The Betty and Barney Hill UFO Experience (60th Anniversary Edition) Stanton T. Friedman, Kathleen Marden, 2021-04-01 The famous 1961 Betty and Barney Hill abduction by non humans is taken apart meticulously re-examined by Betty's niece Kathleen Marden and nuclear physicist Stanton T Friedman and reinforced by the pressure of facts Linda Moulton Howe Emmy award winning TV producer reporter and editor Earthfiles.com Today 60 years after the UFO abduction of Betty and Barney Hill more and more people are convinced that UFOs are real and their existence is being covered up by the government If you have doubts or questions about the Hill case or alien experiences in general Captured will give you the answers you're searching for The 1961 abduction of the Hills stirred worldwide interest and enthralled the public and media for decades The case is mentioned in almost all UFO abduction books It also became a target for debunkers who still attack it today But the complete story of what really happened that day its effect on the participants and the findings of investigators has never been told until now In Captured you'll get an insider's look at the alien abduction previously unpublished information about the lives of the Hills before and after Barney's death in 1969 their status as celebrities Betty's experiences as a UFO investigator and other activities before her death in 2004 Kathleen Marden Betty Hill's niece shares details from her discussions with Betty and from the evidence of the UFO abduction She also looks at the Hills riveting hypnosis sessions about their time onboard the spacecraft The results of a new chemical analysis of the dress Betty was abducted in is shared which found unusual and rare elements on it Newly discovered letters at the American Philosophical Society by debunker Philip Klass regarding an orchestrated plot to paint Betty as delusional reveal what early detractors tried to do In addition coauthor physicist and ufologist Stanton T Friedman reviews and refutes the arguments of

those who have attacked the Hill case including the star map Betty Hill saw inside the craft and later recreated

Captured! Stanton T Friedman M Sc, 2009-01-26 The 1961 UFO abduction of Betty and Barney Hill stirred worldwide interest because of the book *The Interrupted Journey* the subsequent media coverage and a 1975 TV movie The case is mentioned in almost all UFO abduction books It also became a target for debunkers who still attack it today But the complete story of what really happened that **Captured! (Volume 2 of 2) (EasyRead Super Large 18pt Edition)** , *Captured! (Volume 2 of 2) (EasyRead Super Large 20pt Edition)* , **Set Your Phaser to Stun** Steve Pearse, 2011-08-22 Book Summary This book is a scientific investigation into the Extraterrestrial Hypothesis which demonstrates beyond a reasonable doubt that we are being visited by extraterrestrial Beings from another World This story involves two unrelated cases of abduction The first case is the well known Betty and Barney Hill case that was published in *The Interrupted Journey* in 1961 and *Captured* in 2007 The second case involves a married couple named Kay and Erik Wilson whose experiences were published in *The Alien Jigsaw* in 1993 and its accompanying *Researchers Supplement* in 1994 Information from both of these cases have been merged together to prove that the star map that Betty Hill drew was not only real but it was actually Earth based The Wilson case proved to be the key in unlocking the door Like Betty Hill once again a brave soul had the courage to ask the Beings where they come from and as a result of this unique one on one conversation between Erik Wilson and a Grey without realizing it he was given major clues to find their home world *Set Your Phaser To Stun* reveals that Bettys star map is real and the Extraterrestrial Hypothesis has been purposely skewed to deceive the public When Carl Sagan involved himself in this dispute many years ago he claimed Bettys star map only showed meaningless random dots which were not specific points of reference for any known stars This book proves that Sagan was wrong and was involved in what some people claim to be scientific misconduct relating to the UFO subject The stars that Betty Hill drew of the star map she was shown in 1961 are anything but random *Set Your Phaser To Stun* takes a fresh new look at the Betty and Barney Hill case and examines previous interpretations of the star map with particular emphasis on Marjorie Fishs Zeta Reticuli Interpretation This new research which began in the year 2000 uncovers the fact that some of our closest neighborhood stars are linked in a network of trade and exploration by a highly advanced extraterrestrial civilization that is less than 50 light years away from us The real shock is the location of Sol our sun and the role humans play in the aliens agenda For far too long the establishment has systematically denied the Extraterrestrial Hypothesis has any substance This opinionated stance has been based on the urgent need to control the dissemination of news that they feared would ultimately damage the fabric of our society should it be released An extreme political drama of the highest order has been blocking disclosure The Military Industrial Complex has been unwilling to relinquish control to civilian authorities and there is a grave fear that disclosure will have a severe negative impact on our Religious Institutions worldwide They fear allowing the public access to information which would severely challenge the traditional belief that humanity is unique and has a special relationship to God The official position on this

subject is based upon the idea that society is not prepared to handle the psychological impact of the knowledge that we are not alone in the universe They have even gone so far as resorting to scientific misconduct because they are deeply afraid of possible societal upheaval Fortunately in May of 2008 a remarkable turn of events occurred within the Catholic Church when astronomer Father Gabriel Funes wrote in the Vatican Newspaper that intelligent beings created by God could exist in outer space He moved further toward official legitimization of the acceptance of other life by calling the aliens our Brothers and Sisters This was the beginning of a slow and well planned acclimation process of one billion Catholics worldwide It has often been stated that we would have to rewrite history if contact with an alien civilization ever took place Set Your Phaser To Stun is the beginning of that process *Captured! endeavours that have little in common with academic science beyond the superficial trappings of jargon and subject matter. The most obvious difference between the two is that pseudoscience is presented as fact not fiction. Yet like SF and unlike real science, pseudoscience is driven by a desire to please an audience in this case people who want to believe. This has led to significant cross fertilization between the two disciplines. SF authors often draw on real pseudoscientific theories to add verisimilitude to their stories while on other occasions pseudoscience takes its cue from SF, the symbiotic relationship between ufology and Hollywood being a prime example of this. This engagingly written, well researched and richly illustrated text explores a wide range of intriguing similarities and differences between pseudoscience and the fictional science found in SF.
