The Encyclopedia of Old Fishing Lures Robert A. Slade, 2011-12 Robert A. Slade, after collecting old fishing tackle since 1958 and contributing articles on old fishing lures for a collector magazine for several years, started researching and writing books in the 1990s. He published the *HISTORY COLLECTIBLE FISHING TACKLE OF WISCONSIN* in 1999, which sold 4,500 copies. Bob realized that even though there have been many books published on the subject of old fishing lures, that few books covered any detailed history on the old lure makers. His latest book writing project was nine years in the making and covers over 100 years of lure making history starting in 1875 and covers over 2,500 lure makers throughout all of North America. *THE ENCYCLOPEDIA OF OLD FISHING LURES MADE IN NORTH AMERICA* is the first publication with extensive history and patent information on old lure makers and the first to include extensive coverage on Canadian lure makers. The author traveled to 11 states and 3 Canadian Provinces, visiting collectors' homes, newspaper archives, museums, and other sources, and has taken over 10,000 pictures in preparing the historical stories for these books. The set of books arranges for the individual and company lure makers to appear in alphabetical order. People purchasing these books can buy any one single book, a whole set, or even a book a month if they desire, as the books will be printed and shipped on demand. Each book has over 400 pages of text, pictures, and collector values, with each book containing a table of contents and index as well as a master index for the complete set of books.

The Complete Angler Jake Bussolini, 2014-02-21 This book is the sixth in a series of books written by Jake Bussolini. It is the last in his series of books that blend the science of fishing with the sport of fishing. This book is directed at the experienced angler and covers a broad range of subjects that the author feels he has not thoroughly covered in his previous books. The first half of this book covers some of the more complex questions about fish health, growth, population, and nutrition. Then the subject of sonar image interpretations are revisited, going deep into the understanding of what screen images really mean. The author also covers less complicated subjects like the strike zone, using sound to catch fish, selecting the right bait or lure, including a look at the author's ten favorite lures. The second half of the book describes several of the fishing experiences of the author, including lessons learned from these experiences. The book ends with some brief coverage of filleting your fish, stepping up your equipment, and a broad description of the responsibilities of every
