Improving The Access Of Developing Count:

Patient Safety in Developing Countries Yaser Al-Worafi,2023-10-05 Understanding the various aspects of patient safety education practice and research in developing countries is vital in preparing a plan to overcome the challenges of improving patient safety This unique volume discusses patient safety in developing countries and the achievements and challenges faced in those places when trying to improve patient safety education and practice This book includes a compilation of over 100 case studies surrounding patient safety in all aspects of health care Both real and simulated scenarios are provided to help medical students and professionals apply their knowledge to solve the cases and prepare for real practice Features Describes the achievements and challenges of patient safety in developing countries Includes real and simulated case studies and key answers on patient safety issues Prepares medical students and practitioners for real life situations Diverse audience including those in medication to safety testing patient education dispensing changes and the design of health systems Aids medical students and practitioners to improve their skills to solve cases Cases on Web 2.0 in Developing Countries: Studies on Implementation, Application, and Use Azab, Nahed Amin,2012-11-30 As the majority of the world continues to move into an internet based society we have seen significant social cultural economic and technological changes Most developing countries have embraced Web 2 0 and have moved onto the next generation of the World Wide Web however some developing countries still struggle to bridge the digital divide Cases on Web 2 0 in Developing Countries Studies on Implementation Application and Use investigates the perception of the value of Web 2 0 the adoption and application of its technologies as well as the different approaches and innovations necessary for the implementation of Web applications in developing countries *Rural School Improvement in Developing Countries* Yuchi Zhao,Jing Liu,2024-09-06 This open access book examines the rural school improvement programs implemented in four developing countries including China Myanmar Uganda and Kenya It analyzes research questions such as problems faced by rural schools in these countries approaches or models adopted to improve these rural schools specific interventions to address the problems and their effectiveness and lessons learnt from these programs It serves as a useful reference for researchers and policy makers interested in the field of rural education improvement **DFID's role in building infrastructure in developing countries** Great Britain: Parliament: House of Commons: International Development Committee,2011-10-07 The International Development Committee reports that DFID can be proud of much of the work it does to build infrastructure in developing countries on which the Department spends 1 billion annually But it calls on Ministers to improve monitoring of infrastructure spending through multilateral organisations such as the EU World Bank and African Development Bank The UK should also insist on provisions in large multilateral infrastructure projects which require local capacity building in order to boost local employment and the private sector with developing countries The MPs also raise concerns that infrastructure construction in developing countries is particularly prone to corruption The report

points to DFID's success in helping to establish the Construction Sector Transparency Initiative CoST to counter corruption which has proved effective and is to be transferred to the World Bank. DFID should continue to provide the funding and staff time to ensure that CoST can build on the successes of its pilot phase. DFID should publish a departmental strategy on infrastructure. This would help DFID clearly to convey its rationale and priorities within the sector, emphasising that DFID funding is directed to the Department's key priorities within the sector, including the need to build local capacity, implement road safety measures and ensure the use of technologies appropriate to the needs of developing countries. Far more private money is needed to finance large infrastructure projects and DFID has done well in helping leverage private funding through initiatives such as the Private Infrastructure Development Group.

Development, Trade, and the WTO Bernard M. Hoekman, Aaditya Mattoo, Philip English, 2002. Publisher's description: Developing countries are increasingly confronted with the need to address trade policy related issues in international agreements, most prominently the World Trade Organization (WTO). New WTO negotiations on a broad range of subjects were launched in November 2001. Determining whether and how international trade agreements can support economic development is a major challenge. Stakeholders in developing countries must be informed on the issues and understand how their interests can be pursued through international cooperation. This handbook offers guidance on the design of trade policy reform, surveys key disciplines and the functioning of the World Trade Organization (WTO) and discusses numerous issues and options that confront developing countries in using international cooperation to improve domestic policy and obtain access to export markets. Many of the issues discussed are also relevant in the context of regional integration agreements. Separate sections of the handbook summarize what constitutes sound trade policy, the major aspects of the WTO from a development perspective, policy issues in the area of merchandise trade and the liberalization of international transactions in services, protection of intellectual property rights and economic development, new regulatory subjects that are emerging in the agenda of trade talks and enhancing participation of developing countries in the global trading system.

Social Safety Nets and Poverty Reduction in Developing Countries Jannatul Ferdous, AKM Ahsan Ullah, 2023-12-05. This book investigates the origins, current state and fundamental value of social safety nets in developing countries as well as their effectiveness in these settings. Social safety net programs (SSNs) are critical because they keep those who are already vulnerable from falling deeper into poverty. Analysing how social safety nets benefit the most disadvantaged and marginalized members of society by allowing those in need to become financially stable, more resilient and open up more opportunities for themselves, this book shows that social safety nets (SSNs) are a collection of social services designed to protect people from the effects of economic and emotional hardship. Showing that the purpose of the safety net is not to provide permanent financial security but rather to provide temporary financial security during periodic shocks and how this applies in South Asia and also in parts of Africa, this book will be of interest to all scholars and students of social policy, sociology, social work and Global South politics more generally.

Accelerating Sustainable Energy Transition(s) in Developing Countries Laurence Delina, 2017-10-19 Accelerating sustainable energy transitions away from carbon based fuel sources needs to be

high on the agendas of developing countries It is key in achieving their climate mitigation promises and sustainable energy development objectives To bring about rapid transitions simultaneous turns are imperative in hardware deployment policy improvements financing innovation and institutional strengthening These systematic turns however incur tensions when considering the multiple options available and the disruptions of entrenched power across pockets of transition innovations These heterogeneous contradictions and their trade offs and uncertainties and risks have to be systematically recognized understood and weighed when making decisions This book explores how the transitions occur in fourteen developing countries and broadly surveys their technological policy financing and institutional capacities in response to the three key aspects of energy transitions achieving universal energy access harvesting energy efficiency and deploying renewable energy The book shows how fragmented these approaches are how they occur across multiple levels of governance and how policy financing and institutional turns could occur in these complex settings This book will be of interest to students and scholars of energy and climate policy development studies international relations politics strategic studies and geography It is also useful to policymakers and development practitioners

International Trade Policy Nigel Grimwade, 2006-06-28 This volume provides an introduction to the basic theory behind international trade policy The author analyses current policy issues within a theoretical framework The book adopts a thematic approach with each chapter examining a different issue each of which is of central importance to contemporary trade policy The book will be essential for all those who want to understand what governments do in terms of trade policy and how they do it

Antimicrobial Resistance in Developing Countries Aníbal de J. Sosa, Denis K. Byarugaba, Carlos F. Amábile-Cuevas, Po-Ren Hsueh, Samuel Kariuki, Iruka N. Okeke, 2009-10-08 Avoiding infection has always been expensive Some human populations escaped tropical infections by migrating into cold climates but then had to procure fuel warm clothing durable housing and crops from a short growing season Waterborne infections were averted by owning your own well or supporting a community reservoir Everyone got vaccines in rich countries while people in others got them later if at all Antimicrobial agents seemed at first to be an exception They did not need to be delivered through a cold chain and to everyone as vaccines did They had to be given only to infected patients and often then as relatively cheap injectables or pills off a shelf for only a few days to get astonishing cures Antimicrobials not only were better than most other innovations but also reached more of the world's people sooner The problem appeared later After each new antimicrobial became widely used genes expressing resistance to it began to emerge and spread through bacterial populations Patients infected with bacteria expressing such resistance genes then failed treatment and remained infected or died Growing resistance to antimicrobial agents began to take away more and more of the cures that the agents had brought

Promoting Reproductive Security in Developing Countries Maurice I. Middleberg, 2005-12-29 Promoting Reproductive Security in Developing Countries provides a comprehensive approach to developing and implementing reproductive health programs in the developing world It fills a major gap in the literature by

Strategies for Increasing Productive Employment in Developing Countries with Special Reference to Sierra Leone Dr. Ibrahim B.S. Sesay, 2014-12-08 This book as pointed out by Professor Singer in his preface discussed divergent development problems facing developing countries Participants of the seminar from various African countries brought in case studies from their own countries as comparison with the Kenya case study where the seminar was held As a result of this comparative study field trips were organized by the seminar authorities In view of these facts and experiences gained from this seminar I was sufficiently stimulated for my task to write this book based on similar lines but with special reference to Sierra Leone My past experiences as a Labor Officer in the Ministry of Labor in Sierra Leone have in no small way also contributed to the success of the completion of this book for industrial relations readers to have interest in it On joining the Personnel and Administration Department of the Standard Bank I was moved to incorporate in my book a chapter on the role of banking particularly the role of Standard Bank formerly known as the British Bank of West Africa in Sierra Leone Readers will also find it in one of the chapters current economic development taking place in Africa particularly regional groupings for example the Mano River Union between Sierra Leone Guinea and Liberia and The Economic Community of West African States ECOWAS and the now defunct East African Economic Community For this reason this book will be of tremendous use to planners and economists bankers industrialists teachers and various people from all walks of life concerned with the development of their countries but it is more particularly useful to Sierra Leoneans because of the many references related to Sierra Leone

Providing budget support to developing countries Great Britain: National Audit Office, 2008-02-08 Budget support is aid provided directly to a partner government's central exchequer and aims to reduce poverty through helping to fund the poverty reduction strategy of the beneficiary country DFID's use of budget support has risen to 461 million representing nearly twenty per cent of bilateral expenditure This study examines the aims of budget support what it is achieving how DFID manages the risks of using it and how DFID takes individual funding decisions The report finds that budget support has often enabled partner governments to increase expenditure on priority areas resulted in partner governments providing more services particularly in health and education helped increase the capacity of partner governments to plan and deliver services effectively and to develop better poverty focused policies helped partner governments to strengthen their financial management systems and encouraged other donors to support such reforms facilitated donor alignment to and support for the developing nation's own strategies and

reinforced existing economic stability and good economic management But evidence on whether budget support has yielded better value for money than other forms of aid is not conclusive While budget support has some advantages compared to other forms of aid it also carries significant risks which need to be better managed Monitoring achievement is challenging and DFID does not always set out what it expects to achieve or by when Formal monitoring frameworks do not always track progress in remedying weaknesses in financial systems And monitoring of human rights one of the key criteria for giving budget support is not yet systematic Weaknesses in available statistics continue to limit the ability to monitor results Developing country governments may not be capable of using UK funds efficiently and effectively or may misuse them for political reasons or through corruption
