Identification Of Joint Management Structures For Shared Aquifers:

Identification of Joint Management Structures for Shared Aquifers Eran Feitelson, Marwan Haddad, 1998-01-01
Overcoming the scarcity and temporal variance of water availability in semi arid regions or the excess of water in temperate regions often requires cooperation This paper describes the approach taken by an Israeli Palestinian team to identify joint management structures for the aquifers shared by these two parties and some of the lessons learned from the experience of this team *Managing Transboundary Waters of Latin America* Asit Biswas, 2013-09-13 Definitive analyses of transboundary water management in Latin America are conspicuous by their absence The situation is a little better for rivers compared to groundwater resources Transboundary water management in Latin America has been evolving in a somewhat different manner compared to other continents The book includes eight authoritative case studies of Latin American transboundary rivers and aquifers as well as a thinkpiece on the complexities of managing aquifers based on global experiences The case studies are of different scales ranging from the mighty Amazon to small Silala The overall focus of the book is on ways in which such difficult and complex rivers and aquifers that are shared by two or more countries can be managed efficiently and equitably and on the lessons both positive and negative that other regions can learn from the Latin American experience This book was published as a special issue of the International Journal of Water Resources Development *The Arab-Israeli Accords: Legal Perspectives* Eugene Cotran, Chibli Mallat, 2023-12-11 This book brings together for the first time independent and highly respected lawyers and jurists from both sides of this century old conflict to identify and assess areas of common interest As violence diminishes in favour of negotiation and compromise all issues covered by the ongoing discussions will be determined by emerging rule of law The book contains original contributions from an experienced team of Palestinian and Israeli lawyers and scholars in the field and covers a range of strategic issues including history and law key international treaties the domestic dimensions of the peace process water arrangements economic issues and the legal institutions which are being created and must adapt to the new scene An important feature of the book is that it succeeds in showing that the traditional opposition of Israeli and Arab views may be giving way to a common informed reflection on modes of coexistence primarily determined by law Contributors include Raja Shehadeh Ruth Gavison Eyal Benvenisti Eugene Cotran David Kretzmer Anis Al Qasem Celia Fassberg Sharif Elmusa Mahmud El Jaafari Eran Feitelson Ruth Levush and Mona Rishmawi *The East Asian Miracle and Information Technology* Nagy Hanna, 1999 World Bank Discussion Paper No 326 Draws on the successful experiences of five East Asian economies Japan the Republic of Korea Singapore Taiwan China and Hong Kong to show how they have exploited the opportunities made possible by the information technology revolution and built sustainable competitive advantages in many high value added industries and services The study examines the role of government in unleashing private sector response promoting the information technology industry diffusing technology and focusing resources on strategic elements of the national information infrastructure It also explores the role of the private

sector in influencing the development and use of the new technologies

Subnational Budgeting in Russia Lev M. Freinkman, Daniel Treisman, Stepan Titov, 1999-01-01 Not only are Russia's regions economically diverse but the policies that regional governments have adopted to deal with the strains of economic transition also vary widely. Some regions have generally embraced market reforms while others have sought to preserve enclaves of socialism with price restrictions, large subsidies, and barriers to trade. Reforms of Russia's budgetary system at the subnational level are vital to preserve macroeconomic stability, improve the efficiency and accountability of government, and enhance incentives for local and regional governments to vigorously support economic growth. Previous analytical and reform efforts have focused on possible changes at the federal level and in the system of center-region relations. An opportunity now exists to make progress by providing reform advice and conditional aid to policymakers at the regional and subregional level. This report focuses on opportunities for reform at the subnational level. It reviews recent trends in fiscal adjustment, budgeting, and government debt at the regional and local levels in Russia. It analyzes major problems and suggests a number of measures and performance indicators that could form part of a reform strategy initiated by the Government of Russia.

DeMISTifying MIS Luc Lecuit, 1999-01-01 Managers are often far from the real action so they need something that will tell them what is going on. Luckily, the rapid evolution of tools for collecting, analyzing, and diffusing information has greatly improved our ability to manage from a distance. However, the speed of technological change means that changes in management practices and tools are inescapable. Development of Management Information Systems (MIS) for social funds has become essential due to some of the characteristics unique to these types of projects or organizations. Among these unique characteristics are the need for transparency and efficiency because of the highly visible nature of the activities. These guidelines define MIS and underscore its importance. They also outline specific tools to assist in selection of an MIS and summarize its design and implementation. These guidelines are meant to be a practical tool to help those who are setting up or managing a social fund navigate in MIS waters. Technical jargon is kept to a minimum, and a glossary of technical terms is provided to assist readers who do not have a technical background. However, special Technical Boxes have been included for the experts in this field.

Financial Integration, Vulnerabilities to Crisis, and EU Accession in Five Central European Countries Mustapha K. Nabli, 1999-01-01 A major source of vulnerability in the CE5 is their nascent financial systems and their ability to handle large and increasing volume of capital. As the experience of East Asia demonstrates, a high priority should be given to improving the quality and performance of the banking system. From Financial Integration, Vulnerabilities to Crisis, and EU Accession in Five Central European Countries. The objective of this study is to help assess the possible vulnerabilities in a number of Central European countries as they proceed with global financial integration and EU accession. The report focuses on those countries slated to be the first in the region to join the EU: the Czech Republic, Estonia, Hungary, Poland, Slovenia. CE5. The study discusses the context and presents a short description of the CE5 countries' experience in attracting capital flows.

Analyzes the manifestations of vulnerability to financial crises and sustainability of foreign capital flows to the CE5 Interprets the results and draws implications in view of the initial conditions of the various countries Compares the EU accession of the CE5 to the Southern Mediterranean countries accession to the EC in the 1980s Draws conclusions and makes recommendations

Overcoming Obstacles to Liberalization of the Telecom Sector in Estonia, Poland, the Czech Republic, Slovenia, and Hungary Robert Bruce, 1999-01-01 This study emerges from discussions with representatives of the World Bank and high level representatives of government and the telecommunications services industry in Hungary Estonia Poland the Czech Republic Slovenia and Hungary It considers the problems inherent with the liberalization of the telecom sector This publication is a Technical Paper sponsored by the Poverty Reduction and Economic Management Network of the World Bank's Europe and Central Asia Division It is part of a comprehensive series regarding the many important factors that influence European Union EU accession in the Central and East European countries CEEC The topics in the series cover both the social and economic aspects of accession across a broad range of sectors The series also provides background information for specific acceding countries These publications will be of interest to EU member and candidate countries their ministries and any one studying the accession issue

EU Investment Grants Review Iain Begg, 1999-01-01 This study is the first of a three stage research program that aims to investigate institutional arrangements for local and regional capital investment in selected CEECs and assess whether these arrangements provide appropriate signals to economic agents with regard to EU accession This publication is a Technical Paper sponsored by the Poverty Reduction and Economic Management Network of the World Bank's Europe and Central Asia Division It is part of a comprehensive series regarding the many important factors that influence European Union EU accession in the Central and East European countries CEEC The topics in the series cover both the social and economic aspects of accession across a broad range of sectors The series also provides background information for specific acceding countries These publications will be of interest to EU member and candidate countries their ministries and any one studying the accession issue

Economic Research on the Determinants of Immigration

George J. Borjas, 1999-01-01 This publication summarizes some of the key research findings from current literature and applies the lessons from it to the potential migration problem faced by countries in the EU Its main objective is to present a review of existing economic theory and empirical evidence to evaluate the likelihood of migration flows from acceding or neighboring countries toward the current EU member states This publication is a Technical Paper sponsored by the Poverty Reduction and Economic Management Network of the World Bank's Europe and Central Asia Division It is part of a comprehensive series regarding the many important factors that influence European Union EU accession in the Central and East European countries CEEC The topics in the series cover both the social and economic aspects of accession across a broad range of sectors The series also provides background information for specific acceding countries These publications will be of interest to EU member and candidate countries their ministries and any one studying the accession issue

Economic Reform and Environmental Performance in Transition Economies Gordon Hughes, Magda Lovei, 1999-01-01
transition has proved to be a much longer and more difficult process than most had anticipated and progress has varied By 1998 only one country Poland which embarked on economic reform before the rest of the region had reestablished sustained economic growth and surpassed the pretransition level of real gross domestic product GDP From Economic Reform and Environmental Performance in Transition Economies Most global economy and environmental watchers expect the transition to a market economy to yield environmental benefits The changing incentives that a market economy introduces should foster more efficient production better use of resources and increased community input The advanced reformers of the Central and Eastern European CEE countries proved this to be the case They improved energy efficiency and reduced emissions intensity of pollutants The slower reforming countries of the Newly Independent States NIS also experienced lower pollution However that downturn coincided with the economic decline which shut down many major polluters This report reviews progress in environmental trends since transition began It looks at air and water pollution and health indicators in the trends and in light of the environmental issues identified in the Environmental Action Programme for Central and Eastern Europe It continues and builds on the World Bank's work in analyzing the environmental effects of transition restructuring and privatization with a view to identifying priority areas for investment and policy initiatives The report will interest environmental policy makers and practitioners

Privatization of the Power and Natural Gas Industries in Hungary and Kazakhstan, 1999-01-01 Hungary and Kazakhstan have privatized a large portion of their electric power and natural gas industries but have followed different strategies In contrast the other former socialist countries in Central and Eastern Europe have privatized almost none Has the privatization in these two countries been a success What lessons can other countries learn from their experience These countries began their reforms from different starting points The Hungarian power and gas sectors had a long history of being relatively well managed In contrast Kazakhstan inherited pieces of the old systems that were designed to serve the needs of the Soviet Union and had to develop new organizations to manage the system Privatization of the Power and Natural Gas Industries in Hungary and Kazakhstan analyzes how each country dealt with the key issues involved in the restructuring and privatization of the power and gas sectors These issues include industry structure wholesale market labor and management relations regulatory framework privatization objectives and privatization methods

Food and Agriculture in the Czech Republic Csaba Csáki, Michel Debatisse, Oskar Honisch, 1999-01-01
Becoming a member of the European Union is one of the most important objectives of the Czech Republic for the coming years both for the government and for the Czech society as a whole With the exception of a few traditional Czech products the Czech Republic is not a major exporter of agricultural goods due to its land locked position and relatively poor product differentiation Since the velvet revolution in 1989 agricultural production has declined To conform to European Union standards for accession the Czech Republic needs to make some adjustments This report reviews the current state of Czech

agriculture and agro industry in the context of EU accession It analyzes institutional reforms and their actual impacts and proposes a series of adjustments to complete the reforms in the agricultural sector This report is intended for agricultural scientists public officials agricultural and agro industrial leaders and researchers interested in the transformation of agriculture in the transition economies and in issues pertaining to accession of Central and East European candidate countries to the European Union

Poverty and Policy in Latin America and the Caribbean Quentin Wodon, Robert L. Ayres, 2000 Although the progress toward poverty reduction remains sluggish other dimensions of social welfare in the Latin American and Caribbean LAC region show signs of improvement Adult literacy and school enrollment rates life expectancy at birth and the amount of access to safe water are increasing Nutrition indicators are also improving However other factors demonstrate that many problems persist especially the inequality between rich and poor This report analyzes the evolution of poverty and inequality in the LAC region from 1986 to 1996 with projections to 1998 It reviews the policies which have been advocated or implemented to reduce poverty The report combines the results of new empirical work using household surveys from 12 countries short theoretical developments and a review of the literature on issues related to poverty inequality and social policy in LAC Some of the theoretical developments introduce new research techniques Chapters three to six follow the framework proposed in the forthcoming World Development Report 2000 2001 The framework identifies three essential elements for poverty reduction Those elements include opportunities for the poor and investments in the human capital of the poor security through social safety nets and empowerment

Legal Impediments to Effective Rural Land Relations in Eastern Europe and Central Asia Roy L. Prosterman, Timothy M. Hanstad, 1999-01-01 Excessive concentration of land ownership as is feared by many transition governments has not been a feature of land markets where they have been allowed to function relatively freely and where land has been allocated in kind to households and individuals The World Bank has long been active in the Europe and Central Asia region in monitoring and evaluating land reform developments and supporting the development of land markets Bank efforts to date have made a significant impact in our client countries and studies produced by the Bank have been used as impartial references on this subject by both international organizations and the countries themselves This report was developed as a result of these efforts It focuses on The principal issues faced by the transition economies of Eastern Europe and the Former Soviet Union The potential approaches for resolving specific problem issues

Dismantling Russia's Nonpayments System Brian Pinto, Vladimir Drebenstov, Aleksandr Morozov, 2000-01-01 One question preoccupies many scholars and practitioners How can economic growth in the Russian Federation be reinvigorated This report contributes to the current debate Nonpayments in Russia evolved into a complex inter linked system over the latter half of the 1990s becoming one of the most critical issues facing policymakers This paper analyzes this system including its origins its evolution the factors that now perpetuate it and its costs and identifies a minimum set of economic reforms needed to dismantle it The paper also proposes answers to key questions about nonpayments including

How has its course been influenced by government policy at the federal and subnational levels What are the links with macroeconomic policy What is the role of the energy sector and how has the system affected the way businesses operate What are the implications for economic growth How indeed as part of Russia's transition to a monetized market economy did the nonpayments system come to exert a stranglehold on virtually every aspect of the economy This report will be of interest to policymakers and economists interested in transition economies From Transition to Accession Esen Ulgenerk, Leila Zlaoui, 2000-01-01 Bulgaria is recovering from a severe economic and financial crisis after more than half a decade of macroeconomic mismanagement As a candidate country for accession to the EU Bulgaria will need to establish stable well regulated and competitive financial markets and institutions This paper reviews developments in the financial markets

Reforming Education in the Regions of Russia Mary Canning, Peter R. Moock, Timothy E. Heleniak, 1999-01-01 Russia's educational system with broad access and high levels of scholarly achievement has long been a source of strength The Soviet system however was grossly overcentralized inefficient and lacking in accountability In the last decade attempted rapid decentralization has not been well designed since there has been no commensurate transfer of resources and levels of responsibility have remained unclear Unless corrected soon the harmful impact on educational quality and equity could be very serious The purposes of this report are to analyze the nature of the current problems and to discuss policy options open to the Russian Government in its efforts to improve educational efficiency preserving and even improving equitable access without sacrificing traditions of academic excellence This report is based on analysis of trends across the 89 Russian regions and case studies In its conclusions the report draws on this regional experience to suggest reform options Among other proposals efficiency could be increased by giving schools increased financial autonomy using of per capita financing formulae and beginning to rationalize the teaching force and improve its quality A national system of student assessment might help both to raise quality and improve the equity of access to highly selective institutions Reforms are required to improve the market responsiveness of first level vocational education and especially to avoid excessive and premature specialization Education practitioners and policy makers will find this publication of interest **Poland** Gordon Hughes, Julia

Bucknall, 1999 The prospect of joining the European Union defines much of Poland's current policy agenda The political and economic consensus in favor of joining the EU as quickly as possible is very strong and indeed most of the adjustments required are likely to be in Poland's immediate interest However the changes required to comply with EU directives in the environment sector involve sustained high levels of investment and significant uncertainty about the timing and nature of the associated benefits The European Commission's Opinion on Poland's application for EU membership acknowledges the severity of the environmental problems in Poland and comments on the challenges the country will have to face especially in the areas of wastewater treatment and air pollution The Opinion concludes that while full transposition of the environmental acquis in Poland could be expected in the medium term effective compliance with a number of pieces of legislation would

require sustained high levels of investment and considerable administrative effort Full compliance in areas such as drinking water and certain aspects of waste management could be achieved only in the long term and will necessitate increased levels of public and private investment This paper aims to address some of the issues involved in planning compliance with EU environmental directives The paper has three principal objectives Highlight major issues that Poland is likely to face in implementing the requirements Estimate the total costs of compliance for the public sector in certain key sectors and outline possible options for reducing those costs and Assess where the burden of those costs is likely to fall and the options for financing the investments

Ukraine--review of Farm Restructuring Experiences Zvi Lerman,Csaba Csáki,2000-01-01

Restructuring has produced a definite favorable impact on labor relations and workers behavior in the reorganized farms Managers of reorganized farm enterprises give a much more positive assessment of the behavioral patterns of their workers than managers of non reorganized farms Agriculture remains the main source of employment and livelihood for the large rural population of many transition countries especially among the former Soviet republics Accordingly the World Bank continuously monitors the progress of land reform and farm restructuring in the region because of the potential impact of these processes on rural development and poverty alleviation in rural areas The present study on Ukraine is the latest addition to a long and growing series of World Bank publications on land reform and farm restructuring in the former socialist countries of Europe and Central Asia The unique feature of all these publications is their reliance on first hand empirical information collected through extensive farm surveys of various rural constituencies Farm surveys have been conducted by the World Bank in many countries of the CIS Russia Ukraine Moldova Armenia Georgia Turkmenistan Belarus and Central and Eastern Europe Poland Romania Bulgaria Hungary Albania Analysis of survey findings enables the World Bank to base its policy dialogue with governments in the region on solid empirical facts making the Bank s recommendation much more credible and relevant The new findings for Ukraine will similarly provide a platform for useful policy discussions with this country s government and supply the many international donors active on the local scene with essential information for the design of their strategic programs

Delve into the emotional tapestry woven by in Dive into the Emotion of **Identification Of Joint Management Structures For Shared Aquifers** . This ebook, available for download in a PDF format (PDF Size: *), is more than just words on a page; it is a journey of connection and profound emotion. Identification Of Joint Management Structures For Shared Aquifers Introduction

In the digital age, access to information has become easier than ever before. The ability to download Identification Of Joint Management Structures For Shared Aquifers has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Identification Of Joint Management Structures For Shared Aquifers has opened up a world of possibilities. Downloading Identification Of Joint Management Structures For Shared Aquifers provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Identification Of Joint Management Structures For Shared Aquifers has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Identification Of Joint Management Structures For Shared Aquifers. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Identification Of Joint Management Structures For Shared Aquifers. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Identification Of Joint Management Structures For Shared Aquifers, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Identification Of Joint Management Structures For Shared Aquifers has transformed the way we access information. With the convenience, cost-

effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Identification Of Joint Management Structures For Shared Aquifers Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Identification Of Joint Management Structures For Shared Aquifers is one of the best book in our library for free trial. We provide copy of Identification Of Joint Management Structures For Shared Aquifers in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Identification Of Joint Management Structures For Shared Aquifers. Where to download Identification Of Joint Management Structures For Shared Aquifers online for free? Are you looking for Identification Of Joint Management Structures For Shared Aquifers PDF? This is definitely going to save you time and cash in something you should think about.
