Milton's Angels Joad Raymond, 2010-02-25 Milton's Paradise Lost the most eloquent most intellectually daring most learned and most sublime poem in the English language is a poem about angels It is told by and of angels it relies upon their conflicts communications and miscommunications They are the creatures of Milton's narrative through which he sets the Fall of humankind against a cosmic background Milton's angels are real beings and the stories he tells about them rely on his understanding of what they were and how they acted While he was unique in the sublimity of his imaginative rendering of angels he was not alone in writing about them Several early modern English poets wrote epics that explore the actions of and grounds of knowledge about angels Angels were intimately linked to theories of representation and theology could be a creative force Natural philosophers and theologians too found it interesting or necessary to explore angel doctrine Angels did not disappear in Reformation theology though centuries of Catholic traditions were stripped away Protestants used them in

inventive ways adapting tradition to new doctrines and to shifting perceptions of the world Angels continued to inhabit all kinds of writing and shape the experience and understanding of the world Milton's Angels The Early Modern Imagination explores the fate of angels in Reformation Britain and shows how and why Paradise Lost is a poem about angels that is both shockingly literal and sublimely imaginative

The Revelation of Jesus Christ by John, Expounded ... Francis John Bodfield Hooper, 1861 Better Venture Erika Brodnock, Johannes Lenhard, 2020-11-11 Better Venture is a first of its kind guide to diversity and inclusion in startups and venture capital who funds who gets funded and how the industry can change The industry's lack of diversity and inclusion not only compromises moral standing it means overlooking profitable businesses and talented founders That costs hundreds of millions of dollars a year and neglects ideas that could serve the needs of many more people In this collection of interviews stories and research we use the momentum that has been building in recent years to expand the conversation about DEI venture capital and the startup ecosystem and to inspire more concrete action Highlights 43 in depth conversations with leading investors entrepreneurs and researchers making it one of the most comprehensive and diverse sets of perspectives on the startup ecosystem ever assembled in one place An economic history of venture capital through a diversity lens On the ground stories from founders and VCs that explore ways to create a more diverse inclusive equitable and profitable venture

ecosystem No blog post can give the deep understanding and vision needed to address the complexity of the topic That s why we came together to write this book and are bringing in so many voices to clarify the picture of what is and what could be Over the course of two years of research and discussion with almost 100 experts we set out to answer four questions Why has the industry been so slow to change We map the economic origins and history of venture capital to understand how the economics of VC has contributed to the glacial pace of diversifying the industry What barriers are founders and investors facing now We draw on contributions from investors operators founders and journalists to help catalog the barriers for founders seeking funding and for investors seeking entry and influence in the industry Can diversity really lead to higher returns We bring in new research and data to help us understand how betting on underrepresented founders and investors is really the better venture Why does diversifying the industry matter and to whom How is it linked to financial performance and better decision making How will it improve innovation across industries What can be done for positive change We discuss cost effective and evidence based interventions tools and solutions that can help to make the VC and startup worlds more diverse and inclusive and result in higher returns We hope this book and the conversations it contains help fulfill the vision of a more diverse inclusive and profitable ecosystem It s time venture got better
