Gaines, Jr., 2025-03-14 A Critical Approach to Conceptual and Historical Issues in Psychology Soul Self and Science examines the evolving concept of human consciousness throughout the ages to show how humanity progressed from studies of the soul a major concern of ancient philosophy to a science of the mind including the self a primary concern of contemporary psychology. Divided into five parts the book moves through the history of psychology from its philosophical roots into the present day and beyond. It takes a balanced and critical approach to figures and theories which have been instrumental in the development of psychology as a discipline such as Plato Descartes Wundt Du Bois Freud Jung Watson Skinner and Maslow. Throughout it offers diverse perspectives on the field's history providing insights into such topics as race and intelligence gender and personality and their treatment within psychology. Each chapter is supported by breakout boxes highlighting key theories related to that chapter's topic. Thought questions to encourage the reader to critically evaluate what they have read notes with further information and suggestions for further reading are provided online. Of particular interest to postgraduate students on MSc conversion courses the book will also interest undergraduate students completing history of psychology conceptual and historical issues in psychology history and systems of psychology and related modules. This textbook was designed to comply with the QAA Subject Benchmark Statement in Psychology and the BPS accreditation guidelines for content in Conceptual and Historical Issues in Psychology. [Handbook of Stressful Transitions Across the Lifespan](#) Thomas W. Miller, 2009-11-28 This volume provides a unique and valuable contribution to our understanding of the impact of stressful life events and mass trauma on the person the culture and society in the course of the life span. It provides a comprehensive look at our psychological state of affairs at the beginning of the twenty first century. There are several volumes that address some or most of these areas individually but this volume is unique in that it has brought together theoreticians researchers and clinicians who address critical challenges in our lives. But we are now several months into the global financial crisis requiring a transition not only for the western world but for the third world. How on earth do families in trauma zones from Sri Lanka to Afghanistan New Orleans to Gaza cope with similar declining older relatives with added traumas and zero medical resources attempt to survive. In news reports politicians and financiers denying the inevitable and struggling for solutions that cannot be relevant to the new reality that

they have yet to discover **The Posttraumatic Self** John P. Wilson, 2007-12-11 Filling a gap that exists in most traumatology literature *The Posttraumatic Self* provides an optimistic analysis of the aftermath of a traumatic event This work appreciates the potentially positive effects of trauma and links those effects to the discovery of one's identity character and purpose Wilson and his distinguished contributors explore the nature and dynamics of the posttraumatic self emphasising human resilience and prompting continued optimal functioning While taking into consideration pathological consequences such as posttraumatic stress disorder PTSD the authors study the impacts a traumatic event can have on one's inner self and they help the victims transform such an event into healthy self transcendent lifecycles *The Posttraumatic Self* will help victims and healers transform the way they deal with the complexities of trauma by making important connections that will allow for healing and growth *Erik H. Erikson* Richard Stevens, 2008-03-26 Erik Erikson has been described as probably the most significant post Freudian thinker with a unique and profound vision Al Gore was his student Bill Clinton a great admirer Getting to grips with his complex ideas however is no easy task This book provides a comprehensive and in depth road map to Erikson's work and is ideal for all students of Psychology Stevens lucidly and authoritatively analyses his ideas about childhood development adolescence identity the life cycle and his psychobiographical studies of Luther and Gandhi This penetrating critique of Erikson's work reveals how relevant his ideas are today *Religious Identities and the Global South* Felix Wilfred, 2021-01-04 This book offers a comprehensive and interdisciplinary account of religious identities in the Global South Drawing on literature in various fields Felix Wilfred analyzes how religious identities intersect with the processes of globalization modernity and postmodernity He illustrates how the study of religion in the Global North often revolves around questions of secularism and fundamentalism whereas a neo Orientalist quality often attends study of religion in the Global South These approaches and theorizing fail to incorporate the experiences of lived religion in the South especially in Asia Historically the religions in the South have played a highly significant role in resistance to the domination by the colonial forces an important reason for the continued attachment of the peoples of the South to their religious universe This book puts the two regions and their scholarly norms in conversation with one another exploring the social political cultural and economic implications **Leading Learning/Learning Leading: A Retrospective on a Life's Work** Robert Starratt, 2017-06-26 Internationally recognized for his writing on educational leadership and the ethics of educational leadership Robert J Starratt brings together a thoughtfully crafted selection of his writing representing key aspects of his life and work leading to his current thinking on the convergence of school leadership the professional ethics of educators and the integrity of the teaching learning process This retrospective reveals Starratt's enduring work as probing the foundational intelligibility of the teaching learning process and its connection to human development of both students and teachers It exhibits his efforts to focus the leadership of the teaching learning process on a combination of cognitive insight into the intelligibility of the world affective dwelling in the particulars of that intelligibility and the responsibilities one's relationships

with the particular might suggest A new introduction contextualises Starratt s work against key developments in the field The unique collection of chapters develop various themes from human resource development to the complexity of curriculum change and from ethical analysis of school organizational structures to the complex dramas in students personal lives and in the classroom The book chronicles Starratt s contributions to the field and his role as a leading scholar who has played a key part in the development of leadership and ethics in education over the course of his career Leading Learning Learning Leading will be of global interest to education leaders and researchers engaged in the field of educational leadership and ethical education

Anthropology and the Human Subject Brian Morris,2014-04-07 The German philosopher Immanuel Kant famously defined anthropology as the study of what it means to be a human being Following in his footsteps Anthropology and the Human Subject provides a critical comprehensive and wide ranging investigation of conceptions of the human subject within the Western intellectual tradition focusing specifically on the secular trends of the twentieth century Encyclopaedic in scope lucidly and engagingly written the book covers the man and varied currents of thought within this tradition Each chapter deals with a specific intellectual paradigm ranging from Marxs historical materialism and Darwins evolutionary naturalism and their various off shoots through to those currents of thought that were prominent in the late twentieth century such as for example existentialism hermeneutics phenomenology and poststructuralism With respect to each current of thought a focus is placed on their main exemplars outlining their biographical context their mode of social analysis and the ontology of the subject that emerges from their key texts The book will appeal not only to anthropologists but to students and scholars within the human sciences and philosophy as well as to any person interested in the question What does it mean to be human Ambitions in scope and encyclopaedic in execution his style is always lucid He makes difficult work accessible His prose conveys the unmistakable impression of a superb and meticulous lecturer at work Anthony P Cohen Journal Royal Anthropological Institute There is a very little I can add to the outstanding criticism Brian Morris levels at deep ecology Insightful as well as incisive I have found his writings an educational experience Murray Bookchin Institute of Social Ecology

Volume 13: Kierkegaard's Influence on the Social Sciences Jon Stewart,2016-12-05 Kierkegaard has long been known as a philosopher and theologian but his contributions to psychology anthropology and sociology have also made an important impact on these fields In many of the works of his complex authorship Kierkegaard presents his intriguing and unique vision of the nature and mental life of human beings individually and collectively The articles featured in the present volume explore the reception of Kierkegaard s thought in the social sciences Of these fields Kierkegaard is perhaps best known in psychology where The Concept of Anxiety and The Sickness unto Death have been the two most influential texts With regard to the field of sociology social criticism or social theory Kierkegaard s Literary Review of Two Ages has also been regarded as offering valuable insights about some important dynamics of modern society
