Hipper Class Heavy Cruisers:

Heavy Cruisers of the Admiral Hipper Class Gerhard Koop, Klaus-Peter Schmolke, 2014-07-22 The warships of the World War II era German Navy are among the most popular subject in naval history with an almost uncountable number of books devoted to them However for a concise but authoritative summary of the design history and careers of the major surface ships it is difficult to beat a series of six volumes written by Gerhard Koop and illustrated by Klaus Peter Schmolke Each contains an account of the development of a particular class a detailed description of the ships with full technical details and an outline of their service heavily illustrated with plans battle maps and a substantial collection of photographs These have been out of print for ten years or more and are now much sought after by enthusiasts and collectors so this new modestly priced reprint of the series will be widely welcomed This volume covers the Admiral Hipper class among the largest heavy cruisers to serve in World War II Intended to be a class of five they enjoyed contrasting fortunes Seydlitz and Lützow were never completed Blücher was the first major German warship sunk in action Admiral Hipper became one of the most successful commerce raiders of the war while the Prinz Eugen survived to be expended as a target in one of the first American nuclear tests in 1946

[Admiral Hipper Class Cruisers](#) Steve Backer, 2010-06-23 remove from The ShipCraft series provides in depth information about building and modifying model kits of famous warship types Lavishly illustrated each book takes the modeller through a brief history of the subject class highlighting differences between sister ships and changes in their appearance over their careers This includes paint schemes and camouflage featuring colour profiles and highly detailed line drawings and scale plans The modelling section reviews the strengths and weaknesses of available kits lists commercial accessory sets for super detailing of the ships and provides hints on modifying and improving the basic kit This is followed by an extensive photographic survey of selected high quality models in a variety of scales and the book concludes with a section on research references books monographs large scale plans and websites The subject of this volume is the largest and most sophisticated German cruiser class of WW2 The five ships suffered very different fates Blücher was sunk during the invasion of Norway in 1940 whereas Admiral Hipper fought right through the war The most famous Prinz Eugen escaped when Bismarck was sunk and survived to be expended in a postwar Atomic bomb test Seydlitz was intended to be converted to an aircraft carrier but never finished while Lützow was sold to Russia and sunk by her erstwhile owners

"Hipper" Class Heavy Cruisers C. J. Pargeter, 1982 *Heavy Cruisers of the Admiral Hipper and the Prinz Eugen Class* Mirosław Skwiot, 2010 Exceptional reference guide for modelers and historians This lavishly illustrated volume in the War Camera Photobooks series presents a detailed photo history of the heavy cruisers which served with the German Navy the Kriegsmarine during World War II The heavy cruiser was a type of naval warship designed for long range high speed and an armament of naval guns roughly 203mm caliber 8 inches The heavy cruiser can be seen as a lineage of ship design from 1915 until 1945 although the term heavy cruiser only came into formal use in 1930 The heavy cruiser's immediate precursors were

the light cruiser designs of the 1900s and 1910s rather than the armored cruisers of before 1905 With numerous aerial close up profile and in action photographs this book is an exceptional reference guide for both modelers and historians alike About the Series This lavishly illustrated new series presents a detailed photo history of the key machines used during warfare With aerial close up plan view and profile photography War Camera Photobooks are dedicated tributes to the supreme machinery of military technology

German Heavy Cruisers vs Royal Navy Heavy Cruisers Mark Lardas,2021-08-19 This superbly illustrated study explores the epic clashes of British and German heavy cruisers at the beginning of World War II The opposing heavy cruisers of the German Kriegsmarine and the Royal Navy engaged in a global game of cat and mouse during the opening years of World War II This was a period in which the heavy cruiser still reigned supreme in open waters with the opposing sides reluctant to risk their battleships and aircraft yet to dominate the seas These swift vessels fought each other in the South Atlantic North Atlantic the frigid waters of the Denmark Strait and the Arctic approaches to Russia capturing the public imagination in the process This fascinating and beautifully illustrated book examines the design development and technical performance of these opposing warships and explores the clashes between them at the Battle of the River Plate in December 1939 the Christmas Day Battle 1940 and the Battle of the Denmark Strait in May 1941 The ships examined include the Deutschland class Panzerschiffe and Admiral Hipper class cruisers and the Royal Navy County and York class heavy cruisers

German Heavy Cruisers 1939-45 Gordon Williamson,2012-04-20 The development of this excellent and successful class of warship only became possible after the Anglo German naval agreement of 1935 eased restrictions on the types of ship Germany could build even then only five of the class were permitted the Admiral Hipper the Bl cher the Prinz Eugen the Seydlitz and the L tzow These Cruisers were designed for Atlantic operations and had eight 8 inch guns 12 10 5 cm heavy anti aircraft guns and 17 smaller calibre anti aircraft guns as well as twelve torpedo tubes and their own compliment of up to six aircraft This title covers the design development and operational history of the Heavy Cruisers of the Admiral Hipper class

opposing sides reluctant to risk their battleships and aircraft yet to dominate the seas These swift vessels fought each other in the South Atlantic North Atlantic the frigid waters of the Denmark Strait and the Arctic approaches to Russia capturing the public imagination in the process This fascinating and beautifully illustrated book examines the design development and technical performance of these opposing warships and explores the clashes between them at the Battle of the River Plate in December 1939 the Christmas Day Battle 1940 and the Battle of the Denmark Strait in May 1941 The ships examined include the Deutschland class Panzerschiffe and Admiral Hipper class cruisers and the Royal Navy County and York class heavy cruisers

Italian Heavy Cruisers Maurizio Brescia, Augusto de Toro, 2022-12-31 When the Washington Naval Treaty of 1922 effectively banned the building of battleships competition between the major navies concentrated on the next most powerful category heavy cruisers limited to 10 000 tons displacement and 8 inch guns Italy followed this trend the first design for what became Trento and Trieste being ordered in 1924 These were the fastest of the first generation Treaty cruisers but were very lightly armored and the succeeding Zara class of four ships were slower but better protected However before the final ship of this class Pola had been completed there was a return to the earlier fast lightly protected concept with the Bolzano although this ship also incorporated aspects of the Zara design The political background design history and technical features of these classes are covered in great depth in this volume They were important ships subject to incremental improvement so no two were identical and modelmakers in particular will appreciate the space devoted to the variations in appearance using both description and illustration As major units of the Italian battlefleet they were more active than most during the war and their careers are fully detailed including analyzes of damage suffered Tragically they were all sunk and the full circumstances of each loss is explored As befits a technical history the book is thoroughly illustrated with ship and armament plans detail drawings and color camouflage schemes as well as an outstanding collection of photographs Translated from the same series that produced the highly successful Italian Battleships this volume is a fitting companion

We March Against England Robert Forczyk, 2016-10-20 In May 1940 Nazi Germany was master of continental Europe the only European power still standing was Great Britain and the all conquering German armed forces stood poised to cross the Channel Following the destruction of the RAF fighter forces the sweeping of the Channel of mines and the wearing down of the Royal Naval defenders two German army groups were set to storm the beaches of southern England Despite near constant British fears from August to October the invasion never took place after first being postponed to spring 1941 before finally being abandoned entirely Robert Forczyk author of Where the Iron Crosses Grow looks beyond the traditional British account of Operation Sea Lion complete with plucky Home Guards and courageous Spitfire pilots at the real scale of German ambition plans and capabilities He examines in depth how Operation Sea Lion fitted in with German air sea actions around the British Isles as he shows exactly what stopped Hitler from invading Britain

World War II at Sea Spencer C. Tucker, 2011-11-10 The war at sea was a key aspect of World War II one that is too often under studied This comprehensive

encyclopedia shares current understandings of the struggle to control the seas during that conflict and it opens our eyes to the reasons sea power continues to be of critical importance today Scholarly treatment of World War II is constantly changing as new materials inform new interpretations At the same time current military operations lead to reevaluation of the tactics and technologies of the past Marshalling the latest information and insights into this epic conflict World War II at Sea An Encyclopedia will enable students and other interested readers to explore specific naval engagements while also charting the transformation of naval history through innovations in ordnance In treating the naval aspects of World War II this two volume ready reference enhances the understanding of a part of the war that is often overshadowed by the fighting on land and in the air The encyclopedia focuses on the events individuals organizations and ideas that shaped the world's navies during World War II as well as the resultant battles that changed naval history It also covers the numerous innovations that occurred during the conflict and shows how strategies evolved and were executed

Plan Z David Wragg, 2008-09-22 A well written yet concise history of Hitler's plan to build a massive naval fleet why it failed and how it may have affected the outcome of WWII Nautical Research Journal Except for the strength of the U boat fleet at the height of the Battle of the Atlantic the German Navy or Kriegsmarine was never a match for the Royal Navy even though the latter was overstretched and fighting in the Atlantic the Pacific the Mediterranean and the Arctic It was not supposed to be that way Hitler and his naval staff had a vision for a large and well balanced fleet including aircraft carriers Plan Z was the name given for the massive fleet that Germany intended to build However the Plan relied on the outbreak of the war not occurring until at least 1942 This book examines the way in which such a fleet could

have influenced the major battles between the Royal Navy and the Germans Plan Z starts by looking at Germany's history and ambitions as a maritime power The relationships among the three armed forces and between them and the Fuhrer are also examined along with the country's economic and industrial position Thanks to the author's detailed research Plan Z considers whether the Nazis' ambitions could ever have been realized even if the war had been delayed due to the resource and manpower limitations and also considers what the Royal Navy's response could have been Includes photographs

Barents Sea 1942 Angus Konstam, 2022-05-26 A gripping examination of the Battle of the Barents Sea fought in the near darkness and icy cold of the northern winter in which the Kriegsmarine sought to sever the crucial Allied Arctic Convoy route once and for all The Arctic convoys that passed through the cold dangerous waters of the Barents Sea formed a vital lifeline a strategic link in tanks supplies and above all goodwill between the Western Allies and the Soviet Union In December 1942 under Operation Regenbogen Rainbow the German Kriegsmarine sought to strike a crippling blow on the Arctic convoys and finally sever this all important sea route In this fascinating work renowned naval expert Angus Konstam documents the fate of the Allied Convoy JW 51B as it came under attack from some of the Kriegsmarine's most powerful surface warships a pocket battleship a heavy cruiser and six destroyers Illustrated with stunning battlescene artworks maps 3D diagrams and photographs it explores the David and Goliath struggle between the Allied ships defending the convoy and the powerful German force until the arrival of the two British cruisers tipped the balance of power The Battle of the Barents Sea fought amid snowstorms and the darkness of the Arctic night would prove to be a turning point in the hard fought war in northern waters and would test Hitler's patience with his surface fleet to the limit *World War II* Spencer C.

Tucker, 2016-09-06 With more than 1 700 cross referenced entries covering every aspect of World War II the events and developments of the era and myriad related subjects as well as a documents volume this is the most comprehensive reference work available on the war This encyclopedia represents a single source of authoritative information on World War II that provides accessible coverage of the causes course and consequences of the war Its introductory overview essays and cross referenced A-Z entries explain how various sources of friction culminated in a second worldwide conflict document the events of the war and why individual battles were won and lost and identify numerous ways the war has permanently changed the world The coverage addresses the individual's campaigns battles key weapons systems strategic decisions and technological developments of the conflict as well as the diplomatic economic and cultural aspects of World War II The five volume set provides comprehensive information that gives readers insight into the reasons for the war's direction and outcome Readers will understand the motivations behind Japan's decision to attack the United States appreciate how the concentration of German military resources on the Eastern Front affected the war's outcome understand the major strategic decisions of the war and the factors behind them grasp how the Second Sino Japanese War contributed to the start of World War II and see the direct impact of new military technology on the outcomes of the battles during the conflict The lengthy documents

volume represents a valuable repository of additional information for student research The Longest Campaign Brian Walter, 2020-04-30 The award winning historian's acclaimed account of British sea power throughout WWII a must read for anyone interested in Naval warfare PowerShips magazine For four centuries the British realm depended on sea power to defend itself against a myriad of threats The Royal Navy established itself as the Sovereign of the Seas helping transform a small island nation into the center of a global empire But Britain's maritime services faced an unprecedented challenge during World War II and the survival of the nation was at stake The Longest Campaign tells the epic story of British sea power in the Second World War It is a comprehensive and detailed account of the activities results and relevance of Britain's maritime effort in the Atlantic and off northwest Europe Military historian Brian Walter looks at the entire breadth of the maritime conflict exploring the contribution of the Royal Navy Royal Air Force and British merchant marines as well as their Commonwealth equivalents Walter puts the maritime conflict in the context of the overall war effort and shows how the various operations and campaigns were intertwined Finally he provides unique analysis of the effectiveness of the British maritime effort and role it played in Allied victory **USS Constitution, 44-gun frigate, 1797** Kerry Jang, 2025-08-30 The ShipCraft series provides in depth information about building and modifying model kits of famous warships In general these cover plastic and resin models of 20th century subjects but like the previous volumes on Nelson's Victory and Captain Bligh's Bounty this is a radical departure not only a period sailing ship but one for which kits are available in many different materials and scales This requires some changes to the standard approach but the main features of the series remain constant Now preserved in Boston harbour USS Constitution is the oldest commissioned warship still afloat One of the original building programmes of 1794 for the newly established US Navy the ship would enjoy a stellar career beginning with the Quasi War with France and the campaigns against the Barbary states of north Africa However it was the War of 1812 that established the fame of the ship that became known as Old Ironsides following her victories over two British frigates and a number of smaller warships a potent symbol of national pride that kept the ship in commission until the 1880s In the course of this long service the ship's appearance was altered significantly and many of the features of the ship as commonly modelled are actually the product of later and not historically consistent reconstructions A major achievement of this volume is to detail these changes as accurately as evidence allows and to reconstruct the probable colour schemes carried at the most significant stages of her career The modelling section reviews the strengths and weaknesses of available kits lists commercial accessory sets for super detailing and provides hints on modifying and improving the basic kit including the complexities of rigging This is followed by an extensive photographic gallery of selected high quality models in a variety of scales and coverage concludes with a section on research references books monographs large scale plans and relevant websites Following the pattern of the series this book provides an unparalleled level of visual information paint schemes models line drawings and photographs and is simply the best reference for anyone setting out to model this famous frigate

Queen Elizabeth Class Battleships Les Brown, 2013-06-03 The ShipCraft series provides in depth information about building and modifying model kits of famous warship types Lavishly illustrated each book takes the modeller through a brief history of the subject class highlighting differences between sister ships and changes in their appearance over their careers This includes paint schemes and camouflage featuring colour profiles and highly detailed line drawings and scale plans The modelling section reviews the strengths and weaknesses of available kits lists commercial accessory sets for super detailing of the ships and provides hints on modifying and improving the basic kit This is followed by an extensive photographic survey of selected high quality models in a variety of scales and the book concludes with a section on research references books monographs large scale plans and relevant websites This volume covers the five ships of the highly successful Queen Elizabeth class a design of fast battleship that set the benchmark for the last generation of dreadnoughts Although they fought with distinction in WW1 all were thought valuable enough to be modernised between the wars indeed three were massively reconstructed providing the modelmaker with a challenging variety of possible subjects **The German Heavy Cruiser Prinz Eugen** Waldemar Goralski, 2020-02-19 The German heavy cruiser PRINZ EUGEN was an enlarged version of the Admiral Hipper class ships The keel was laid on 23 April 1936 she was launched on 22 August 1938 and commissioned on 1 August 1940 She took part in the first mission of the battleship BISMARCK during which they sank the British battlecruiser HMS HOOD Having split with BISMARCK PRINZ EUGEN was supposed to commence hunting the Allied convoys but due to engine failure she sailed back to France Once repaired she participated in Operation Cerberus the passage of German ships from France to Germany through English Channel
