Compendium of HHS

Evaluations and Relevant Other Studies ,1990 Clinical Nursing Skills and Techniques - E-Book Anne G. Perry,Patricia A. Potter,Wendy R. Ostendorf,2017-01-16 NEW Clinical Debriefs are case based review questions at the end of each chapter that focus on issues such as managing conflict care prioritization patient safety and decision making NEW Streamlined theory content in each chapter features a quick easy to read bullet format to help reduce repetition and emphasize the clinical focus of the book NEW Sample documentation for every skill often includes notes by exception in the SBAR format NEW SI units and using generic drug names are used throughout the text to ensure content is appropriate for Canadian nurses as well

Economic Evaluation in Clinical Trials Henry A. Glick,Jalpa A. Doshi,Seema S. Sonnad,Daniel Polsky,2014-10-02 It is becoming increasingly important to examine the relationship between the outcomes of a clinical trial and the costs of the medical therapy under study The results of such analysis can affect reimbursement decisions for new medical technologies drugs devices or diagnostics It can aid companies seeking to make claims about the cost effectiveness of their product as well as allowing early consideration of the economic value of therapies which may be important to improving initial adoption decisions It is also vital for addressing the requirements of regulatory bodies Economic Evaluation in Clinical Trials provides practical advice on how to conduct cost effectiveness analyses in controlled trials of medical therapies This new edition has been extensively rewritten and revised topics discussed range from design issues such as the types of services that should be measured and price weights to assessment of quality adjusted life years Illustrative materials case histories and worked examples are included to encourage the reader to apply the methods discussed These exercises are supported with datasets programmes and solutions made available online
