Return of Caribou to Ungava A. T. Bergerud, Stuart N. Luttich, Lodewijk Camps, 2007-12-19 The George River caribou herd increased from 15 000 animals in 1958 to 700 000 in 1988 the largest herd in the world at the time The authors trace the fluctuations in this caribou population back to the 1700s detail how the herd escaped extinction in the 1950s and consider current environmental threats to its survival In an examination of the life history and population biology of the herd The Return of Caribou to Ungava offers a synthesis of the basic biological traits of the caribou a new hypothesis about why they migrate and a comparison to herd populations in North America Scandinavia and Russia The authors conclude that the old maxim Nobody knows the way of the caribou is no longer valid Based on a study in which the caribou were tracked by satellite across Ungava they find that caribou are able to navigate even in unfamiliar habitats and to return to their calving ground movement that is central to the caribou's cyclical migration The Return of Caribou to Ungava also examines whether the herd can adapt to global warming and other changing environmental realities **Votes & Proceedings** New South Wales. Parliament. Legislative Council, 1857 *Saqqaaq* Jens Dahl, 2015-02-26 In the early eighteenth century West Greenland became a colonial territory of Denmark Nevertheless a large number of Inuit communities maintained significant aspects of their cultural and economic practices When home rule was introduced in 1979 the benign paternalism of colonial days was superseded by the incorporation of ethnic and institutional relations under a unified political system in Greenland A national Greenlandic Inuit community was created forcing further cultural adaptation on the part of the Inuit Jens Dahl analyses life in Saqqaaq a small Greenlandic hunting community and explores the changes that have taken place there over the last couple of decades As modern technology is introduced and the worldviews of the Greenlandic Inuit change the hunting community continues to base its life on traditional notions including an economy involving sharing exchanging and

free access to the hunting and fishing grounds Dahl demonstrates that Saqqaq and other communities have adapted to colonial and post colonial influences by combining their practices of hunting and fishing with other forms of employment In the midst of these economic developments however hunters are losing control over their traditional lands Dahl discusses this conflict within the political context making Saqqaq a unique and valuable example of Inuit survival in the modern world

Official Documents, Comprising the Department and Other Reports Made to the Governor, Senate and House of Representatives of Pennsylvania, 1910 **Married But Available** B. Nyamnjoh, 2008-09-15 Married But Available ventures into a theme about which people say as much as they withhold It explores intersections between sex money and power challenging orthodoxies revealing complexities and providing insights into the politics and economics of relationships During six months of fieldwork in Mimboland Lilly Loveless a Muzungulander doctoral student in Social Geography researches how sex shapes and is shaped by power and consumerism in Africa The bulk of her research takes place on the outskirts of the University of Mimbo an institution where nothing is what it seems Through her astounding harvest of encounters interviews conversations and observations the reader gets a captivating glimpse into the frailty and resilience of human beings and society Lilly Loveless comes out of it all well and truly baptized And so does the reader [Hunter's Way](#) Robert Swann, 2015-12-14 Who is Simon Hunter Is he a wealthy international entrepreneur or a parasite preying on an unsuspecting society Simon Hunter is a rare binary man Some see him as the abductor of talented individuals and others as a liberator of down trodden ordinary people but beware with him nothing is quite as it seems What he does and the way he does it excites the interests of intelligence agencies on both sides of the Atlantic they want to use his unique talents to further their own devious aspirations He is thrust unwillingly into a complicated life of intrigue and double dealing which takes him to the squalid back streets of London the unsavoury ghettos of Africa and immerses him in the sinister world of international conspiracy Can he come to terms with the the demands thrust upon him when his family become enmeshed in the danger of the shadowy world into which he finds himself The answer to his dilemma unfolds in a series of unpredictable and fateful consequences which will leave him and those around him forever changed *Hunters in the Barrens* Georg Henriksen, 2010-12-01 This comprehensive study of the Naskapi Indians of Labrador is based on an anthropologist's life with them between 1966 and 1968 when families still followed the traditional pattern of hunting on the barrens during the winter and returning to their costal settlements in the summer Now the Naskapi live in coastal settlements no longer in possession of their own culture they have become sedentaries under white tutelage This description of two antithetical worlds provides valuable insights for anyone interested in contemporary native rights issues **The Northern Region of Korea** Sun Joo Kim, 2011-06-01 The residents of the three northern provinces of Korea have long had cultural and linguistic characteristics that have marked them as distinct from their brethren in the central area near the capital and in the southern provinces The making and legitimating of centralized Korean nation states over the centuries however have marginalized the northern

region and its distinct subjectivities Contributors to this book address the problem of amnesia regarding this distinct subjectivity of the northern region of Korea in contemporary historical and cultural discourses which have largely been dominated by grand paradigms such as modernization theory the positivist perspective and Marxism Through the use of storytelling linguistic analysis and journal entries from turn of the century missionaries and traveling Russians in addition to many varieties of unconventional primary sources the authors creatively explore unfamiliar terrain while examining the culture identity and regional distinctiveness of the northern region and its people They investigate how the northern part of the Korean peninsula developed and changed historically from the early Choson to the colonial period and come to a consensus regarding the importance of regionalism as a vital factor in historical transformation especially in regard to Korea's tumultuous modern era
