This book is intended to encourage aspiring and experienced entrepreneurs give you confidence and accompany you on your path to self employment We usually only hear the success stories Going from rags to riches is usually not realistic these days We rarely hear how eventful and sometimes very difficult and long the journey to get there can be Each chapter contains an informal introduction and concrete neuropsychologically based transfer activities for each phase of the self employment process I also want to break the myth of self employment as a 24 hour job and suggest an alternative mentally healthy path to your goal At this point I thank the test entrepreneurs very much for the feedback they provided very much Actually we know it but The book is a reminder that in many situations we are actually up to the challenges Kolb painting business since 2004 A great workbook with helpful tips for self employment Its peculiarity lies in the mindset In addition to strategic knowledge it's about how we can achieve our goals using neuro psychological methods This also includes allowing emotions and using them for the success process I think that this attitude is essential if you want to be successful and in harmony with yourself I recommend the book to every aspiring entrepreneur Heidi Griesbaum M A Prevention Health Management Startup
