Fujita, Y. Watanobe, T. Azumi, 2022-10-11 The integration of applied intelligence with software has been an essential enabler for science and the new economy creating new possibilities for a more reliable flexible and robust society But current software methodologies tools and techniques often fall short of expectations and are not yet sufficiently robust or reliable for a constantly changing and evolving market This book presents the proceedings of SoMeT\_22 the 21st International Conference on New Trends in Intelligent Software Methodology Tools and Techniques held from 20-22 September 2022 in Kitakyushu Japan The SoMeT conference provides a platform for the exchange of ideas and experience in the field of software technology with the emphasis on human centric software methodologies end user development techniques and emotional reasoning for optimal performance The 58 papers presented here were each carefully reviewed by 3 or 4 referees for technical soundness relevance originality significance and clarity they were then revised before being selected by the international reviewing committee The papers are arranged in 9 chapters software systems with intelligent design software systems security and techniques formal techniques for system software and quality assessment applied intelligence in software intelligent decision support systems cyber physical systems knowledge science and intelligent computing ontology in data and software and machine learning in systems software The book assembles the work of scholars from the international research community to capture the essence of the new state of the art in software science and its supporting technology and will be of interest to all those working in the field     International Business and Information Technology Gerald Karush, Masood Samii, 2004-04-15 International Business Information Technology is a breakthrough text that analyses the relationship between international business operations and information technology     Domesticating the Invisible Melissa S. Ragain, 2021-01-12 Domesticating the Invisible examines how postwar notions of form developed in response to newly perceived environmental threats in turn inspiring artists to model plastic composition on natural systems often invisible to the human eye Melissa S Ragain focuses on the history of art education in Cambridge Massachusetts to understand how an environmental approach to form inspired new art programs at Harvard and MIT As they embraced scientific theories of composition these institutions also cultivated young artists as environmental agents who could influence urban design and contribute to an ecologically sensitive public sphere Ragain combines institutional and intellectual histories to map how the emergency of environmental crisis altered

foundational modernist assumptions about form transforming questions about aesthetic judgment into questions about an ethical relationship to the environment

**Digitalisation of Global Business Services** Albert Plugge, Shahrokh Nikou, 2024-02-26 The concept of Global Business Services GBS is well recognised and researched by both scholars and practitioners However the complexity of applying GBS has been the subject of various critiques due to its effect on firms business processes service portfolio and provisioning of in house as well as outsourced services Although GBS results have been much criticised this book argues that the rise of digitalisation reopens the question of implementing GBS successfully The findings of this novel research which is based on a multi method approach provide insights in relevant GBS factors and how these factors affect a GBS implementation strategy Further analysis show how digitalisation including platforms and AI enable GBS organisations to decrease implementation issues Research outcomes illustrate that firms which apply an enterprise ecosystem approach are better able to exchange GBS information The willingness and ability of firms to intensify the collaboration at managerial and subject matter level will help to overcome GBS implementation challenges This book puts forward the case that the rise of digitalisation enables GBS organisations to provide benefits and ensure that the GBS business model still matters It will be of great interest to scholars and students of digital business and innovation

**Global Security, Safety, and Sustainability** Sergio Tenreiro de Magalhaes, Hamid Jahankhani, Ali G. Hessami, 2010-08-19 The annual International Conference on Global Security, Safety and Sustainability ICGS3 is an established platform in which security, safety and sustainability issues can be examined from several global perspectives through dialogue between academics, students, government representatives, chief executives, security professionals and research scientists from the United Kingdom and from around the globe. The three-day conference focused on the challenges of complexity, rapid pace of change and risk/opportunity issues associated with modern products, systems, special events and infrastructures. The importance of adopting systematic and systemic approaches to the assurance of these systems was emphasized within a special stream focused on strategic frameworks, architectures and human factors. The conference provided an opportunity for systems scientists, assurance researchers, owners, operators and maintainers of large complex and advanced systems and infrastructures to update their knowledge on the state of best practice in these challenging domains while networking with the leading researchers and solution providers. ICGS3 2010 received paper submissions from more than 17 different countries in all continents. Only 31 papers were selected and were presented as full papers. The program also included a number of keynote lectures by leading researchers, security professionals and government representatives.

*Management der Internationalisierung* Stefan Schmid, 2010-11-04 Vorwort Festschriften haben innerhalb des Wissenschaftsbetriebs nicht nur eine lange Tradition; sie erfüllen auch vielfältige zentrale Funktionen. Im Rahmen von Festschriften ist es Herausgebern und Autoren ein Anliegen, verdienten Persönlichkeiten der jeweiligen akademischen Disziplin eine Freude zu bereiten und ihnen die gebührende Ehre zuteil werden zu lassen. Festschriften dienen jedoch auch dazu, Beiträge zu einem spezifischen Thema in der Regel aus verschiedenen Perspektiven zu vereinen, sie einer interessierten Leserschaft zugänglich zu machen und zum wissenschaftlichen Fortschritt beizutragen. Trotz der existierenden Tradition mehrten sich in jüngerer Zeit aber auch die Stimmen derer, die Festschriften mehr oder weniger ablehnend gegenüberstehen. Die Ablehnung bezieht sich dabei sowohl auf das Verfassen von Beiträgen für Festschriften als auch auf das Lesen der Beiträge, die sich in Festschriften finden. Insbesondere die Wissenschaftler, die als oberstes Karriereziel Veröffentlichungen

in Zeitschriften ansehen messen einer Festschrift heutzutage kaum mehr Bedeutung bei Festschriften und Beiträge in Festschriften gehen gewöhnlich nicht in Rankings oder Ratings ein sie spielen in einer anglo-amerikanisierten Publikationslandschaft in der als zentraler Maßstab für die Reputation eines Wissenschaftlers die Häufigkeit der Zitationen in bestimmten Outlets ihren Ausdruck findend etwa im Social Science Citation Index herangezogen wird für manche nur noch eine untergeordnete Rolle Und dennoch habe ich mich dazu entschlossen aus Anlass des 65. Geburtstags von Michael Kutschker eine Festschrift herauszugeben
