Enlightened Racism Sut Jhally, 2019-03-04 The *Cosby* Show needs little introduction to most people familiar with American popular culture It is a show with immense and universal appeal Even so most debates about the significance of the program have failed to take into account one of the more important elements of its success its viewers Through a major study of the audiences of *The Cosby Show* the authors treat two issues of great social and political importance how television America's most widespread cultural form influences the way we think and how our society in the post Civil Rights era thinks about race our most widespread cultural problem This book offers a radical challenge to the conventional wisdom concerning racial stereotyping in the United States and demonstrates how apparently progressive programs like *The Cosby Show* despite good intentions actually help to construct enlightened forms of racism The authors argue that in the post Civil Rights era a new structure of racial beliefs based on subtle contradictions between attitudes toward race and class has brought in its wake this new form of racial thought that seems on the surface to exhibit a new tolerance However professors Jhally and Lewis find that because Americans cannot think clearly about class they cannot after all think clearly about race This groundbreaking book is rooted in an empirical analysis of the reactions to *The Cosby Show* of a range of ordinary Americans both black and white Professors Jhally and Lewis discussed with the different audiences their attitudes toward the program and more generally their understanding and perceptions of issues of race and social class *Enlightened Racism* is a major intervention into the public debate about race and perceptions of race a debate in

the 1990s at the heart of American political and public life This book is indispensable to understanding that debate Black and Mainstream Press' Framing of Racial Profiling Mia Moody-Ramirez, Mia Nodeen Moody, 2008 Racial profiling has been a controversial topic in civil rights dialogue for centuries beginning with the Negro Free Registry in the slave era emerging again with the 1980s War on Drugs and climaxing with the 2000 War on Terror This study offers an in depth overview of the evolution of racial profiling in the United States throughout these diverse periods It specifically offers an in depth examination of how mainstream and Black press newspapers framed the phenomena of racial profiling three years before and after the September 11 terrorist attacks It offers readers a peek at the various types of frames ethnic groups and sources that journalists chose in their quest to cover the issue Moreover it defines compares and contrasts the differences in Black and Mainstream media's coverage of the issue and the unique purpose that each media form serves Finally this work provides a brilliant example of a frame analysis carried to its full extent Nation of Cowards David H. Ikard, Martell Lee Teasley, 2012-09-04 An argument for intense and organized activism from the African American community to generate discussion on race in the United States In a speech from which Nation of Cowards derives its title Attorney General Eric Holder argued forcefully that Americans today need to talk more not less about racism This appeal for candid talk about race exposes the paradox of Barack Obama's historic rise to the US presidency and the ever increasing social and economic instability of African American communities David H Ikard and Martell Lee Teasley maintain that such a conversation can take place only with passionate and organized pressure from Black Americans and that neither Obama nor any political figure is likely to be in the forefront of addressing issues of racial inequality and injustice The authors caution Blacks not to slip into an accommodating and self defeating post racial political posture settling for the symbolic capital of a Black president instead of demanding structural change They urge the Black community to challenge the social terms on which it copes with oppression including acts of self imposed victimization A clarion call to our nation's conscience Free from overly academic jargon but full of powerful wordplay and brilliant juxtapositions this book is a fascinating tour de force from start to finish Those seeking a clear and concise explanation of the state of African America and the ongoing need for a black agenda during and even after the administration of the first African American president need look no further Reiland Rabaka author of The Hip Hop Movement and Du Bois A Critical Introduction Nation of Cowards offers an analysis of the Obama administration is as thorough as it is compact Here are the hard questions that must be asked of the first black presidency and an insightful draft of how history may regard it Ikard and Teasley are well ahead of that curve Jelani Cobb author of The Substance of Hope Barack Obama the Paradox of Progress **Media Messages** Linda Holtzman, Leon Sharpe, 2014-03-15 The new edition of this widely acclaimed book reveals how the popular media contributes to widespread myths and misunderstanding about cultural diversity Along with updated media examples expanded theories and analysis this edition explores even more deeply the coverage of race in two chapters discusses more broadly how men and boys are depicted in
