European Notebooks Francois Bondy,2018-02-06 A generation of outstanding European thinkers emerged out of the rubble of World War II It was a group unparalleled in their probing of an age that had produced totalitarianism as a political norm and the Holocaust as its supreme nightmarish achievement Figures ranging from George Lichtheim Ignazio Silone Raymond Aron Andrei Amalrik among many others found a home in Encounter None stood taller or saw further than Fran ois Bondy of Zurich In a moving tribute to his friend Melvin J Lasky long time editor of Encounter writes Bondy was a breathtaking spectacle I had known him to read and walk to think and talk all at once and still make mental notes for his next article Early or late seated or standing awake or asleep his incomparable spiritedness would always be darting from point to point paying attention and idly wandering at once Taken all in all he still continues to represent for me perhaps a Henry Jamesian New Man Bondy s essays themselves represent a broad sweep of major figures and events in the second half of the twentieth century His spatial outreach went from Budapest to Tokyo and Paris His political essays extended from George Kennan to Benito Mussolini And his prime m tier the cultural figures of Europe covered Sartre Kafka Heidegger and Milosz The analysis was uniformly fair minded but unstinting in its insights Taken together the variegated themes he raised in his work as a Zurich journalist a Paris editor and a European homme de letres sketch guidelines for an entrancing portrait of the intellectual as cosmopolitan

European Notebooks contains most of the articles that Bondy 1915 2003 wrote for Encounter under the stewardship of Stephen Spender Irving Kristol and then for the thirty years that Melvin Lasky served as editor Bondy was that rare unattached intellectual free of every totalitarian temptation and as Lasky notes unfailing in his devotion to the liberties and civilities of a humane social order

European Notebooks offers a window into a civilization that came to maturity during the period in which these essays were written

Hope Simon Wortham,2019-11-14 A colourful map of the current conflict between pessimism and optimism in Western politics and theory Hope attempts to reveal both the deep history and contemporary necessity of political hopefulness Starting in the 17th century with Spinoza Wortham tells the story of the various fallacies and insights of pessimism and optimism through the 18th century with the help of Kant and Voltaire through to the famously nihilistic writings of Nietzsche and the 20th century works of thinkers such as Benjamin Arendt Kristeva and Fanon to name but a few He explores the contemporary significance of ideas such as affirmation sovereignty violence therapy existentialism and of course the oft maligned notion of hopefulness to create a politics of optimism which avoids the pitfalls of uncritical acceptance of the status quo or the newest political idea Short chapters written in an engaging narrative manner enable the reader to follow the story of political optimism over the last 4 centuries inspiring a new way of thinking about the transformative uses of hopefulness

The Postcolonial Arabic Novel Muhsin

Al-Musawi,2003-04-09 This is the first study of its kind to tackle the postcolonial in Arabic fiction In ten chapters a lengthy preface and an extensive bibliography the author discusses and questions a large number of novels that demonstrate cultural diversity and richness in the Arab World Using current methodologies and discourse analysis the author highlights engagements with postcolonial issues that relate to identity formation the modern nation state individualism nationalism gender and class demarcations and micro politics With this intention the book locates Arabic narrative in the mainstream of world literature and establishes the modern Arabic novel in the contemporary literary critical world of postcolonial studies The author s lucid style and thorough knowledge of the field should recommend the book to students and scholars alike as it comes in time to meet the needs of the academy for solid writing on Islam and the Arabs **Pax Gandhiana** Anthony J Parel,2018-01-02 Notwithstanding his contributions to religion nonviolence civil rights and civil disobedience among other areas Gandhi s most significant contribution is that as a political philosopher While he is not often treated as such Gandhi was as Anthony J Parel argues a political philosopher sui generis both in his philosophical method of constant self criticism and his framework of philosophical analysis Gandhi wrote daily on politics but he did so as an activist political philosophy was to him not just a way of understanding truths of political phenomena but was directly related to understanding those truths in action If realized in action these truths would give rise to new political institutions which in turn would create a corresponding peaceful political and social order Parel dubs this order Pax Gandhiana The main contention of Pax Gandhiana is that peace cannot be achieved by politics alone Peace requires the confluence of the canonical ends of life politics and economics artha ethics dharma forms of pleasure kama and the pursuit of spiritual transcendence moksha Modern political philosophy isolates politics from the other three ends but Gandhi s originality according to Parel lies in the way that he brings all four together In fact Gandhi s political philosophy is relevant not only to India but also to the rest of the world it is a new type of sovereignty that harmonizes the interest of individual states with the community of states Arguing against scholars who dispute a theoretical unity in Gandhi s writings Parel suggests that Gandhi is the preeminent non western political philosopher and in this book he seeks to identify the conceptual framework of Gandhi s political philosophy the Pax Gandhiana Socialist India ,1973 *Left Universalism, Africentric Essays* Ato Sekyi-Otu,2018-08-06 *Left Universalism Africentric Essays* presents a defense of universalism as the foundation of moral and political arguments and commitments Consisting of five intertwined essays the book claims that centering such arguments and commitments on a particular place in this instance the African world is entirely compatible with that foundational universalism Ato Sekyi Otu thus proposes a less conventional mode of Africentrism one that rejects the usual hostility to universalism as an imperialist Eurocentric hoax Sekyi Otu argues that universalism is an inescapable presupposition of ethical judgment in general and critique in particular and that it is especially indispensable for radical criticism of conditions of existence in postcolonial society and for vindicating visions of social regeneration The constituent chapters of the book are exhibits of that argument and question

some fashionable conceptual oppositions and value apartheid. This book will be of great interest to students and scholars in the fields of social and political philosophy, contemporary political theory, postcolonial studies, African philosophy, and social thought.
