Peace Operations Harvey Langholtz, Boris Kondoch, Alan Wells, 2004-11-01 International Peacekeeping is devoted to reporting upon and analyzing international peacekeeping with an emphasis upon legal and policy issues but is not limited to these issues. It is recognized that in today's world there is a wealth of information available from the internet and through other sources. It is therefore the goal of this Yearbook to make this information available in one publication which both organizes and records events over the course of a year through analytical articles, a chronicle, primary documents and a bibliography. Topics include inter alia peacekeeping, peace, war, conflict resolution, diplomacy, international law, international security, humanitarian relief, humanitarian law and terrorism. The Yearbook is of scholarly quality but is not narrowly theoretical. It provides the interested public, diplomats, civil servants, politicians, the military, academics, journalists, NGO employees and serious citizens with a document of record, comment and a starting point for further research on peacekeeping and related topics. This is achieved not only by the provision of basic documents on CD-ROM such as Security Council Resolutions and Reports of the UN Secretary General but also by expert commentaries on world events. Peacekeeping is treated in a pragmatic light, seen as a form of international military cooperation for the preservation or restoration of international peace and security. Attention is focused not only on UN peacekeeping operations but other missions as well. This Yearbook is the continuation of the journal *International Peacekeeping*. *Peace Operations and Human Rights* Ray Murphy, Katarina Mansson, 2013-09-13 The protection and promotion of human rights is an integral part of contemporary international peacekeeping operations. It is also a controversial aspect of peace operations at both an institutional and operational level. By bringing together a wide range of practitioners and academic scholars, this special issue addresses key contemporary legal, political and operational challenges to human rights protection. This book was previously published as a special issue of the leading journal *International Peacekeeping*. **The New World of UN Peace Operations** Thorsten Benner, Stephan Mergenthaler, Philipp Rotmann, 2011-06-09 Peace operations are the UN's flagship activity. Over the past decade UN blue helmets have been dispatched to ever more challenging environments from the Congo to Timor to perform an expanding set of tasks. From protecting civilians in the midst of violent conflict to rebuilding state institutions after war, a new range of tasks has transformed the business of the blue helmets into an inherently knowledge-based venture. But all too often the UN blue helmets, policemen and other civilian officials have been flying blind in their efforts to stabilize countries ravaged by war. The UN realized the need to put knowledge, guidance and doctrine and reflection on failures and successes at the center of the institution. Building on an innovative multi-disciplinary framework, this study provides a first comprehensive account of learning in peacekeeping. Covering the crucial past decade of expansion in peace operations, it zooms into a dozen cases of attempted learning across four crucial domains: police assistance, judicial reform, reintegration of former combatants and mission integration. Throughout the different cases, the study analyzes the role of key variables as enablers and stumbling blocks for learning: bureaucratic politics, the learning infrastructure, leadership as well as power and interests of member

states Building on five years of research and access to key documents and decision makers the book presents a vivid portrait of an international bureaucracy struggling to turn itself into a learning organization Aimed at policy makers diplomats and a wide academic audience including those working in international relations peace research political science public administration and organizational sociology the book is an indispensable resource for anyone interested in the evolution of modern peace operations

**Forging New Conventional Wisdom Beyond International Policing** Bryn Hughes, Charles T. Hunt, Jodie Curth-Bibb, 2013-01-08 Forging New Conventional Wisdom Beyond International Policing Learning from Complex Political Realities provides an innovative perspective in the field by conceptualizing international policing as part of a much broader system of peace and capacity development initiatives After establishing the global context and historical evolution of police in peace operations authors Bryn Hughes Charles T Hunt and Jodie Curth Bibb proceed to recast key ontological and epistemological aspects Examinations of the Rule of Law and Monitoring and Evaluation in peace and capacity building establish a solid foundation upon which the authors offer a convincing argument for a new post Weberian approach In Forging New Conventional Wisdom Beyond International Policing Learning from Complex Political Realities researchers practitioners and policy makers will find a critical addition to the current discourse on international policing

, European Union Peacebuilding and Policing Michael Merlingen, Rasa Ostrauskaite, 2006-09-27 This new volume draws on the work of Michel Foucault to make the case that the EU s self image as a model peacebuilder conceals another side of the European Security and Defence Policy ESDP It brings together and connects new research on European integration security policing and political sociology in an important and original way

**Security, Reconstruction, and Reconciliation** Muna Ndulo, 2007-01-24 This key text brings together a team of leading contributors to address the complex issues of security reconciliation and reconstruction in post conflict societies Security Reconstruction and Reconciliation is organized into four main sections the social political and economic dimensions of conflict the impact of conflict on women and children reconstruction and past human rights violations disarmament demobilization reintegration post war reconstruction and the building of a capable state and the role of the international community in the peace process The chapters offer a detailed and succinct exposition of the challenges facing post conflict societies by articulating the vision of a new society With a foreword by Francis Deng the UN Secretary General s Special Representative on Internally Displaced Persons the authors discuss the issues in the context of possible solutions and lessons learnt in the field This new book is a valuable resource for researchers policy makers and students in the fields of conflict resolution security studies law and development

*Changing the Guard* David H. Bayley, 2006 Publisher description **Peace Operations and Organized Crime** James Cockayne, Adam Lupel, 2011-05-10 Peace operations are increasingly on the front line in the international community s fight against organized crime this book explores how in some cases peace operations and organized crime are clear enemies while in others they may become tacit allies The threat posed by organized crime to international and human

security has become a matter of considerable strategic concern for national and international decision makers so it is somewhat surprising how little thought has been devoted to addressing the complex relationship between organized crime and peace operations This volume addresses this gap questioning the emerging orthodoxy that portrays organized crime as an external threat to the liberal peace championed by western and allied states and delivered through peace operations Based upon a series of case studies it concludes that organized crime is both a potential enemy and a potential ally of peace operations and it argues for the need to distinguish between strategies to contain organized crime and strategies to transform the political economies in which it flourishes The editors argue for the development of intelligent transnational and transitional law enforcement that can make the most of organized crime as a potential ally for transforming political economies while at the same time containing the threat it presents as an enemy to building effective and responsible states The book will be of great interest to students of peacebuilding peace and conflict studies organised crime Security Studies and IR in general

*Emerging Transnational (In)security Governance* Ersel Aydinli, 2010-02-25 Bringing together leading international scholars with practicing intelligence military and police officers this book provides different theoretical and empirical perspectives on international security cooperation

**Statebuilding, Security-Sector Reform and the Liberal Peace** Barry J. Ryan, 2011 This book explores how and why police reform became an international phenomenon in the era of statebuilding that followed the end of the Cold War Police reform has become an indispensable element in the spread of liberal democracy Policing is distinguished by its ability to combine reasonable and forcible methods to preserve and spread liberal values The book examines the reason police reform was introduced as a method of building consensus in Latin America and the Balkans and documents the development of its use in Africa the Middle East and the Caucasus region It illustrates how police p

*Creating Kosovo* Elton Skendaj, 2014-12-18 In shaping the institutions of a new country what interventions from international actors lead to success and failure Elton Skendaj's investigation into Kosovo based on national survey data interviews and focus groups conducted over ten months of fieldwork leads to some surprising answers Creating Kosovo highlights efforts to build the police force the central government courts and a customs service Skendaj finds that central administration and the courts which had been developed under local authority succumbed to cronyism and corruption challenging the premise that local ownership leads to more effective state bureaucracies The police force and customs service directly managed by international actors were held to a meritocratic standard fulfilling their missions and winning public respect On the other hand local participation and contestation supported democratic institutions When international actors supported the demobilization of popular movements they undermined the ability of the public to hold elected officials accountable

**Armed Forces in Law Enforcement Operations? - The German and European Perspective** Kim Eduard Lioe, 2010-11-25 At the center of this study lies the allocation of responsibilities and the division of labor between the armed forces and the mission of the police as well as other security forces in Europe The mission of these

forces defines the demarcation line between the spheres of internal and external security by assigning the former to the police and the latter to the armed forces The focal idea is the evaluation of the feasibility of a strict separation as maintained in Germany in a European context practical difficulties in its application and potential ways to overcome such difficulties This comprises in particular a comparison of the German Way with other European states and the corresponding methods chosen against the background of joint operations abroad Policing Post-Conflict Cities Alice Hills, 2013-07-04 How and why does order emerge after conflict What does it mean in the context of the twenty first century post colonial city From Kabul Kigali and Kinshasa to Baghdad and Basra people abandoned by the state make their own rules With security increasingly ghettoised survival becomes a matter of manipulation and hustling In this book Alice Hills discusses the interface between order and security While analysts and donors emphasise security Hills argues that order is much more meaningful for people's lives Focusing on the police as both providers of order and a measure of its success the book shows that order depends more on what has gone before than on reconstruction efforts and that tension is inevitable as donors attempt to reform brutal local policing Policing Post Conflict Cities provides a powerful critique of the failure of liberal orthodoxy to understand the meaning of order UN Peacebuilding: Light Footprint or Friendly Takeover? , 2012
