HARMFUL INTENT

ADVANCE PRAISE FOR *HARMFUL INTENT* BY BAINE KERR

"I loved *Harmful Intent*. It's stylishly written, quick-paced and a ripping good yarn, and is also a book of significant depth. *Harmful Intent* is the best novel about a trial that I've read since *Snow Falling on Cedars*." —Scott Turow

Lama,2012-06-25 Opening the Eye of New Awareness is a succinct thorough overview of the doctrines of Buddhism as they have been practiced for a thousand years in Tibet The Dalai Lama here discusses the need for religious practice and the importance of kindness and compassion Originally written for Tibetan lay people this was the Dalai Lama s first book on Buddhist philosophy to appear in English and Prof Lopez s new introduction places these teachings in their proper historical context This is an invaluable handbook for both personal use and academic study of the Buddhist path Written for both Tibetan and Western readers Opening the Eye of New Awareness is the Dalai Lama s first religious work It is not an edited transcript of public lectures but is His Holiness own summation of Buddhist doctrine and practice Completed in 1963 just four years after his escape from Tibet and four years after completing his religious education it is a work of consummate scholarship by a twenty seven year old geshe wise beyond his years Nowhere in his many subsequent works does one find a more clear and concise exposition of the essentials of Buddhist thought Indeed all of His Holiness s many publications are in some sense commentaries on this first book Child Pornography and Sexual Grooming Suzanne Ost,2009-05-28

Child pornography and sexual grooming provide case study exemplars of problems that society and law have sought to tackle to avoid both actual and potential harm to children Yet despite the considerable legal political and societal concern that these critical phenomena attract they have not thus far been subjected to detailed socio legal and theoretical scrutiny How do society and law construct the harms of child pornography and grooming What impact do constructions of the child have upon legal and societal responses to these phenomena What has been the impetus behind the expanding criminalisation of behaviour in these areas Suzanne Ost addresses these and other important questions exploring the critical tensions within

legal and social discourses which must be tackled to discourage moral panic reactions towards child pornography and grooming and advocating a new more rational approach towards combating these forms of exploitation *Perspectives on Nonviolence* V.K. Kool, 2012-12-06 Paddock has referred to societies as anti violent that inhibit the expression of aggression In his book *Violence and Aggression* KE Moyer has made a brief but interesting comparison of several violent and nonviolent cultures Whereas studies of violence have ranged from genetic cultural to Situation effects and have been pursued through empirical and nonempirical methods over the past several decades nonviolence did not become a favorite area of study among social scientists Although it is impossible to make a complete list of the various reasons for the lack of interest among social scientists on this subject it is generally believed that a lack of understanding of the concept and a failure to either develop or apply adequate methods are to blame Therefore we are not surprised that nonviolence has remained by and large a favorite topic among religious thinkers and leaders only A good example of how people have difficulty understanding the concept of nonviolence came to me when I delivered a lecture to a group of political science students several years ago I experienced similar problems when I spoke to the history and political science professors Subsequent dialogues with faculty members in other disciplines convinced me that our perspectives on nonviolence were not commonly clear to all of us or course most of us did agree on one thing that Is there Is a distinct difference separating Eastern from Western views of nonviolence **What is Wrong with Human Trafficking?** Rita Haverkamp, Ester Herlin-Karnell, Claes

Lernestedt, 2019-01-24 The overarching objective of this volume is to discuss and critique the legal regulation of human trafficking in national and transnational context Specifically discussion is needed not only with regard to the historical and philosophical points of departure for any criminalisation of trafficking but also regarding the societal and social framework the empirical dimension such as existing statistics in the area and the need for more data The book combines descriptive and normative analyses of the crime of trafficking in human beings from a cross legal perspective Notwithstanding the enhanced interest for human trafficking in politics the public and the media a critical perspective such as the one pursued herewith has so far been largely absent Against this background this approach allows for theoretical findings to be addressed by pointing out and elaborating different interdisciplinary conflicts and inconsistencies in the regulation of human trafficking The book discusses the phenomenon of human trafficking critically from various angles giving it shape and showing how it comes to life in the legal regulation *Moral and Legal Reasoning* Samuel J. Stoljar, 1980-06-18 *Abuse of Rights* Fabio Carvalho de Alvarenga Peixoto, 2023-11-16 The book is an adaptation of part of the author's PhD thesis which won the international prize Prêmio FIBRE and was voted one of the three best in Brazil in the field of Law in 2023 It deals with the history of the notion of abuse of rights in its two traditions the Franco-Belgian *abus de droit* and the German *unzulässige Rechtsausübung* It also presents the discourse of abuse of rights with a shortcut function Finally it places the scientific formulation of groups of cases as necessary for the proper use of the abuse of rights discourse Fabio Carvalho de Alvarenga Peixoto PhD in
