   Livingstontravels.com Hernán Camps,2002-12-16 Inhaltsangabe Abstract The use of electronic and other mechanized methods to exchange business transactions and other information through interconnected computers is not just a technological change but also a fundamental shift in mindset and in the way of doing business today There are great new opportunities for the e business which have not yet been explored Technology supports while does not limit the amount of opportunities but allows a whole new set of competitive advantages in a global scenario where some of the rules of the game have change even though the most basic principles of business remain the same There is potential for acting globally with the support of the communications technologies Additionally the reduction of regulatory barriers in most of the countries stretches the limits of e commerce around the world However there are still barriers such as the paying mechanisms currencies or the fiscal and legal issues Even though the amount of opportunities that technology provides to the market place is surprising there is no technology that can help with out a clear idea of the business objectives to be achieved on the

net Both tourism and Web based Electronic Commerce are growing and changing rapidly Two hundred and thirty percent increased in online holiday sales over 1997 Travel is currently the most purchased product online having surpassed computer equipment In 1999 US 5 billion was spent at travel web sites Research indicates this figure will increase six times to US 30 billion in 2001 Given these opportunities in the market place this project will set the tools to stimulate the creating process to test the idea and to work out its implications Livingstontravels com aims to be a niche player among the online travel agencies focusing mainly on satisfying the needs of young travelers with an interest and respect towards other cultures and resorts around the world Therefore Livingstontravels com will not only handle reservations but it will also offer some other bundled services which will help to understand better the visited country and establish contact with the native people through the web site virtual community before starting the trip Inhaltsverzeichnis Table of Contents SECTION 1 OVERVIEW1 1 INTRODUCTION WORLDWIDE INTERNET TRAVEL PORTAL2 2 PROBLEM FORMULATION3 3 METHODOLOGY5 SECTION 2 INDUSTRY ANALYSIS9 4 DEFINITION OF THE INDUSTRY10 4 1VIRTUAL COMMUNITY INDUSTRY VS ONLINE TRAVEL   Electronic Globalized Business and Sustainable Development Through IT Management: Strategies and Perspectives Ordóñez de Pablos, Patricia,Lytras, Miltiadis,Karwowski, Waldemar,Lee, Rongbin W.B.,2010-08-31 This book provides fresh ideas on how IT and modern management can contribute to societal and economic objectives and the significant role of IT for global challenges and international collaboration Provided by publisher   **Summary: Unchained Value** BusinessNews Publishing,2014-09-29 The must read summary of Mary Cronin s book Unchained Value The New Logic of Digital Business This complete summary of the ideas from Mary Cronin s book Unchained Value shows that you can t transform a conventional firm into a digital business by simply grafting a few Web initiatives onto the current business structures Instead the existing business chain will need to be replaced in its entirety by a digital value system which focuses not on static internal value chains but on dynamic external webs of relationships In her book the author explains that this is the only way the power and flexibility of the digital business arena can be harnessed to create greater value and derive a stronger competitive advantage This summary will teach you how to rethink your business and why you should do it sooner rather than later so that you don t get left behind Added value of this summary Save time Understand key concepts Expand your knowledge To learn more read Unchained Value and discover the key to aligning your business with the e revolution

Strategic and Practical Approaches for Information Security Governance: Technologies and Applied Solutions Gupta, Manish,Walp, John,Sharman, Raj,2012-02-29 Organizations worldwide have adopted practical and applied approaches for mitigating risks and managing information security program Considering complexities of a large scale distributed IT environments security should be proactively planned for and prepared ahead rather than as used as reactions to changes in the landscape Strategic and Practical Approaches for Information Security Governance Technologies and Applied Solutions presents high quality research papers and practice articles on management and governance issues in the field of information

security The main focus of the book is to provide an organization with insights into practical and applied solutions frameworks technologies and practices on technological and organizational factors The book aims to be a collection of knowledge for professionals scholars researchers and academicians working in this field that is fast evolving and growing as an area of information assurance **E-business in the 21st Century** Jun Xu,Mohammed Quaddus,2010 Embarking on electronic business is a challenging task There is also a lack of clear understanding and comprehensive analysis of various issues and domains of electronic business This book offers a very comprehensive analysis of concepts models and infrastructures of e business It also presents unique observations of current e business practices for different organizations in different economies and provides insights on the future of current leading businesses on the net and the trends of e business The volume will be an effective and indispensible reference book for professionals who are interested in or dealing with e business and businesses that are embarking on e business History of Computing: Learning from the Past Arthur Tatnall,2010-08-06 History of Computing Learning from the Past Why is the history of computing important Given that the computer as we now know it came into existence less than 70 years ago it might seem a little odd to some people that we are concerned with its history Isn t history about old things Computing of course goes back much further than 70 years with many earlier vices rightly being known as computers and their history is of course important It is only the history of electronic digital computers that is relatively recent History is often justified by use of a quote from George Santayana who famously said that Those who cannot remember the past are condemned to repeat it It is arguable whether there are particular mistakes in the history of computing that we should avoid in the future but there is some circularity in this question as the only way we will know the answer to this is to study our history This book contains papers on a wide range of topics relating to the history of c puting written both by historians and also by those who were involved in creating this history The papers are the result of an international conference on the History of Computing that was held as a part of the IFIP World Computer Congress in Brisbane in September 2010 **Library Journal** ,1996 Multiple Approaches to Intelligent Systems Ibrahim F. Imam,Yves Kodratoff,Ayman El-Dessouki,Moonis Ali,2004-05-19 We never create anything We discover and reproduce The Twelfth International Conference on Industrial and Engineering Applications of Artificial Intelligence and Expert Systems has a distinguished theme It is concerned with bridging the gap between the academic and the industrial worlds of Artificial Intelligence AI and Expert Systems The academic world is mainly concerned with discovering new algorithms approaches and methodologies however the industrial world is mainly driven by profits and concerned with producing new products or solving customers problems Ten years ago the artificial intelligence research gap between academia and industry was very broad Recently this gap has been narrowed by the emergence of new fields and new joint research strategies in academia Among the new fields which contributed to the academic industrial convergence are knowledge representation machine learning searching reasoning distributed AI neural networks data mining intelligent

agents robotics pattern recognition vision applications of expert systems and others It is worth noting that the end results of research in these fields are usually products rather than empirical analyses and theoretical proofs Applications of such technologies have found great success in many domains including fraud detection internet service banking credit risk and assessment telecommunication etc Progress in these areas has encouraged the leading corporations to institute research funding programs for academic institutes Others have their own research laboratories some of which produce state of the art research **The Publishers Weekly** ,1996 **Web Commerce Technology Handbook** Daniel Minoli,Emma Minoli,1998 This guide shows corporate network administrators and small business owners how to plan implement and maintain an Internet Commerce Center Cyberpreneurs will obtain the know how to market sell and transact online **Harvard Business School Core Collection** Baker Library,1999 Emerging Dynamics of Sustainability in Multinational Enterprises John R. McIntyre,Silvester Ivanaj,Vera Ivanaj,Rabi N. Kar,2016-02-26 Economic development that meets the needs of the global population without jeopardizing the capacity of future generations is a worldwide challenge for multinational enterprises MNEs They are expected to balance their role as global economic actors and environmental stewards in the environment in which they operate Contributors from India Europe and the United States offer new perspectives contrasting US European and emerging economies approaches to sustainability and how they can generate roadmaps which yield innovative solutions for one of the most contentious issues of our era Their review suggests that the differential performance across developed and emerging economies has exposed potential weaknesses Emerging Dynamics of Sustainability in Multinational Enterprises promotes greater emphasis on experimenting with unique local and sustainable approaches to solving problems faced by firms in or from emerging economies This is a critical resource for researchers practitioners and policy makers concerned with sustainable development issues and a fresh reference for graduate level students and academics focusing on corporate governance sustainable development and ethics as well as multinational enterprise management *Strategic Marketing in Fragile Economic Conditions* Samanta, Irene,2014-06-30 This book provides relevant theoretical frameworks and the latest empirical research findings relating to consumer confidence marketing strategies and the influence of trust during a time of economic crisis Provided by publisher Journal of General Management ,1997 **Business and the Internet** ,1999 **Journal of Hospitality & Tourism Education** ,2000 **The Business Internet and Intranets** Peter G.
