**Trauma-sensitivity and Peacebuilding** Lydia Wanjia Gitau, 2017-08-18 This book identifies a gap in peacebuilding theory and practice in terms of sensitivity to trauma and its impact on the survivors of war and other mass violence The research focuses on the traumatic experiences and perceptions of peace of South Sudanese refugees in Kakuma Refugee Camp in Northwestern Kenya It further explores the possibilities for peacebuilding identified in these perceptions A lack of sensitivity to the trauma experienced by the survivors of conflict and mass violence leads to interventions that are at best removed from and at worst detrimental to the welfare of the survivors Interventions that take into consideration the complex and multifaceted ways in which the survivors experience and respond to the traumatic events encourage capacities for resilience in the survivors engage the creative arts in peacebuilding and emphasise the centrality of community and relationships are seen to assist the survivors in recovery from trauma and to facilitate peacebuilding Diverse anecdotes and real life stories from the research participants The journey as a recurring motif throughout the book weaved in a clear easy to read style of writing

Dietrich, 2013-07-29 This book considers elicitive conflict transformation and its interrelation with humanistic psychology It discusses the transrational turn in the fields of diplomacy military development cooperation and political economy presenting a new model of conflict analysis with practical implications for peace work

Peace Anatol Rapoport, 2025-10-01 In *Peace An Idea Whose Time Has Come* noted mathematician and peace researcher Anatol Rapoport explores the evolution of the idea of peace and

explains why it is displacing war as a viable institution Professor Rapoport ventures into uncharted philosophical territory by drawing on both the natural and the social sciences to trace the development of the ideas of war and peace He argues that the theory of evolution and processes analogous to natural selection can explain not only biological events but also the development of the institution of war Thus the clashes of armed hordes at the dawn of history were the ancestors of our present battles using automated weapons while Isaiah s prophecy of total disarmament And they shall beat their swords into ploughshares anticipates the resolutions of the United Nations Rapoport explains that although the institution of war enjoys a long history and continues to be a policy option today it may soon fall into disuse either by losing its relevance to modern life or by destroying the civilizations that practice it He then calls attention to ideas that lie dormant until people s ideational environment becomes receptive to their germination peace Anatol Rapoport believes is one such idea Peace continues in the interdisciplinary tradition that has taken root in inquiries at the nexus of science and philosophy No specific technical knowledge is expected of the reader only a willingness to venture into little charted areas of thought [The Missing Peace](#) Eileen Watkins Seymour, Clive Digby-Jones, Susan Norman, 2003 **Water for Peace: Water supply technology**, 1968

*World Peace* Salomon Alain Mpouma, 2012-03-22 The author surrounds personal tales with reflections on finding happiness within oneself including truisms from thinkers like Woodsworth and Gandhi Mpouma has a lot to say about his life which has been one of never fitting in Things took a harsh turn when he was two years old and his father a candidate for public office in Cameroon was assassinated Growing up amid the resulting family turmoil Mpouma was frequently getting into trouble at home and at school He bounced around from the homes of his mother brothers and foster father and never felt wanted During this time he sensed a connection with his deceased grandfather known as Oboss the one who messes things up Mpouma was comforted and inspired by the memory of his outspoken grandfather and his honesty in family or village meetings In his twenties Mpouma won the familys approval by getting married and working at the bank But his heart wasnt in the marriage and after he got divorced that approval disappeared Mpouma joined Soka Gakkai International SGI a Buddhist organization that promotes world peace via achieving personal inner peace Excerpt from Kirkus Discoveries Nielsen Business Media *To Live in Peace* Mark R. Gornik, 2002-09-17 Building on both the perspective of God s new creation and the view from the neighborhood To Live in Peace shows how the life of the church the strategies of community development and the practices of peacemaking can make a transformational difference **Transrational Perspectives in Peace**

**Education** Hanne Tjersland, Paula Ditzel Facci, 2024-02-01 This volume investigates how peace education can contribute to unfold collective and individual potentials for peace and conflict transformation It explores how to cultivate a relational process that honours the interconnectedness of educators students researchers and participants in all their human faculties This includes acknowledging not only the rational but also the embodied emotional mental and spiritual dimensions in their complexity and in their ongoing dynamic transformations Motivated by the possibilities and challenges involved in this

process this book explores the nexus between transrational peace philosophy elicitive approaches to conflict transformation and peace education The first part discusses the transrational peace philosophy and locates it within a broader field of peace education while the second part reflects on how transrational perspectives are tapped into within peace education approaches In total eight researchers and practitioners engage productive tensions that unfold in different geographical spaces in the classrooms and within and between us through embodied affective societal and transpersonal lenses Transrational Perspectives in Peace Education encourages both researchers and practitioners to experiment with and engage the multifaceted potentials that are involved in transrational perspectives within peace education This book was originally published as a special issue of Journal of Peace Education      *The Scripture on Great Peace* Barbara Hendrischke, 2015-03-18 This first Western language translation of one of the great books of the Daoist religious tradition the Taiping jing or Scripture on Great Peace documents early Chinese medieval thought and lays the groundwork for a more complete understanding of Daoism's origins Barbara Hendrischke a leading expert on the Taiping jing in the West has spent twenty five years on this magisterial translation which includes notes that contextualize the scripture's political and religious significance Virtually unknown to scholars until the 1970s the Taiping jing raises the hope for salvation in a practical manner by instructing men and women how to appease heaven and satisfy earth and thereby reverse the fate that thousands of years of human wrongdoing has brought about The scripture stems from the beginnings of the Daoist religious movement when ideas contained in the ancient Laozi were spread with missionary fervor among the population at large The Taiping jing demonstrates how early Chinese medieval thought arose from the breakdown of the old imperial order and replaced it with a vision of a new more diverse and fair society that would integrate outsiders in particular women and people of a non Chinese background      Breaching the Peace Sarah Cox, 2018-05-01 From award winning journalist Sarah Cox comes the inspiring and astonishing story of the farmers and First Nations who stood up against the most expensive megaproject in BC history and the government sanctioned bullying that propelled it forward In 2010 the BC government announced its plan to build a third hydroelectric dam on the Peace River Although Site C would flood land of great significance to First Nations and some of Canada's best farmland BC Hydro Premier Gordon Campbell and his successor Christy Clark insisted it was necessary to generate jobs and clean energy In this powerful work Cox reveals the true costs and hidden dangers of the project as told to her by the local farmers ranchers and First Nations leaders who tried to stop the dam and the wholesale destruction of their valley in courts of law and the court of public opinion This modern day David and Goliath story told in frank and moving prose stands as a much needed cautionary tale during an era when concerns about global warming have helped justify a renaissance of environmentally irresponsible hydro megaprojects around the world      **PEACE PSYCHOLOGY** Akif Manaf, The purpose of this book is to clarify the phenomenon of peace by starting from the question What is Peace The study and research carried out in the book include dialectical analytical psychological and phenomenological factors Peace which is a

universal phenomenon will be discussed and examined in detail Peace is a psychological state Peace is the absence of hostility conflicts fights and wars Peace is living in unity harmony silence serenity and integrity The phenomenon of peace is an expression of both social and individual conditions It emphasizes the absence of external conflicts at the social level and the absence of internal conflicts at the individual level Peace reveals the emotional state of a person who is at peace with oneself This type of person is in a state of calmness balance harmony and serenity Peace has always been needed since the existence of humanity Throughout history the most intelligent people have strived for peace This is because peace is an indispensable phenomenon for the prosperity and development of humanity It is the foundation for equality and happiness in society

*Handbook of Ethnic Conflict* Dan Landis,Rosita D. Albert,2012-02-14 Although group conflict is hardly new the last decade has seen a proliferation of conflicts engaging intrastate ethnic groups It is estimated that two thirds of violent

conflicts being fought each year in every part of the globe including North America are ethnic conflicts Unlike traditional warfare civilians comprise more than 80 percent of the casualties and the economic and psychological impact on survivors is often so devastating that some experts believe that ethnic conflict is the most destabilizing force in the post Cold War world Although these conflicts also have political economic and other causes the purpose of this volume is to develop a psychological understanding of ethnic warfare More specifically Handbook of Ethnopolitical Conflict explores the function of ethnic religious and national identities in intergroup conflict In addition it features recommendations for policy makers with the intention to reduce or ameliorate the occurrences and consequences of these conflicts worldwide **The Grand Design**

Oliver P. Richmond, 2022-05-13 The guiding principle of peacemaking and peacebuilding over the past quarter century has been liberal peace the promotion of democracy capitalism law and respect for human rights These components represent a historic effort to prevent a reoccurrence of the nationalism fascism and economic collapse that led to the World Wars as well as many later conflicts Ultimately this strategy has been somewhat successful in reducing war between countries but it has failed to produce legitimate and sustainable forms of peace at the domestic level The goals of peacebuilding have changed over time and place but they have always been built around compromise via processes of intervention aimed at supporting progress in conflict affected countries They have simultaneously promoted changes in the regional and global order As Oliver P Richmond argues in this book the concept of peace has evolved continuously through several eras from the imperial era through the states system liberal and current neoliberal eras of states and markets It holds the prospect of developing further through the emerging digital era of transnational networks new technologies and heightened mobility Yet as recent studies have shown only a minority of modern peace agreements survive for more than a few years and many peace agreements and peacebuilding missions have become intractable blocked or frozen This casts a shadow on the legitimacy stability and effectiveness of the overall international peace architecture reflecting significant problems in the evolution of an often violently contested international and domestic order This book examines the development of the international peace architecture a grand design comprising various subsequent attempts to develop a peaceful international order Richmond examines six main theoretical historical stages in this process often addressed through peacekeeping and international mediation including the balance of power mechanism of the 19th Century liberal internationalism after World War I and the expansion of rights and decolonization after World War II It also includes liberal peacebuilding after the end of the Cold War neoliberal statebuilding during the 2000s and an as yet unresolved current digital stage They have produced a substantial though fragile international peace architecture However it is always entangled with and hindered by blockages and a more substantial counter peace framework The Grand Design provides a sweeping look at the troubled history of peace processes peacemaking peacekeeping and peacebuilding and their effects on the evolution of international order It also considers what the next stage may bring Peace in the Face of Cancer Lynn Eib, 2017 Millions of us are living in the shadow of cancer
