

eRA Commons Registration - Business Process Guide

eRA Commons is the online grants management system used by applicants, grantees/recipients, and Federal staff at grantor agencies to access and share administrative information relating to grants. Department of Commerce (DOC) applicants are required to register in eRA Commons to submit grant applications. The organization must be registered by someone with signature authority to legally bind the organization in grants administration matters; this individual is referred to as a Signing Official (SO). Only authorized organization officials are qualified to be an SO for their organization.

Registration is a one-time process, during which the SO will have the option to create an Account Administrator (AA) account. Once registered, these two authorized individuals can create new user accounts for personnel within their organization, including additional SO accounts.

Registration Requirements

All applicants must be registered with SAM.gov and have an active Unique Entity Identifier (UEI) to complete the registration process. However, the initial Commons registration request described in this information sheet can proceed absent the inclusion of a valid UEI (see ["Step 2: Verify Information"](#) below for more information).

Applicants should also register with Grants.gov. While registration with Grants.gov is not required to complete the Commons registration process, applicants must submit their grant application through the Grants.gov portal, which does require a Grants.gov registration.

Additional registrations may be required depending on the Notice of Funding Opportunity (NOFO) requirements.

How to Register

An organization's SO can register their organization by clicking the Commons homepage

<https://commons.era.nih.gov/commons/ol/RegisterOrganization/> link

Registration Process

There are five steps to submit a registration request. A red asterisk is listed next to required fields in the registration form: <https://commons.era.nih.gov/commons/ol/register/ol/register.htm>

Step 1: Specify Purpose

DOC grant applicants should choose the "Non-FBI Grants/Contracts" option before clicking the "Next" button in the lower right of the registration webpage.

Figure 2 Register Institution from Step 1: Registration Purpose

Step 2: Verify Identification

The second step to register an organization requires you enter the organization's Unique Entity Identifier (UEI) and verifying that the organization is registered in SAM.gov. If the UEI is verified, a success message will display on the screen. If the UEI cannot be verified, a warning message will display with possible reasons, including that SAM.gov has not processed the registration, it has expired, or the UEI was entered incorrectly. A verified UEI is required by both eRA Commons and Grants.gov to apply for a grant, and the UEI must remain active when the grant is awarded. However, you can continue to register the organization absent a SAM.gov verified UEI by entering a (3)-digit alphanumeric number, pressing the "Verify" button, and then pressing the "Next" button in the lower right of the webpage.
