Theories on Law and Ageing Israel Doron, 2008-09-25 This book is about trying to answer questions These questions were well introduced by Prof Margaret Hall in the opening of her chapter in this book The fundamental idea of law and aging as a discrete category of legal principle and theory is controversial how and why are older adults or seniors or elders the very terminology is controversial and fraught with difficulties a discrete and distinct group for whom special legal thought and treatment is justified For some a category of law and aging is inherently paternalistic suggesting that older persons are like children especially in need of the protection of the law In this sense the argument continues the category itself internalizes ageist presumptions about older adults and is therefore inherently flawed and even harmful If certain older adults are because of physical or mental infirmities genuinely in need of an enhanced level of legal protection this entitlement should be conceptualized in terms of their disability older adults are not a distinct group but an arbitrarily delineated demographic category which contains within it any number of groups that are legitimately distinct for the purposes of legal theory the disabled women persons of colour Aboriginal persons rich and poor etc Indeed the artificial category of older adults may be seen as obfuscating submerging these more meaningful distinctions

Frierson, Susan Hatters

Friedman,2022-03-17 This book comprehensively educates psychiatrists about malpractice and other liability It is written to also specifically assist psychiatrists who are sued or are involved in other complaints The first two sections discuss malpractice law and the litigation process the litigation section mainly addresses some of the more emotionally charged issues including do s and don ts how an attorney will be looking at the case the defendant doctor s testifying at deposition and trial and the stress of being sued The subsequent three sections address specific topics that give rise to liability with each section taking a different perspective such as risks in particular clinical by practice site and special issues including practice in special situations such as the current pandemic The final section discusses other forms of liability such as complaints to medical boards or professional association ethics committees An exceptional work Malpractice and Liability in Psychiatry functions as both a go to handbook and all encompassing read on the aforementioned topics **The Contested Place of Religion in Family Law** Robin Fretwell Wilson,2018-05-31 Examines clashes over religious liberty spanning the life cycle of families from birth to death **Homeward Bound** Amy Zietlow,Naomi Cahn,2017-03-08 Homeward Bound shows that as family structure becomes more complex so too does elder care and existing institutions and legal approaches are not prepared to handle those complexities As 79 million American Baby Boomers approach old age their diverse family structures mean the burden of care will fall on a different cast of family members than in the past Our current approaches are based on an outdated caregiving model that presumes life long connection between the parents and offspring with the existence of high internal norm cohesion among family members providing a valuable safety net for caregiving Single parent and remarried parent led families are far more complicated fragile and point to the need for increased formal support from the religious medical legal and public policy communities We base our analysis on in depth qualitative interviews with surviving grown children and stepchildren whose mother father stepparent or ex stepparent died Their stories illustrate the profound ways that the caregiving mourning and inheritance process has changed in ways not adequately reflected in formal legal medical and religious tools The solutions center on awareness and preparation providing more support for individual planning for incapacity and death and even more importantly creating legal political and social planning for the graying of America at a time of increasingly complex familial ties *American Book Publishing Record* ,2003
