evidence national and international examples some unique to specific cities regions and countries and some of global impact Within the United States contributors examine the idea of blight and how it became a powerful metaphor in city planning the identification of racially defined spaces especially black cities and city neighborhoods as specific targets of neoliberal disciplinary practices the paradox of members of Congress who were active supporters of civil rights legislation in the 1950s and 1960s but enjoyed the support of big city political machines that were hardly liberal when it came to questions of race in their home districts and the intersection of national education policy local school politics and the politics of immigration Essays compare the ways in which national urban policies have taken different shapes in countries similar to the United States namely Canada and the United Kingdom The volume also presents case studies of city based political development in Chile China India and Africa areas of the world that have experienced a more recent form of urbanization that feature deep and intimate ties and similarities to urban political development in the Global North but which have occurred on a broader scale Contributors Daniel Bland Debjani Bhattacharyya Robert Henry Cox Richardson Dilworth Jason Hackworth Marcus Anthony Hunter William Hurst Sally Ford Lawton Thomas Ogorzalek Eleonora Pasotti Joel Rast Douglas S Reed Mara Sidney Lester K Spence Vanessa Watson Timothy P R Weaver Amy Widestrom
