## **Evaluating The Impact Of Training And Institutional Development Programs A Collaborative Approach:**

**Evaluating the Impact of Training and Institutional Development Programs** Suzanne Taschereau, 1998 This manual focuses on measuring the effects of training and institutional development programs on individuals the organizations or economic sectors in which they work and the welfare of the larger community It presents a conceptual framework as well as real life examples drawn from evaluations of the Economic Development Institute s learning and capacity building programs in the developing world It provides practical advice on developing evaluation plans designing questionnaires conducting interviews analyzing data reporting findings and making recommendations Emphasis is placed on the active participation of stakeholders throughout the process

**Evaluating the Impact of Development Projects on Poverty** Judy L. Baker, 2000 Despite the billions of dollars spent on development assistance each year there is still very little known about the actual impact of projects on the poor There is broad evidence on the benefits of economic growth investments in human capital and the provision of safety nets for the poor But for a specific program or project in a given country is the intervention producing the intended benefits and what was the overall impact on the population Could the program or project be better designed to achieve the intended outcomes Are resources being spent efficiently These are the types of questions that can only be answered through an impact evaluation an approach which measures the outcomes of a program intervention in isolation of other possible factors This handbook seeks to provide project managers and policy analysts with the tools needed for evaluating project impact It is aimed at readers with a general knowledge of statistics For some of the more in depth statistical methods discussed the reader is referred to the technical literature on the topic Chapter 1 presents an overview of concepts and methods Chapter 2 discusses key steps and related issues to consider in implementation Chapter 3 illustrates various analytical techniques through a case study Chapter 4 includes a discussion of lessons learned from a rich set of good practice evaluations of poverty projects which have been reviewed for this handbook

**International Assistance and State-University Relations** Jo Bastiaens, 2011-01-13 This book explores the goals efforts and outcomes of international assistance to higher education over the past three decades and investigates how these have impacted changing State university relations Focusing on the case study of Indonesia Bastiaens demonstrates how international aid facilitated and at times actively encouraged changing patterns of state university relations from state control towards greater institutional autonomy Through the use of various case studies from throughout the country and critical analysis of the relationships between international donors and domestic reformers Bastiaens shows how the educational system of Indonesia was able to diversify resources generate income and become increasingly autonomous from government

*The World Bank and Transferring Development* Adrian Robert Bazbauers, 2017-08-20 This book analyses the World Bank s provision of technical assistance from 1946 to the present day It argues that the relational dynamics between technical assistance provider and recipient affects the legitimacy of policy norms travelling from the international to the domestic Beginning from the

constructivist position that development is a social construct the author contends that successful policy movement via technical assistance depends on the recipient's perception of the validity of policy reforms with perception being influenced by the way those ideas and practices are presented packaged and transferred In advancing this argument Bazbauers analyses four pillars of World Bank technical assistance technical assistance components advisory services incorporated within lending operations stand alone technical assistance projects projects designed to solely deliver technical assistance survey missions activities involved in measuring the development status of developing countries and training institutes the courses of the Economic Development Institute and World Bank Institute

*Health Care Systems: Rethinking health care systems* Jonathan Watson, Pavel Ovseiko, 2005 This collection covers the organization financing and regulation of health care systems in four clear contexts reforming health care systems understanding health care politics financing and delivering health care rethinking health care systems

**The World Bank Research Program, 1998** World Bank Staff, 1998 The four basic objectives of the World Bank's research program are broadening understanding of development assisting in developing research capacity in member countries improving the Bank's capacity in advising members and supporting all aspects of its own operations The report is the annual compendium of current Bank research The abstracts in this volume report on research projects within FY98 describing questions addressed analytical methods used findings to date and policy implications In addition each abstract identifies the expected completion date and the research team as well as any report or publication produced The abstracts cover 193 research projects grouped under nine major headings as follows 1 poverty and social welfare 2 labor markets and education 3 environmentally sustainable development 4 infrastructure and urban development 5 macroeconomics 6 international economics 7 domestic finance and capital markets 8 transition economies and 9 private sector development and public sector management An appendix is included listing reports and publications produced by Bank research with corresponding availability sources Abstracts are indexed by the sponsoring unit

**Using Training to Build Capacity** World Bank, 2008-03-20 The World Bank finances about US 720 million in training every year through both its lending projects and its in house World Bank Institute WBI The evaluation found that while most of the training reviewed resulted in demonstrable participant learning this learning frequently did not lead to real change in participants workplace performance Poor training outcomes most often resulted from training content that wasn't relevant to the needs and goals of the target institutions or from the trainees lack of incentives or resources to apply learning in their workplaces These findings highlight how important

it is for training to be embedded in broader capacity building programs that identify and address organizational and institutional capacity constraints alongside human ones      **Journal of Educational Planning and Administration** ,2012
