Literature Theory And Common Sense New French Thought Series:

Literature, Theory, and Common Sense Antoine Compagnon, 2024-05-14 An engaging introduction to contemporary debates in literary theory In the late twentieth century the common sense approach to literature was deemed naïve Roland Barthes proclaimed the death of the author and Hillis Miller declared that all interpretation is theoretical In many a literature department graduate students spent far more time on Derrida and Foucault than on Shakespeare and Milton Despite this common sense approaches to literature including the belief that literature represents reality and authorial intentions matter have resisted theory with tenacity As a result argues Antoine Compagnon theorists have gone to extremes boxed themselves into paradoxes and distanced others from their ideas Eloquently assessing the accomplishments and failings of literary theory Compagnon ultimately defends the methods and goals of a theoretical commitment tempered by the wisdom of common sense The book is organized not by school of thought but around seven central questions literariness the author the world the reader style history and value What makes a work literature Does fiction imitate reality Is the reader present in the text What constitutes style Is the context in which a work is written important to its apprehension Are literary values universal As he examines how theory has wrestled these themes Compagnon establishes not a simple middle ground but a state of productive tension between high theory and common sense The result is a book that will be met with both controversy and sighs of relief

A World Beyond Politics? Pierre Manent, 2013-07-21 We live in the grip of a great illusion about politics Pierre Manent argues in *A World beyond Politics* It's the illusion that we would be better off without politics at least national politics and perhaps all politics It is a fantasy that if democratic values could somehow detach themselves from their traditional national context we could enter a world of pure democracy where human society would be ruled solely according to law and morality Borders would dissolve in unconditional internationalism and nations would collapse into supranational organizations such as the European Union Free of the limits and sins of politics we could finally attain the true life In contrast to these beliefs which are especially widespread in Europe Manent reasons that the

political order is the key to the human order Human life in order to have force and meaning must be concentrated in a particular political community in which decisions are made through collective creative debate The best such community for democratic life he argues is still the nation state Following the example of nineteenth century political philosophers such as Alexis de Tocqueville and John Stuart Mill Manent first describes a few essential features of democracy and the nation state and then shows how these characteristics illuminate many aspects of our present political circumstances He ends by arguing that both democracy and the nation state are under threat from apolitical tendencies such as the cult of international commerce and attempts to replace democratic decisions with judicial procedures

Re-orienting Modernism in Arabic and Persian Poetry Levi Thompson, 2022-12-08 Comparatively studies through both form and content the development of Arabic and Persian modernist poetry during the mid twentieth century

Reorienting Modernism in Arabic and Persian Poetry Levi Thompson, 2022-12-08 Re orienting Modernism in Arabic and Persian Poetry is the first book to systematically study the parallel development of modernist poetry in Arabic and Persian It presents a fresh line of comparative inquiry into minor literatures within the field of world literary studies Focusing on Arabic Persian literary exchanges allows readers to better understand the development of modernist poetry in both traditions and in turn challenge Europe s position at the center of literary modernism The argument contributes to current scholarly efforts to globalize modernist studies by reading Arabic and Persian poetry comparatively within the context of the Cold War to establish the Middle East as a significant participant in wider modernist developments To illuminate profound connections between Arabic and Persian modernist poetry in both form and content the book takes up works from key poets including the Iraqis Badr Shakir al Sayyab and Abd al Wahhab al Bayati and the Iranians Nima Yushij Ahmad Shamlu and Forough Farrokhzad

Narrative Hermeneutics, History, and Rhetoric , 2024-12-23 David P Moessner has pioneered the study of early Christian narrative both through the investigation of the principles and methods of good storytelling outlined by ancient authors and through the demonstration that Christians especially the author of Luke Acts used these principles and methods in crafting their own stories The contributors to this volume recognize Moessner s enormously valuable research and warm collegiality with twenty one essays on narrative hermeneutics characterization genre intertextuality and reception history Several focus fittingly on Luke and Acts while others press the implications of Moessner s work for comprehension of the wider world of Jewish Christian and Greco Roman storytelling

Representations , 2004 **Moral Disquiet and Human Life** Monique Canto-Sperber, 2008 Attempting to steer moral philosophy away from abstract theorizing this title argues that moral philosophy should be a practical rational and argumentative engagement with reality and that moral reflection should have direct effects on our lives and the world in which we live

French Thought and Literary Theory in the UK Irving Goh, 2019-10-21 This collection presents a sort of counter history or counter genealogy of the globalization of French thought from the point of view of scholars working in the UK While the dominating discourse would attribute the US as the source of that globalization

particularly through the 1966 conference on the Languages of Criticism and the Sciences of Man at Johns Hopkins University this volume of essays serves as a reminder that the UK has also been a principal motor of that globalization The essays take into account how French thought and literary theory have institutionally taken shape in the UK from the 70s to today highlight aspects of French thought that have been of particular pertinence or importance for scholars there and outline how researchers in the UK today are bringing French thought further in terms of teaching and research in this twenty first century In short this volume traces how the country has been behind the reception and development of French thought in Anglophone worlds from the late 70s to the present Publications of the Modern Language Association of America ,2004

The Oxford Handbook of Medieval Latin Literature Ralph Hexter,David Townsend,2012-01-23 The twenty eight essays in this Handbook represent the best of current thinking in the study of Latin language and literature in the Middle Ages The insights offered by the collective of authors not only illuminate the field of medieval Latin literature but shed new light on broader questions of literary history cultural interaction world literature and language in history and society The contributors to this volume a collection of both senior scholars and gifted young thinkers vividly illustrate the field s complexities on a wide range of topics through carefully chosen examples and challenges to settled answers of the past At the same time they suggest future possibilities for the necessarily provisional and open ended work essential to the pursuit of medieval Latin studies While advanced specialists will find much here to engage and at times to provoke them this handbook successfully orients non specialists and students to this thriving field of study The overall approach of The Oxford Handbook of Medieval Latin Literature makes this volume an essential resource for students of the ancient world interested in the prolonged after life of the classical period s cultural complexes for medieval historians for scholars of other medieval literary traditions and for all those interested in delving more deeply into the fascinating more than millennium that forms the bridge between the ancient Mediterranean world and what we consider modernity *Matching Voters with Parties and Candidates* Diego

Garzia,Stefan Marschall,2014-06-06 Voting Advice Applications VAAs have become a widespread online feature of electoral campaigns in Europe attracting growing interest from social and political scientists But until now there has been no systematic and reliable comparative assessment of these tools Previously published research on VAAs has resulted almost exclusively in national case studies This lack of an integrated framework for analysis has made research on VAAs unable to serve the scientific goal of systematic knowledge accumulation Against this background Matching Voters With Parties and Candidates aims first at a comprehensive overview of the VAA phenomenon in a truly comparative perspective Featuring the biggest number of European experts on the topic ever assembled the book answers a number of open questions and addresses debates in VAA research It also aims to bridge the gap between VAA research and related fields of political science

The Academy and Literature ,1895 *Pastoral Theology; the Theory of a Gospel Ministry. Translated from the French* Alexandre Rodolphe Vinet,1852 *Elements of Catholic Philosophy: or, Theory of the natural system of the human mind*

Francis Roubiliac Conder,1850 The Dream of an Absolute Language Lynn R. Wilkinson,1996-07-03 Taking as its point of departure the two poems Correspondances by Baudelaire and Les correspondances by Alphonse Louis Constant The Dream of an Absolute Language Emanuel Swedenborg and French Literary Culture traces the reception and popularization of several key Swedenborgian doctrines in late eighteenth and nineteenth century French literature and popular culture notably the doctrine of correspondences Contrary to what Michel Foucault argued in his early Les mots et les choses in nineteenth century France the word correspondences does not denote a break with representation at least as it was used by nineteenth century French writers rather it is intimately bound up with the taxonomic structures of natural history and also with the desire to understand the social world in terms of an ordered and controllable totality Because it crops up in texts we now classify as canonical and also those outside the canon and because it is so clearly related to notions of literary structure and effect the word correspondences and its transformations in late eighteenth and nineteenth century France offers a vantage point for discerning how artists and writers defined their work both within and against a context of cultures defined as elite popular and even ideological

The Concept of Humanity in an Age of Globalization Longxi Zhang,2012 Rethinking humanity as a concept in our age of globalization and its relevance to the social and political reality of our times are the topic of this book It calls for the reclaiming of humanism as an effective response to the conflict turmoil and violence we witness in the world today Concepts of humanity and humanism have become suspect of naivete at best and guilty of bad faith and repressive ideologies at worst Yet hope for improvement is incorrigibly human the concept of humanity still holds enormous attraction to intellectuals and humanistic scholars At the same time it is important to realize that the critique of humanism is very much based on and limited to Western social and historical experience To re conceptualize humanity and humanism from a truly global perspective will help in reclaiming a more inclusive kind of humanism In this sense a cross cultural perspective is important for reclaiming humanism in our age of globalization The present volume is the result of such an effort The diversity of the authors views speaks eloquently to the complexity of the concept of humanity or what constitutes the distinctly human and therefore the necessity to have an in depth dialogue on the fate of humanity
