Boughton, 2021-11-30 The life of a major figure in twentieth century economic history whose impact has long been clouded by dubious allegations Although Harry Dexter White 1892-1948 was arguably the most important U S government economist of the twentieth century he is remembered more for having been accused of being a Soviet agent During the Second World War he became chief advisor on international financial policy to Secretary of the Treasury Henry Morgenthau a role that would take him to Bretton Woods where he would make a lasting impact on the architecture of postwar international finance However charges of espionage followed by his dramatic testimony before the House Un American Activities Committee and death from a heart attack a few days later obscured his importance in setting the terms for the modern global economy In this book James Boughton rehabilitates White delving into his life and work and returning him to a central role as the architect of the world's financial system Julian Barnes Frederick M. BOOK JACKET **History Play** Rodney Bolt,2008-12-10 Rodney Bolt's delightful life of Marlowe plays out a surprising solution to an enduring literary mystery bringing the spirit of Shakespeare alive as we've never seen it before Rodney Bolt's book is not an attempt to prove that rather than dying at 29 in a tavern brawl Christopher Marlowe staged his own death fled to Europe and went on to write the work attributed to Shakespeare Instead it takes that as the starting point for a playful and brilliantly written fake biography of Marlowe which turns out to be a life of the Bard as well Using real historical sources as well as the occasional red herring plus a generous dose of speculation Bolt paints a rich and rollicking picture of Elizabethan life As we accompany Marlowe into the halls of academia the society of the popular English players traveling Europe and the dangerous underworld of Elizabethan espionage a fascinating and almost plausible life story emerges along with a startlingly fresh look at the plays and poetry we know as Shakespeare's Tapping into centuries of speculation about the man behind the work about whom so few facts are known for sure Rodney Bolt slyly winds the lives of two beloved playwrights into one

Matters of Telling: The Impulse of the Story Carlo Comanducci,Alex Wilkinson,2018-11-26 In this book multiple authors and perspectives converge on the materiality of storytelling in order to court its potentialities and flesh out its tensions Reflecting through its methodological multiplicity not only the vast array of discourses and disciplines that concern themselves with the study of narration but also the various and variable subjects of the act of telling the collective effort of this volume is less to map or track than to amplify the possibilities of contingent situations embodied relations and specific texts in which beyond the tale the telling itself speaks and matters *The Fiction of Julian Barnes* Vanessa

Literature of the 1980s: After the Watershed Joseph Brooker,2012-05-08 From the new generation of London novelists such as Martin Amis and Ian McEwan to feminism in the writing of Angela Carter and Jeanette Winterson Joseph Brooker relates developments in fiction poetry and drama to social change He shows how working class writers such as James Kelman and Tony Harrison protested against Thatcherism and explores the voices of Black British writers including Fred D Aguiar and Hanif Kureishi As for the theory of the decade Brooker relates the rise of postmodernism to the popularity of self conscious modes of writing and other developments in literary theory

Thinking Poetry Peter Nicholls,Peter Boxall,2016-03-16 This collection brings together some of the most prominent critics of contemporary poetry and some of the most significant poets working in the English language today to offer a critical assessment of the nature and function of poetic thought Working at once with questions of form literary theory and philosophy this volume gives an extraordinarily diverse original and mobile account of the kind of thinking that poetry can do The conviction that moves through the collection as a whole is that poetry is not an addition to thought nor a vehicle to express a given idea nor an ornamental language in which thinking might find itself couched Rather all the essays suggest that poetry itself thinks in ways that other forms of expression cannot thus making new intellectual political and cultural formulations possible This book was originally published as a special issue of *Textual Practice*
