Interviews with Tom Smith and Maria Copa Isabel Truesdell Kelly, 1991 *Interviews with Tom Smith and Maria Copa* Isabel Truesdell Kelly, Tom Smith, Maria Copa, 1996 Indians, Missionaries, and Merchants Kent G. Lightfoot, 2006-11-20 Lightfoot examines the interactions between Native American communities in California the earliest colonial settlements those of Russian pioneers Franciscan missionaries He compares the history of the different ventures their legacies that still help define the political status of native people **Golden Gate National Recreation Area, Fire Management Plan**, 2005 The Archaeology of Manila Galleons in the American Continent Scott S. Williams, Roberto Junco, 2021-07-26 This is the first book devoted to the topic of Manila galleon shipwrecks in North America previous research on Manila galleons either has focused on the economics of the Manila galleon trade or has been limited to reports of the galleon wreck sites in the western Pacific salvaged for their cargoes All three North American shipwrecks are protected under the historic preservation laws of the United States or Mexico and each shipwreck site has been investigated by professional archaeologists seeking to answer research questions posed in peer reviewed research designs The majority of Manila galleon wrecks are found in the western Pacific and were salvaged by treasure hunters rather than recovered by archaeologists The three North American shipwrecks represent the most protected Manila galleon archaeological sites so their potential for future archaeological research is higher than for many of the extant shipwrecks of the western Pacific **The Archaeology of Capitalism in Colonial Contexts** Sarah K. Croucher, Lindsay Weiss, 2011-08-10 The Archaeology of Capitalism in Colonial Contexts Postcolonial Historical Archaeologies explores the complex interplay of colonial and capital formations throughout the modern world The authors present a critical approach to this topic trying to shift discourses in the theoretical framework of historical archaeology of capitalism and colonialism through the use of postcolonial theory This work does not suggest a new theoretical framework as such but rather suggests the importance of revising key theoretical terms employed within historical archaeology arguing for new engagements with postcolonial theory of relevance to all historical archaeologists as the field de centers from its traditional locations Examining case studies from North America South America the Caribbean Africa Australia the Middle East and Europe the chapters offer an unusually broad ranging geography of historical archaeology with each focused on the interplay between the particularisms of colonial structures and the development of capitalism and wider theoretical discussions Every author also draws attention to the ramifications of their case studies in the contemporary world With its cohesive theoretical framework this volume is a key resource for those interested in decolonizing historical archaeology in theory and praxis and for those interested in the development of modern global dynamics Their Own Frontier Shirley A. Leckie, Nancy J. Parezo, 2008-07-01 Biographers describe the struggles and contributions of female scholars researching Indians of the American West in the early 1900s *California Indians and Their Environment* Kent Lightfoot, Otis Parrish, 2009-04-24 Capturing the vitality of California s unique indigenous cultures

Tending the Wild M. Kat Anderson, 2005-06-14 A complex look at California Native ecological practices as a model for environmental sustainability and conservation John Muir was an early proponent of a view we still hold today that much of California was pristine untouched wilderness before the arrival of Europeans But as this groundbreaking book demonstrates what Muir was really seeing when he admired the grand vistas of Yosemite and the gold and purple flowers carpeting the Central Valley were the fertile gardens of the Sierra Miwok and Valley Yokuts Indians modified and made productive by centuries of harvesting tilling sowing pruning and burning Marvelously detailed and beautifully written *Tending the Wild* is an unparalleled examination of Native American knowledge and uses of California s natural resources that reshapes our understanding of native cultures and shows how we might begin to use their knowledge in our own conservation efforts M Kat Anderson presents a wealth of information on native land management practices gleaned in part from interviews and correspondence with Native Americans who recall what their grandparents told them about how and when areas were burned which plants were eaten and which were used for basketry and how plants were tended The complex picture that emerges from this and other historical source material dispels the hunter gatherer stereotype long perpetuated in anthropological and historical literature We come to see California s indigenous people as active agents of environmental change and stewardship *Tending the Wild* persuasively argues that this traditional ecological knowledge is essential if we are to successfully meet the challenge of living sustainably

named Sekiak in the hills near Olompali in Marin County California Charlotte wishes to learn about Coast Miwok life before their society was disrupted and then destroyed by Catholic priests Spanish soldiers settlers and other foreigners over less than 100 years Once Sekiak decides to work with Charlotte she administers a potion that renders her visitor invisible to all but Sekiak and one or two others That potion also allows Charlotte to comprehend Miwok speech and she embarks on ethnographic fieldwork listening and observing in the nearby settlements with Sekiak as her primary teacher of local customs and history As the two women move back and forth through time Charlotte fills dozens of notebooks with data about Coast Miwok life that she intends to draw upon to tell the story of what happened to the people of Coyote s Land But as Margery Wolf s novel ethnography unfolds an ominous air settles over the research enterprise comparable to the ominous air of death and devastation that demolish a once thriving society This experimental ethnography joins fiction to historical and cultural data helping us to feel and see what happened as the Coast Miwok world turned upside down and then was altered beyond recognition
