## **Jumpstart Your Career In College:**

**Jumpstart Your Career** Dr. Ferris E. Merhish, 2007-03-12 JUMPSTART YOUR CAREER The Nuts and Bolts for Entering the Workforce for the first time The book is not only designed to provide help for the Nephrite job seeker looking for employment but provides training and information to help you keep your job and get along with others as well as advance once the job seeker get hired and more The book is to be used as a tool in the same way one would have used my first book 7001 RESUMES The Job Search Workbook As in my first book JUMPSTART YOUR CAREER starts out with the basic orientation information and then moves to areas such as what is the right job for the applicant As the book moves along the books will explore Developing Interviewing Skills Personality and Job Success What to look for as a First Time Job Seeker and more Traditionally job search books are going to cover how to develop cover letters or letters of application and the various types of resumes and you are going to find this information provided there But the books goes on from there it will provide the job seeker with job sources an index of Associations State Employment Agencies Federal Job Information Centers Head Hunters and more This new book also points out many of the responsibilities that come once an individual enters the world of work Legal Problems at Work Employer Employer Relations Why an Individual should have a Savings Plan What is a Budget Handling a Checking account Planning for Retirement and much much more *From Office Hell to Yoga Heaven: Jumpstart Your Career as a Yoga Instructor* Leah Kim, 2012-07-30 ABOUT THE BOOK In many ways yoga saved my life Most yoga practitioners can probably relate to that statement Through yoga self transformation occurs throughout your lifetime in multiple spheres body mind and spirit to ultimately and continually bring you more in tune with yourself I realized fairly early on in my yoga life that I wanted less time in my cubicle at work and more time on my mat Back then I wasn't really sure how I would make that a reality Now about a decade later I teach internationally I represent Nike as their one and only Global Yoga Ambassador I'm sponsored by various brands that I really believe in and I'm blessed with the opportunity to share my journey with you here I wholeheartedly believe that you can make anything happen for yourself I believe that you can and must seek to discover and live your passion My yoga practice initiated and established this pathway for me and I hope my story and my thoughts will inspire you to find the same for yourself ABOUT THE AUTHOR Leah Kim graduated from UCLA with a degree in Economics but it wasn't long before she realized her life would be much better spent on the mat than in a cubicle With the guidance of her first mentor Ally Hamilton she has devoted her life to yoga and has had the privilege of regularly practicing with many internationally recognized teachers while living for nearly a decade in the modern day yoga mecca of Santa Monica Since the spring of 2009 Leah has been Nike's Global Yoga Ambassador She travels on behalf of Nike's yoga program as their spokesperson and head trainer She leads Nike Training Club Yoga events designs yoga programs for Nike and is featured in Nike media publications She is currently based in London EXCERPT FROM THE BOOK In Santa Monica Los Angeles they say that now there are as many aspiring yoga teachers as there are aspiring actors I'm not sure how

accurate that statement is but in recent years there's certainly been an influx of new yoga teachers not just in Southern California but globally. This makes it a pretty competitive marketplace and the question then is how can you make yourself stand out. The yoga career path is a unique one different from becoming a teacher at a school or a trainer at a gym. Unlike those career paths there are fewer definitive credentials and mandatory guidelines for becoming a yoga teacher. It's more like being a professional artist. Sure you need basic technical training but what will separate you from others is your personal interpretation, perspective, expression and communication. The technical information must be balanced by your inspired and impassioned creativity and authentic voice. I think that's what will separate the yoga teacher who just teaches classes from the yoga teacher who creates an abundant yoga career. The first official step to turning your yoga practice into your professional career is to attend a Teacher Training which is where you will receive a Teacher Training Certificate. But before your first Teacher Training and you'll more than likely do several throughout your yogi lifetime I think it's pretty important to have a good grasp on your practice. What that means to you will be very personal but I can tell you that my teacher Ally taught me that it doesn't mean you have to be able to stick your ankle behind your head, balance on one hand or levitate. This was something I had a hard time wrapping my head around at first. I think it was a combination of self-doubt, setting impossible expectations and fear. Like what you're reading. Buy this book.
