Executive Guide Effectively Implementing The Government Performance And Results Act:

Executive Guide Michael Brostek, 1997-02 In recent years an understanding has emerged that the Federal government needs to be run in a more businesslike manner than in the past. The Federal government is accountable to the taxpayer and taxpayers are demanding as never before that the dollars they invest in their government be managed and spent responsibly. Federal agencies often fail to appropriately manage their finances, identify clearly what they intend to accomplish or get the job done effectively and with minimum of waste. Major statutes hold promise for creating a more accountable and effective Federal government. Executive Guide United States. General Accounting Office, 1996 Executive Guide U S Government Accountability Office (G, U. S. Government Accountability Office (, 2013-06 GAO published an executive guide on implementing the Government Performance and Results Act (GPRA). GAO noted that 1 GPRA forces federal agencies to focus on their missions and goals, how to achieve them and how to improve their structural organizations and business processes. 2 agencies must define their missions and desired outcomes, use strategic planning, involve stakeholders, assess their environments and align their activities, core processes and resources to support mission related outcomes. 3 agencies need to measure their performance to ensure that they are meeting their goals and making informed decisions. 4 performance measures need to be based on program related characteristics and performance data must be sufficiently complete, accurate and consistent. 5 agencies must use performance data to improve organizational processes, identify performance gaps and set improvement goals. and 6 GPRA success depends on strong leadership practices that devolve decisionmaking authority with accountability, create incentives, build expertise and integrate management reforms.
