Keener, 2011-11-01 Christianity Today 2013 Book Award Winner Winner of The Foundation for Pentecostal Scholarship s 2012 Award of Excellence 2011 Book of the Year Christianbook com s Academic Blog Most modern prejudice against biblical miracle reports depends on David Hume s argument that uniform human experience precluded miracles Yet current research shows that human experience is far from uniform In fact hundreds of millions of people today claim to have experienced miracles New Testament scholar Craig Keener argues that it is time to rethink Hume s argument in light of the contemporary evidence available to us This wide ranging and meticulously researched two volume study presents the most thorough current defense of the credibility of the miracle reports in the Gospels and Acts Drawing on claims from a range of global cultures and taking a multidisciplinary approach to the topic Keener suggests that many miracle accounts throughout history and from contemporary times are best explained as genuine divine acts lending credence to the biblical miracle reports **Spirited Things** Paul Christopher Johnson, 2014-05-07 The word possession is anything but transparent especially as it developed in the context of the African

Americas There it referred variously to spirits material goods and people It served as a watershed term marking both transactions in which people were made into things via slavery and ritual events by which the thingification of people was revised In *Spirited Things* Paul Christopher Johnson gathers together essays by leading anthropologists in the Americas that reopen the concept of possession on these two fronts in order to examine the relationship between African religions in the Atlantic and the economies that have historically shaped and continue to shape the cultures that practice them Exploring the way spirit possessions were framed both by material things including plantations the Catholic church the sea and the phonograph as well as by the legacy of slavery they offer a powerful new way of understanding the Atlantic world
