similar hook styles but it can be best used on the biggest bass to some people Some anglers also develop a preference for Smallmouth over largemouth bass I m trying to find people who think bass fish are fun for the whole family Definitely not so easy to find them The bait is the main thing to keep in mind when fishing for bass They are not generally attracted to fly fishing baits they are not always going to be attracted to the flashiest bait you have and they are not going to be overly attracted to a bait that moves around too much So dropping your bait and waiting is the best way to catch bass and to catch one that is going to be worth catching and worth eating if you are keeping the fish Using live bait or worms is a great way to start as they are a common food source for bass living in ponds Worms are also cheap or free if you dig your own You can use rubber worms that are rather wiggly and that do look real or you can use grubs Bass are going to be caught without a ton of trouble When it comes to fishing it is always best to find out more about the fish you are hoping to catch Fish are more intelligent than we think For example take deep sea fishing to make it relatively easy to bait with sea bass Want to learn more Read The Bass Fishing By Dr Wendy Grey
