Spirituality and Global Ethics Mahmoud Masa'eli, Rico Sneller, 2017-05-11 This volume addresses three fundamental questions about the interplay between the ethics of globality and spirituality What are the practical implications of spirituality for the condition of life in a turbulent era of violent religious non religious extremism In what way can spirituality the view of love compassion tolerance and mutual recognition encounter mistrust enmity separateness and violence How and in what way can spirituality contribute to the newly emerging global ethics Religious scholars distinguish between the esoteric and exoteric sides of belief systems Esotericism centres on the inner awareness and conceals a certain spirituality that is only transmittable to those who could successfully pass through a process of initiatic preparation and transpersonal practices to understand the mystical dimensions of existence In contrast exotericism takes the outer dimension of every day consciousness into account and favours the possibility of the popular understanding of the essence of existence In this perspective truth could be grasped by the public without the need of any transpersonal initiative and transformation of consciousness Esotericism extends beyond religion and has become the spiritual philosophy of life without the need of being essentially religious It has become common notably in the West to identify oneself as spiritualist without having religious affiliations The condition of globality has provided an unprecedented opportunity for spiritual perspectives to grow Ideas perspectives beliefs and philosophies of life are growing outside local national containers to express themselves in different global settings while the forces of globalisation are influencing local identities and cultures While evolving global transformations strengthen people's capability to leave institutionally ordered belief systems it simultaneously enables them to rearrange themselves around alternative perspectives These fundamental transformations cultivate a fabulous landscape for the growth of spirituality **Routledge Revivals: Medieval Islamic Civilization (2006)** Josef Meri, 2018-01-12 Islamic
