An Imaginary England Roger Ebbatson,2017-07-05 In his highly theorised and original book Roger Ebbatson traces the emergence of conceptions of England and Englishness from 1840 to 1920 His study concentrates on poetry and fiction by authors such as Alfred Lord Tennyson Richard Jefferies Thomas Hardy Q Rupert Brooke and D H Lawrence reading them as a body of work through which a series of problematic English identities are imaginatively constructed Of particular concern is the way literary landscapes serve as signs not only of identity but also of difference Ebbatson demonstrates how a sense of cultural rootedness is contested during the period by the experiences of those on the societal margins whether sexual national social or racial resulting in a feeling of homelessness even in the most self consciously English texts In the face of gradual imperial and industrial decline Ebbatson argues foreign and colonial cultures played a crucial role in transforming Englishness from a stable body of values and experiences into a much more ambiguous concept in continuous conflict with factors on the geographical or psychological periphery

Conversational Narrative Neal R. Norrick, 2000-09-15 This book investigates the forms and functions of storytelling in everyday conversation. It develops a rhetoric of everyday storytelling through an integrated approach to both the internal structure and the contextual integration of narrative passages. It aims at a more complete picture of oral narrative through analysis of a wider range of natural data including personal anecdotes told for humor, put-down stories told for self-aggrandizement, family stories retold to ratify membership and so on, as well as marginal stories and narrative-like passages to delineate the boundaries of conversational storytelling and to test the analytical techniques proposed. Using transcriptions of stories from everyday talk, Norrick explores disfluencies, formulaicity, and repetition as teller strategies and listener cues alongside global phenomena such as retelling and narrative macrostructures. He also extends his analysis to narrative jokes from conversation and to narrative passages in drama, namely Shakespeare's *Romeo and Juliet* and Beckett's *Endgame*. *The Sound of Exclusion* Christopher Chávez, 2021-12-21 In *The Sound of Exclusion*, Christopher Chávez critically examines National Public Radio's professional norms and practices that situate white listeners at the center while relegating Latinx listeners to the periphery. By interrogating industry practices, we might begin to reimagine NPR as a public good that serves the broad and diverse spectrum of the American public.
