Préf. à la deuxième éd** Henri Lefebvre, 1969 **Logique formelle, logique dialectique** Henri Lefebvre, 1969 *Logique formelle, logique dialectique*, 1969 *A la lumière du matérialisme dialectique* Henri Lefebvre, 1947 **Louis Althusser and the Traditions of French Marxism** William S. Lewis, 2005-01-01 In a careful exposition of French Marxism William Lewis places Althusser and his thought alongside the pre and post war French communist intellectual climate the result is an excellent and unique work Part theoretical treatise on some of Althusser's more complicated and less explored ideas part intellectual history *Louis Althusser and the Traditions of French Marxism* is in total an important text for philosophy French and francophone studies political thought cultural studies marxist thought and several other disciplines interested in the intellectual life and times of the twentieth century **Key Writings** Henri Lefebvre, 2017-10-19 Henri Lefebvre is widely recognized as one of the most influential social theorists of the Twentieth Century His writings on cities everyday life and the production of space have become hugely influential across Cultural Studies Sociology Geography and Architecture *Key Writings* presents the full range of Lefebvre's thought in a single volume The selection of essays spanning 1933 to 1990 reinforce the relevance of Lefebvre's work to current debates in social theory politics and philosophy The book is divided into five sections Philosophy and Marxism The Critique of Everyday Life The Country and the City History Time and Space and Politics and includes a general introduction by the editors as well as separate introductions to each section **Henri Lefebvre** Chris Butler, 2012-10-12 While certain aspects of Henri Lefebvre's writings have been examined extensively within the disciplines of geography social theory urban planning and cultural studies there has been no comprehensive consideration of his work within legal studies *Henri Lefebvre Spatial Politics Everyday Life and the Right to the City* provides the first serious analysis of the relevance and importance of this significant thinker for the study of law and state power Introducing Lefebvre to a legal audience this book identifies the central themes that run through his work including his unorthodox humanist approach to Marxist theory his sociological and methodological contributions to the study of everyday

life and his theory of the production of space These elements of Lefebvre's thought are explored through detailed investigations of the relationships between law, legal form and processes of abstraction, the spatial dimensions of neoliberal configurations of state power, the political and aesthetic aspects of the administrative ordering of everyday life and the right to the city as the basis for asserting new forms of spatial citizenship Chris Butler argues that Lefebvre's theoretical categories suggest a way for critical legal scholars to conceptualise law and state power as continually shaped by political struggles over the inhabitation of space This book is a vital resource for students and researchers in law, sociology, geography and politics and all readers interested in the application of Lefebvre's social theory to specific legal and political contexts

Henri Lefebvre: Key Writings Stuart Elden, Eleonore Kofman, Elizabeth Lebas, 2006-10-12 Henri Lefebvre is now recognized as one of the most influential social theorists of the Twentieth Century In English his writings on cities, everyday life and the production of space have become hugely influential across Cultural Studies, Sociology, Geography and Architecture *Henri Lefebvre: Key Writings* presents for the first time the full range of Lefebvre's thought The selection reinforces the centrality of Lefebvre to current debates in social and spatial theory but also sets Lefebvre's work in the context of his broader philosophical and political concerns The extracts are divided into sections each separately introduced by the editors: Philosophy and Marxism; The Critique of Everyday Life; The Country and the City; History, Time and Space; Politics Nearly all the extracts presented here are new translations and most have never appeared in English before Henri Lefebvre 1901-1991 held a range of academic posts both in France and America and wrote over seventy books including *The Production of Space* and *Critique of Everyday Life*

French Hegel Bruce Baugh, 2014-01-21 This highly original history of ideas considers the impact of Hegel on French philosophy from the 1920s to the present As Baugh's lucid narrative makes clear, Hegel's influence on French philosophy has been profound and can be traced through all the major intellectual movements and thinkers in France throughout the 20th Century from Jean Wahl, Sartre and Bataille to Foucault, Deleuze and Derrida Baugh focuses on Hegel's idea of the unhappy consciousness and provides a bold new account of Hegel's early reception in French intellectual history

Sous la direction de J. Havet, préf. de A.-M. M'Bow: t. 1. Sciences anthropologiques et historiques. Esthétique et sciences de l'art. t. 2. Science juridique. Philosophie**, 1970

Lenin Reloaded Sebastian Budgen, Stathis Kouvelakis, Slavoj Žižek, 2007-06-11 At a time when few people seriously consider alternatives to global capitalism this work argues that Lenin demonstrates the inseparability of truth and partisanship the taking of sides an argument liberal leftists must hear now **Hegel, Marx, Nietzsche** Henri Lefebvre, 2020-02-11 With the translation of Lefebvre's philosophical writings his stature in the English speaking world continues to grow Though certainly within the Marxist tradition he consistently saw Marx as an unavoidable necessary but insufficient starting point Unsurprisingly Lefebvre always insisted on the importance of Hegel to understanding Marx But the imposing Metaphilosophy also suggested the significance he ascribed to Nietzsche in the realm of shadows through which philosophy seeks to think the world Lefebvre proposes here that the modern world is at the same time Hegelian in terms of the state Marxist in terms of the social and society and Nietzschean in terms of civilization and its values As early as 1939 Lefebvre pioneered a French reading of Nietzsche that rejected the philosopher's appropriation by fascism bringing out the tragic implications of Nietzsche's proclamation that God is dead long before this approach was followed by such later writers as Foucault Derrida and Deleuze Forty years later in the last of his philosophical writings Lefebvre juxtaposes the contributions of the three great thinkers in a text whose themes remain surprisingly relevant today
