Evaluation and Decision Making for Health Services Programs James E. Veney, Arnold D. Kaluzny, 1984 **Data-Guided Healthcare Decision Making** Ramalingam Shanmugam, 2023-06-22 This book effectively exposes and illustrates the ideas and tools for optimal healthcare decisions taken from evidence **Federal Evaluations** , Contains an inventory of evaluation reports produced by and for selected Federal agencies including GAO evaluation reports that relate to the programs of those agencies Federal Program Evaluations , 1983 Contains an inventory of evaluation reports produced by and for selected Federal agencies including GAO evaluation reports that relate to the programs of those agencies **The Practice of Health Program Evaluation** David Grembowski, 2015-09-16 Reflecting the latest developments in the field the Second Edition provides readers with effective methods for evaluating health programs policies and health care systems offering expert guidance for collaborating with stakeholders involved in the process Author David Grembowski explores evaluation as a three act play Act I shows evaluators how to work with decision makers and other groups to identify the questions they want answered Act II covers selecting appropriate evaluation designs and methods to answer the questions and reveal insights about the program s impacts cost effectiveness and implementation and Act III discusses making use of the findings Packed with relevant examples and detailed explanations the book offers a step by step approach that fully prepares readers to apply research methods in the practice of health program evaluation *Evidence-based Decisions and Economics* Ian Shemilt, Miranda Mugford, Luke Vale, Kevin Marsh, Cam Donaldson, 2011-09-22 The need for evidence based decisions that take account of both effectiveness and economics is greater now than ever Using case studies and illustrative examples throughout the authors describe how the activities and outputs of evidence synthesis systematic review economic analysis and decision making interact within and across different spheres of health and social policy and practice Expanding on the first edition the book now covers approaches to evidence synthesis that combine economics and systematic review methods in the applied fields of social welfare education and criminal justice as well as health care Written by economists and health services researchers closely involved in developing evidence based policy and practice it showcases current state of the art methodology and will be an invaluable read for all policy makers and practitioners using evidence to inform decisions analysts conducting research to support decisions and students discovering the need for evidence based decisions to incorporate economic perspectives and evidence **Research Awards Index** , 1989 Medical and Health Related Sciences Thesaurus National Institutes of Health (U.S.), 1985 Indexing terms used in CRISP Computer Retrieval of Information on Scientific Projects and in Research grants index Alphabetical arrangement Cross references under terms Subject Index of Current Research Grants and Contracts Administered by the National Heart, Lung and Blood Institute National Heart, Lung, and Blood Institute, 1977 *Compendium of HHS Evaluations and Relevant Other Studies* , 1988 **CRISP Thesaurus** , 1989 *Standards for the Socioeconomic Evaluation of Health Care Services* Bryan R. Luce, Anne

Elixhauser,2012-12-06 Over the past decades health care delivery once characterized by clearly defined relationships between medical professionals regulators and industr has become much more complex Traditional roles and relationships are changing and new decision makers are entering the scene They bring into the discussion the need for cost containment and the changing perceptions of the public with regard to the risks and benefits of health care outcomes As benefits of medical care are increasingly questioned and as scepticism and fear of advanced technologies are demonstrated by a growing body of people decision making must move beyond medical concerns to encompass economic political and sociological considerations This evolution has also affected the pharmaceutical industry Public perception of responsibility for product safety is no longer limited to regulators and physicians Manufacturers previously unencumbered by social policies governmental preoccupations or public expectations are now held accountable for product safety As a certain amount of risk acceptance is however a prerequisite for the further development of health care goods it has to be carefully balanced against society's demand for safety To weigh risks against benefits to define acceptable risk and to exclude what no longer falls within this category remain perpetual challenges Accordingly health care outcomes have to be assessed not only from a clinical point of view but also from an economic and societal perspective The assessment of drug risks and benefits has become an important political issue world wide
