Improving Study And Homework Behaviors:

Improving Study and Homework Behaviors Steven Michael Zifferblatt,1970 **Improving study and homework behaviors** Steven Zifferblatt,1970 **Improving On-Task Behaviors in the Classrooms** Dr. George N. Ohakamnu,2015-05-30 The present day students regular and special education have some difficulties remaining on task in the classroom especially the students classified as the at risk learning disabled behavioral disordered etc Therefore it becomes imperative to design a proactive methodology or strategy that may create on task behavior while teaching and learning are taking place in the classroom Note that no one strategy is enough to contain behavior problem students hence the partner check self recording strategy was designed to induce on task behavior for a considerable amount of time among elementary school children *You Can Help Your Child Improving Study and Homework Behaviors* Steven M. Zifferblatt,1970 **DHEW Publication** ,1971 *Behavior Modification in Child and School Mental Health* Daniel G. Fifteen Positive Behavior Strategies to Increase Academic Success Beverley Holden Johns,2014-10-28 Powerful behavioral interventions to help your students succeed Behavioral problems can disrupt learning for the whole classroom if not managed properly which is often a matter of frustrating trial and error This must have guide delivers a set of fifteen practical intervention techniques that can be applied to virtually any situation in both pull out and inclusive classrooms Backed by research and case studies each chapter is brief and to the point with a focus on one behavioral intervention technique Insights include Incorporating student interests in classroom activities Understanding the reason the student is misbehaving to plan an appropriate intervention Understanding how stimulation impacts performance **How to Help Children with Common Problems** Charles Schaefer,Howard L. Millman,1994-07-01 In this immensely practical manual two leading child psychologists provide specific down to earth advice for effectively handling the everyday problems of children from early childhood through adolescence *Behavioral Methods in Social Welfare* Steven Paul Schinke,James. K Whittaker,Scott Briar,2017-09-08 Behavioral Methods in Social Welfare offers positive proof that behaviorism has come of age in social work Steven Paul Schinke and the contributors to this volume are social work practitioners who document their attempts to extend the basic tenets of behavioral psychology from the laboratory clinic and classroom to the full range of client groups and social problems that make up the practice of social work In social work education traditionally to the extent it appeared in the curriculum at all behavioral content appeared in electives or in courses not focused on practice It is a true measure of progress that behavioral methods are now visible integral component of social work education and practice The authors of each piece in this collection indicate progress in developing an empirically based approach to social work practice

Despite the impressive documentation contained in the present volume no conclusive evidence as to the effectiveness of behavioral methods exists What behavioral methods do offer however is a systematic format for both problem intervention and evaluation that over time should produce a more empirically based practice A promising sign well documented in the present effort is the facility with which this book has subjected practice procedures to the rigor of research and evaluation This blending of clinical practice and research develops the sense of competence that student practitioners acquire in understanding and controlling both the art and science of their clinical practice Steven Schinke and his colleagues offer a series of snapshots of important work in process Their collective portrait provides a fresh perspective and new stimulus for all social work practice as well as an affirmation that disciplined responsive and sensitive social work intervention can make a difference in the lives of people

Classroom Management Through Behavioral Interventions That Work : Tier Two

Strategies Laura A. Riffel, Ph.D., Jessica R. Eggleston, Doctoral Candidate, 2016-08-29 This book focuses on tier two strategies for classroom management When teachers feel empowered with information classroom management is easier This book is filled with specific strategies based on Dr Riffel s Triple T Triple R chart The three T s are 1 Trigger what sets the behavior in motion 2 Target what behavior do you want to target for change and 3 impacT what is the student gaining or escaping by engaging in this behavior The three R s to combat the three T s are 1 Revise the environment set the student up for success by changing the environment 2 Replace the behavior Teach the student what you want to see instead of telling them what not to do and 3 Reframe your response change how you react to the target behavior and feed the replacement behavior When these three formats are followed the behavior dissipates This book also includes specific strategies on many common classroom target behaviors This book coincides with Dr Riffel s Tier Two Training

Writing a Behavioral Intervention Plan Based on a Functional Behavior Assessment Two Day Seminar Laura A. Riffel, Ph.D., 2016-08-31 Dr Riffel developed a training for Functional Behavior Assessments and Behavioral Intervention Planning after working in a statewide program and assisting schools with Tier Three behavior She developed a system that is so easy to use a kindergarten teacher with 25 students could still collect the necessary data to make data based decisions for a student This book is set up to be a two day training where participants learn on day one the data that is being sought and how to analyze

it by hand On day two the participants learn how to enter this data into a free easy to use FBA Data Tool that graphs ABC data and makes data based decision making even easier

Homework, Learning and Academic Success: The Role of Family and Contextual Variables Antonio Valle, Susana Rodríguez, Pedro Rosário, Mar Lorenzo Moledo, 2020-02-24

The main purpose of this Research Topic is to analyze and identify the main family and contextual variables that are involved in the process of carrying out homework This will require studying the role played by teachers students and families in order to ensure that schoolwork is a useful learning tool Although the role of the student is obviously crucial in homework research has focused on the cumulative time spent by the student carrying out homework However the time spent on homework is not in itself evidence of the student s involvement nor is time spent indicative of quality time Indeed an excess of time can sometimes denote low competence in a field of knowledge while spending less time on homework could be indicative of high competence It is more likely that a high dedication of time spent on homework reflects high motivation or comprehension deficits rather than commitment to learning or academic motivation In tandem with the role of the student teachers as responsible for prescribing homework assignments for students also become central players in the process of completing homework assignments The decisions that teachers make about homework prescriptions and the amount and type of tasks they set will determine to a large extent the quality of the homework process including the student s motivation and the student s level of engagement with homework Furthermore the fact that homework is useful interesting and motivating for students will depend on how the teacher prescribes those tasks and the connection established with classroom learning Teacher feedback also acquires particular relevance for this point by helping the students to accurately estimate the quality of their progress and overcome the difficulties they may have encountered in carrying out their homework Lastly the effectiveness of teacher feedback depends on its contribution to the student s educational progress and how that student will perform in the future In addition to the student who performs the task and the teacher who prescribes and corrects it we must not lose sight of parents role Although there are discrepancies regarding the role that parents play in relation to homework it is evident that their implication has important consequences not only on the final result of those tasks but also on the very process of carrying them out Everything seems to indicate that the family environment and more specifically the support and feedback provided by parents is a factor that can determine the involvement of students in school duties In this way providing emotional support encouraging children to get involved can contribute positively to improving their motivation and interest in the performance of homework The objective of this Research Topic is to provide researchers and professionals in psychology and education settings with some of the most recent empirical evidence regarding the homework process its prescription and correction Overall we aim to cease making homework a source of conflict and controversy at the socio educational level in order to provide useful instruments for improving the quality of student learning This work was developed with the financing of the research projects EDU2013 44062 P MINECO EDU2017 82984 P MEIC
