Science-fiction Studies ,1982   **Journal of American Culture** ,1989   **Intersections** George Edgar Slusser,Eric S. Rabkin,1987 These 17 essays from the seventh annual J Lloyd Eaton Conference examine the relationship between fantasy and science fiction They propose that fantasy and science fiction are not isolated commercial literary forms but instead are literary forms worthy of the recognition reserved for traditional literature Discussion of genre identification ranges from the standard forms of literary criticism embodied in Aristotle s mimesis and poesis to innovative and possibly controversial points of view such as a theory of humor a philosophy of time and a detailed analysis of Dr Seuss s Cat in the Hat The essays provide not only a detailed study of literary elements but also the historical treatment of the material its commercial use and its relationship to similar literary forms such as the gothic tale and horror fiction While few of the essayists agree with one another they all contribute creative insights to the debate   The Oxford Handbook of Philosophy of Technology Shannon Vallor,2022 The Oxford Handbook of Philosophy of Technology gives readers a view into this increasingly vital and urgently needed domain of philosophical understanding offering an in depth collection of leading and emerging voices in the philosophy of technology The thirty two contributions in this volume cut across and connect diverse philosophical traditions methodologies and subfields providing the reader with provocative and original insights on the history concepts problems and challenges that mark humanity s attempts to attain deeper and more lasting wisdom about our complex and evolving relationship to technology   The Oxford Handbook of Science Fiction Rob Latham,2014 The Oxford Handbook of Science Fiction attempts to descry the historical and cultural contours of SF in the wake of technoculture studies Rather than treating the genre as an isolated aesthetic formation it examines SF s many lines of cross pollination with technocultural realities since its inception in the nineteenth century showing how SF s unique history and subcultural identity has been constructed in ongoing dialogue with popular discourses of science and technology The volume consists of four broadly themed sections each divided into eleven chapters Section I Science Fiction as Genre considers the internal history of SF literature examining its characteristic aesthetic and ideological modalities its animating social and commercial institutions and its relationship to other fantastic genres Section II Science Fiction as Medium presents a more diverse and ramified

understanding of what constitutes the field as a mode of artistic and pop cultural expression canvassing extra literary manifestations of SF ranging from film and television to videogames and hypertext to music and theme parks Section III Science Fiction as Culture examines the genre in relation to cultural issues and contexts that have influenced it and been influenced by it in turn the goal being to see how SF has helped to constitute and define important sub cultural groupings social movements and historical developments during the nineteenth twentieth and twenty first centuries Finally Section IV Science Fiction as Worldview explores SF as a mode of thought and its intersection with other philosophies and large scale perspectives on the world from the Enlightenment to the present day   The Intersection of Setting and Story A. J. Sieling, You re writing a book But as it turns out writing a book is difficult In your head the narrative is grand and beautiful some might even say epic majestic a story for the ages But as you re rereading what you ve got so far you find yourself disappointed It s not at all how you imagined it with choppy language weak characters and thin description of the setting It lacks depth and form but you don t exactly know how to fix it Writing and revising fiction is challenging and the strategies for doing it well are varied and highly subjective And the truth is there s no single right way to craft a narrative So how do you do it How do you take what seems like a brilliant idea for a story and craft it into something wonderful that truly represents what you know you re capable of How do you add the depth and elegance that will have people reading your book for decades to come In the book The Intersection of Setting and Story delve into the craft of creating compelling fiction with A J Sieling This book will examine the many uses for setting and how a writer can blend it with the other elements of story to build a narrative web which captures the reader s imagination   *The New Routledge Companion to Science Fiction* Mark Bould,Andrew M. Butler,Sherryl Vint,2024-06-13 The New Routledge Companion to Science Fiction provides an overview of the study of science fiction across multiple academic fields It offers a new conceptualisation of the field today marking the significant changes that have taken place in sf studies over the past 15 years Building on the pioneering research in the first edition the collection reorganises historical coverage of the genre to emphasise new geographical areas of cultural production and the growing importance of media beyond print It also updates and expands the range of frameworks that are relevant to the study of science fiction The periodisation has been reframed to include new chapters focusing on science fiction produced outside the Anglophone context including South Asian Latin American Chinese and African diasporic science fiction The contributors use both well established critical and theoretical approaches and embrace a range of new ones including biopolitics climate crisis critical ethnic studies disability studies energy humanities game studies medical humanities new materialisms and sonic studies This book is an invaluable resource for students and established scholars seeking to understand the vast range of engagements with science fiction in scholarship today   **Intersecting Genre** Jason Olsen,2023-08-10 Creative writing takes on many genres or forms fiction poetry nonfiction and dramatic writing Whilst all have their own principles and rules all modes of writing overlap and borrow from each other and so what you learn in one

form can influence inform and inspire your practice in others Intersecting Genre holds this idea at its heart embracing the dissolution of disciplinary and genre boundaries to discuss the ways each genre supports the others Whilst traditional approaches typically discuss one genre independent of others this book explores genre relationships with each chapter focusing on the intersection between 2 modes and what you can learn and the skills you can transfer by combining the wisdom gained from the study of for example fiction and poetry together With most introductory creative writing courses aiming to apprise you of such mechanics of writing as narrative pace vocabulary dialogue imagery and viewpoint Intersecting Genre is the ideal companion offering a unique methodology that analyses these ideas as they feature across the different genres thus giving you the ultimate well rounded introduction before you settle into the modes of writing that best suit you as your progress with your writing Covering fiction poetry nonfiction writing plays and screenwriting and also taking stock of the forms that do not fit neatly into any genre silo this book uses models critical questions writing warm ups and writing practice exercises to give you a solid understanding of the points discussed and encouraging you to put them to practice in your own work With the field of creative writing evolving constantly and with approaches to teaching and learning the subject vast and continually expanding this book offers a dynamic and uniquely holistic method for developing your writing skills asking you to deeply consider the issues and possibilities present in genre   *Clues* ,1986   **The Writer's Advisor** Leland G. Alkire,Cheryl I. Westerman,1985   *Studies in 20th Century Literature* ,1988   *Ursula K. Le Guin, a Primary and Secondary Bibliography* Elizabeth Cummins Cogell,1983   **At the Crossroads** Rebecca Jones,2019 Shortlisted for the SAUK Fage Oliver Prize 2020 Honorable Mention for the ALA First Book Award Scholarship 2021 A path breaking contribution to the critical literature on African travel writing   *The Crossroads* L. Ron Hubbard,2010-06-21 Think you know what s going on in the world Think again Long before Rod Serling took us into The Twilight Zone L Ron Hubbard brought us to The Crossroads a place where thought provoking twists and turns are delivered with plenty of wit and wisdom Farmer Eben Smith is fed up with big government telling him how to run his life and his business They pay him to bury his crops while folks starve in the streets and he s not going to take it anymore He s declaring his independence loading up his fruits and vegetables and heading for the city to wheel and deal But before he can trade in his turnips Eben ll have to deal with something bigger a break in the space time continuum He s at The Crossroads where reality is turned upside down and inside out And before it s over he ll turn his turnips into liquor and the liquor into guns and gold as he plunges into strange new worlds finding ways to wreak havoc in all of them The Crossroads first appeared in the February 1941 issue of Unknown Fantasy Fiction By then Hubbard s stature as a writer was well established As author and critic Robert Silverberg puts it he had become a master of the art of narrative Hubbard s editors urged him to apply his gift for succinct characterization original plot deft pacing and imaginative action to a genre that was new and essentially foreign to him science fiction and fantasy The rest is history Also includes the fantasy adventures Borrowed Glory the haunting story of two immortals who

wager on two mortals given a single day of love a wager that leads to heartbreak and tragedy and The Devil s Rescue based on the legend of The Flying Dutchman in which the sole survivor of a disaster at sea is rescued by the devil himself and finds that fate rests on a roll of the dice Amusing a nostalgic delight Publishers Weekly An International Book Awards Finalists
