**Environmental Health Perspectives** , **Official Gazette of the United States Patent Office** United States. Patent Office,1969 **Official Gazette of the United States Patent and Trademark Office** United States. Patent and Trademark Office,1998 **African Journal of Public Administration and Management** ,2003 *Free the Land* Edward Onaci,2020-04-17 On March 31 1968 over 500 Black nationalists convened in Detroit to begin the process of securing independence from the United States Many concluded that Black Americans best remaining hope for liberation was the creation of a sovereign nation state the Republic of New Afrika RNA New Afrikan citizens traced boundaries that encompassed a large portion of the South including South Carolina Georgia Alabama Mississippi and Louisiana as part of their demand for reparation As champions of these goals they framed their struggle as one that would allow the descendants of enslaved people to choose freely whether they should be citizens of the United States New Afrikans also argued for financial restitution for the enslavement and subsequent inhumane treatment of Black Americans The struggle to Free the Land remains active to this day This book is the first to tell the full history of the RNA and the New Afrikan Independence Movement Edward Onaci shows how New Afrikans remade their lifestyles and daily activities to create a self consciously revolutionary culture and argues that the RNA s tactics and ideology were essential to the evolution of Black political struggles Onaci expands the story of Black Power politics shedding new light on the long term legacies of mid century Black Nationalism **The International Element, Statehood and Democratic Nation-building** Dren Doli,2019-02-19 This book represents a unique endeavor to elucidate the story of Kosovo s unilateral quest for statehood It is an inquiry into the international legal aspects and processes that shaped and surrounded the creation of the state of Kosovo Being created outside the post colonial context Kosovo offers a unique yet controversial example of state emergence both in the theory and practice of creation of states Accordingly the book investigates the legal pathways strategies developments and policy positions of international agencies actors and regional players in particular the EU that helped Kosovo to establish its independence and gradually acquire statehood Although contested Kosovo and its quest for statehood represents a unique example of successful unilateral secession The book therefore explores and analyses patterns of state formation and nation building in Kosovo and its transition to democracy It presents a three level assessment First seen from a historical perspective the book examines the validity of the right of Kosovar Albanians to self determination and remedial secession Second from a legal positivist perspective it scrutinizes all of the legalist arguments that support Kosovo s right to statehood and claims that both traditional and legality based criteria for statehood remain insufficient to determine whether Kosovo has achieved statehood Third from a post factum perspective the book analyzes the scope and extent to which the internationally blended element was decisive in Kosovo s state formation and state building processes It explains how the EU s involvement as an internationally blended element in Kosovo s efforts to achieve statehood was instrumental and played a crucial role in

shaping the emerging state In particular the book elaborates on how the EU was able to streamline its mode of intervention in the context of state building and reform      **Geological Survey Professional Paper** Geological Survey (U.S.),1988
