

The background of the entire image is an abstract 3D geometric pattern. It consists of numerous rectangular blocks of various sizes, arranged in a complex, interlocking fashion. The blocks are colored in a gradient of colors, including shades of blue, green, yellow, orange, and red. The perspective is from an elevated angle, looking down at the blocks, which creates a sense of depth and dimensionality. The lighting appears to come from the upper left, casting soft shadows and highlighting the edges of the blocks.

The Diversity Paradox J. Jacob Jenkins, 2013-11-22 In recent years a sense of community has declined throughout the United States This trend is especially evident among younger generations whether measured by civic participation political involvement or religious affiliation Central Community Church an intercultural congregation located in Tampa Bay s urban corridor has responded to this trend by promoting community as an organizational metaphor The Diversity Paradox Seeking Community in an Intercultural Church explores the ways in which that metaphor was co constructed by Central Community s racially ethnically diverse leaders and members as well as limitations and tensions that emerged from those efforts After surveying the three prevailing views of community community as physical space community as disembodied concept and community as communicative process Jenkins builds upon four years of ethnographic fieldwork in order to fully understand this community He concludes by introducing an original theoretical concept called the diversity paradox an emphasis placed upon one potential understanding of diversity which paradoxically limits opportunities for alternative expressions of difference
