STRUCTURE & FUNCTION

HISTOLOGY LABORATORY MANUAL

2024 – 2025 ACADEMIC YEAR

This laboratory manual was designed to aid and guide you in the microscopic study of the body. It is not intended to substitute for a textbook nor for an atlas of histology. Both the laboratory manual and an atlas should be available when you are examining slides with the virtual microscope.

In the laboratory sessions, you will be responsible for the identification of cells, tissues, and organs; as well as their functions. It is in your best interest to correlate the laboratory and lecture portions of the course, thus tying together structure and function. You will find that the material will be easier to learn and also you will be more likely to retain the information for your board exams and for your clinical years.

The slides to be utilized for the identification of structures are indicated in ***highlight, bold, and italic type***, and the structures you are responsible for identifying are indicated in ***bold, italic, and underline type***.
